Children of Huet, Cal., drove an airplane picking crew of Japanese from the town.

William Robinson, a negro, indicted for the murder of two men, was hanged at Lambert, Miss.

Attorney General Carmody, of New York, declared it is contrary to law to use convicts to build state highways.

Governor Goldborough issued a proclamation making July 5 a legal holiday in Maryland.

The jury disagreed in the case of Giuseppe Pomara, at Cleveland, charged with sending threatening letters to President Wilson.

The northern and southern divisions of the Detroit, Toledo & Ironton Railroad, were sold at auction in Detroit for \$1,650,000.

A raft ferry, carrying 65 passengers, sank in the Kiskiminetus River near Leechburg, Pa. Ten persons were drowned.

Dr. C. C. Sater, a Civil War veteran, died suddenly at Atlanta, when leaving for the Gettysburg celebration, from the effect of a wound received at the battle on July 1, 1863.

The small wheat crop in Kansas is said to be the result of the devastating habits of chinch bugs.

The Batavia, N. Y., Preserving Company plant was destroyed by fire. Loss \$250,000.

A hail and rainstorm swept New Mexico, doing \$100,000 damage to crops.

It is estimated that fifty deaths will be the total as the result of the explosion in the Buffalo grain elevator.

Governor Foss, of Massachusetts, appointed a commission to investigate extravagance and recommend new laws to deal with it.

Thomas Jefferson's portrait will appear on the new issued postal card.

George Giles, an English engineer, was deported from New York as suffering with religious mania.

John Lester Barstow, once governor of Vermont, died at Shelbourne, aged 82 years.

The Illinois attorney-general held that the suffrage bill, recently passed, is constitutional.

Philadelphia authorities notified the residents to boil their drinking water in order to prevent typhoid, which is increasing.

More than 250 volunteers have offered to supply skin for the victims of the Husted Mills explosion in Buffalo.

Minnie Bristol was drowned and H. A. Gregory, a circulation bureau manager, seriously injured when their automobile went through a bridge railing at Chicago.

Joseph A. Bimm, a director of the Dayton, Ohio, National City Bank, committed suicide as the result of heavy losses sustained in the recent floods.

Buffalo physicians have issued a call for 10,000 inches of skin to replace that burned on those injured in the fire at the Husted Mills in that city.

More than 15,000 miners in the West Virginia coal district have been ordered to strike on July 1 by the United Mine Workers of America.

Harry Daniels, a banker, of Upper Sandusky, Ohio, was drowned when he drove his automobile through an open bridge at Port Clinton, Ohio.

A cyclone struck Kasota, Minn., blowing down a grain elevator and several smaller buildings. Loss is estimated at \$150,000.

Appraiser Cogge reported that Mrs. Caroline F. Butterfield, who bequeathed the bulk of her fortune to her granddaughter, Dorothea Ballard Smith, left \$69,159. The will says Miss Smith is not to get the estate if she weds either son of Mrs. Sedley.

Matt J. Sullivan and Thomas J. Hayden were appointed special prosecutors in the Caminetti-Diggs white slave cases.

At a meeting of independent democrats in New York, J. Hampden Dougherty said he was for Theodore Roosevelt for Mayor. But other men there showed strong Whitman sentiment.

Charlotte Walsh, 11 years old, of Baltimore, was cured of cerebro-spinal meningitis by the injection of carbolic acid. It is the first time this treatment has been applied.

Secretary of State Bryan in an editorial in the Commoner defended Attorney-General McReynolds for his attitude in the Diggs-Caminetti case. Additional allegations of cases being delayed or dropped were filed against the Department of Justice.

Members of the Burley Tobacco Society, tobacco growers, of Kentucky, have begun suit against the society's directors, charging they appropriated \$500,000 for the purchase of a tobacco factory without consulting the stockholders.

Foreign

Dominion Park, Montreal's Coney Island, was destroyed by fire.

The French aviator Parlot was injured and his passenger killed, when his machine fell at Liege.

Wallace F. Johnson, of Philadelphia, was defeated in the English tennis tourney at Wimbledon, England.

Eight Italians were killed in a dynamite explosion at a railroad construction camp near Parma, Ont.

The Argentine rifle team sailed from Buenos Ayres for New York, to take part in the international rifle contest.

Earthquake shocks, believed to be 2,000 miles to the eastward, were recorded at Florence, Italy.

The members of the American Society of Mechanical Engineers arrived at Berlin from Dresden.

A conference for the purpose of preventing infant mortality will be held in London next August.

The Cuban House of Representatives approved the budget for the coming fiscal year.

Robert Slack, an aviator, flew from Paris to London with a French newspaper for President Poincaré.

William Clare, a German, was sentenced to five years' imprisonment at Winchester, Eng., charged with being a spy.

Angered because his wife prevented his hanging himself, John Salfak, a tax collector, killed her and their four children at Budapest.

A number of cases of war munitions were seized by the government at Bridgetown, Barbados. They are believed to be for use at Venezuela.

A crowd of 10,000 persons witnessed a bull fight at Santander, Spain, in which 18 bulls were killed and one matador gored.

The Duke of Connaught has accepted an extension of one year in his term of service as governor-general of Canada.

Jack Johnson, the negro pugilist, sailed from Montreal for Havre on board the Allen line steamer Constitution. The immigration authorities were prepared to deport him unless he sailed.

Dora Juan Edwards, the wealthiest woman in Chile, died at Santiago.

Workmen excavating at the Guantanamo, Cuba, naval station unearthed a large jar containing \$30,000 in Spanish gold.

Great Britain is reported to be negotiating for an Unger alrship, which is larger, faster and more rigid than any others yet designed.

The Italian postmaster general granted telephone girls the privilege of getting married. As a result, 300 availed themselves of the chance and each couple asked the postmaster general to act as best man.

OVER THE ELECTRIC WIRE.

The Panama railroad is to be electrified.

The new wireless record is 8,000 miles. The navel station at Newport caught messages from Argentine.

The harnessing of a waterpower near Yorkshire, England, will give that district its first electricity.

An electrically-driven talking and moving picture machine has been installed in four theatres in New York.

Divers are now equipped with a telephone so they are at all times in communication with the surface.

A wireless station is being installed on Juan Fernandez Island—made famous by the story of Robinson Crusoe.

It will require twenty-thousand horsepower of electrical energy daily to run the Panama-Pacific Exposition.

The farmers in Ottawa, Canada, have co-operated to bring in an electric transmission line so they can tap and secure cheap power and light.

A company has been organized in Rio de Janeiro, Brazil for the purpose of utilizing the Paulo Alfonso Falls of the San Francisco River to generate electric power.

The North Eastern Railway company has decided to electrify its line between Shildon and Newport, near Middlesbrough, England. This distance is 18 miles.

The first telephone was exhibited at the Centennial in 1876. It was hardly noticed by the visitors until the Emperor of Brazil picked it up and was surprised to hear it talk.

In the electric furnace gold boils at 2,400 degrees centigrade or at twenty-four times the temperature of boiling water.

Wireless train dispatching is to be tried out on the Lackawanna between Scranton and Binghamton. Each train will be equipped with a wireless outfit.

While the production of steel in electric furnaces is not yet large, statistics show a steady increase in the output throughout the world, Germany and Austria, the United States and France being the most active. In 1911 the output of these four countries was placed at 132,000 tons. Germany takes the lead.

A new invention which melts molybdenum metal by electricity instead of gas has been given a trial at the Government printing office. It is stated that the process handled the day's melting without a break and turned out solid slug. The cost of melting by electricity as against gas has not been given out, but there is one distinct advantage in the no gas fumes are to be contended with.

GENUINE ECZEMA REMEDY.

NEW REMEDY THAT HEALS ECZEMA QUICKLY.

S. E. Thorley sold hundreds of jars of Hokara, and although he offered to refund the purchase price to any dissatisfied purchaser, not one jar has been returned.

While this is surprising in itself, yet the most marvelous thing is the reports of chronic cases of eczema that have been cured by this simple skin food. People who have suffered with scales, scabs and even bleeding itching have found relief in Hokara.

No matter where the eczema, pimples or other breaking out occurs, whether on the face, hands or legs or body, the application of Hokara should give quick relief, and even the worst or most chronic cases should be cured in a short time.

You can buy a liberal jar to-day at the very low price of 25 cents and with every package goes S. E. Thorley's guarantee to refund the money if it is not satisfactory.

Sold on guarantee by S. E. Thorley, at the City Drug Store. ad

Use of Electricity.

The copper cent is a product of electricity.

Almost pure copper is used to make our only copper coin.

This pure copper is secured by an electric process. In the old days it was a very expensive process to refine copper ore and the resultant copper was far from being pure. Now this refining is done by electricity, much the same way as electro-plating is accomplished. The copper ore is placed in a tank near the positive plate of a battery and the electric current turned on. The copper is rapidly broken up into minute particles, called atoms, which are carried through the water by the passage of electricity and deposited on the negative plate of the tank. The result is known as "electrolytic copper" which is the purest known in the metal industry.

A household remedy in America for 25 years—Dr. Thomas' Electric Oil. For cuts, sprains, burns, 25c and 50c. At all Drug Stores. ad

WILLS.

The will of Henry J. Wilmoth, of Meyersdale, was probated. He left the sum of \$1,000 to each of his sons, as follows: Alfred, Fred and Bernard D. Wilmoth. Each of his daughters is bequeathed \$500 as follows: Clara May Wilmoth, Margaret, wife of Ralph Quillman, Florence Wilmoth, Mary Lydia Wilmoth and Gretchen Jane Wilmoth. A life interest in the balance of his estate is devised to his widow, Jenner E. Wilmoth, who is also named as executrix. The will was dated March 6th, 1913, and witnessed by D. J. Fike and C. F. Uhl, Jr.

CORROBORATION

Of interest to Meyersdale Readers.

For months Meyersdale citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Meyersdale residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Meyersdale reader.

Mrs. W. C. Burket, 315 High St., Meyersdale, Pa., says: "I gladly confirm the public statement I gave praising Doan's Kidney Pills two years ago. This remedy was used in my family in a case of kidney trouble and the relief it brought has been permanent. I have often recommended Doan's Kidney Pills to other kidney sufferers and I know of cases where they have been used with just as great benefit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no others. ad

Poor Sticking. Sticking to a poor purpose makes gany a poor stick.
