Taking Care of Your Teeth Means Better Health.

Neglect of them leaves acids and hurtful germs of decay that harm not only the teeth but often seriously affect the throat and stomach.

Proper care of the teeth means daily cleansing with something that will remove the acids and destroy the germs.

TOOTH PASTE

Does those things, we believe, better than any other dentifrice. It tends to preserve the teeth and helps insure the health of other parts of the digestive apparatus that had or improperly cleaned teeth might affect. Rexall Tooth Paste is delightful to use.
