Prayers God Answers.

Desires turned toward God are prayres. Some people suppose that they are praying only when they are on their knees, or speaking to God in some reverent attitude of devotion. But many of the most real and most acceptable prayers are never voiced in the soul longings of the heart, yearnings and aspirations which cannot be put into language! One of the Lot's beatitudes was for those who have longings in their hearts, "Blessed are they that hunger and thirst after rightcoursess for they shall be filled." they that hunger and thirst accordances: for they shall be filled."
Hungerings and thirstings after God, desires to be better, longings for more holiness, wishes for closer communion with God, are prayers which God promises to answer. Hunger is a of health. Not to hunger any of nearth. Not so under any more indicates illness. It is so in the body, it is so in the mind, it is so in the soul. The true spiritual life is full of longings.
