VENUSTIANO CARRANZA

A new portrait of General Carranza, the Mexican constitutionalist leader, who was defeated as the choice of his party for President of the troubled republic.

SPARKS FROM THE WIRES

GARYVILLE, La.—A cow was responsible for the killing of six negro laborers and the serious injury of seven others near here. An engine hauling a log train struck the cow, causing a flatcar to overturn and throwing the negroes into a ditch.
KALAMAZOO, Mich.—Hal Warner, 12 years old, a public school student, died here as the result of injuries received the day before in an interclass football game.
INDIANAPOLIS.—Mrs. Charles Warren Fairbanks, wife of the former Vice President, died at her home here of pneumonia. She is survived by her husband and five children. Mrs. Fairbanks served two terms at President General of the Daughters of the American Revolution.
BALTIMORE.—The General Educational Board to which John D. Rockefeller has given \$42,000,000 to disburse in the general aid of education, announced gifts amounting to \$1,950,000, the largest disbursements ever made in one day by the board, and including a gift of \$1,500,000 to Johns Hopkins Medical School.
WASHINGTON.—American corn is driving out rice in the Philippines as a staple article of food, was the statement made by United States Commissioner of Education Claxton.
AUSTIN, Texas.—Under the Texas 9:30 P. M. saloon closing law a bartender may not remain in his saloon after that hour for any purpose, according to the ruling by the State Attorney General's Department.

LYNCH AS LABOR HEAD

First Named by Sulzer and Confirmation Held Up in Upper House—Renamed by Gov. Glynn.

Albany, Oct. 23.—J. M. Lynch, of Syracuse, president of the International Typographical Union, was named by Governor Martin H. Glynn, as State Labor Commissioner and the appointment was unanimously confirmed by the State Senate.
The resubmission of Mr. Lynch's name by Governor Glynn was in response to a unanimous request from the labor organizations of the State. The Governor sent a special message to the Senate urging Mr. Lynch's immediate confirmation. The term of State Labor Commissioner is five years, and the salary is \$8,000.
Governor Sulzer appointed Lynch State Labor Commissioner after the Senate had twice refused to confirm the appointment of John Mitchell for the position. The Senate likewise failed to confirm the appointment of Mr. Lynch, and the nomination was pending before the Senate Finance Committee when the impeachment proceedings against Sulzer interrupted all legislative business.

HAS SURE CURE FOR TYPHOID

Southern Pacific Physician Uses Injections of Blood from Convalescent Patient.

San Francisco, Oct. 25.—Dr. George R. Carson, of the Southern Pacific medical force announced at the annual convention of the Pacific Association of Railway Surgeons what he claims is a sure cure for typhoid fever without vaccination. His method is a variation of the mode of handling diphtheria. As the lower animals cannot contract typhoid, Dr. Carson uses membrane serum.

The treatment begins with a convalescent typhoid case in man. The serum from the blood of this convalescent is injected into the patient. There is generally a rise in temperature, but normal is usually reached on the day following injection. In three or four days, if the temperature rises, another injection is given. Three or four injections may be required in all.

Over the State

(Western Newspaper Union, Special News Service.)

New Germantown.—The farmers of Toboyne township claim they are not receiving fair prices for their apples this season, considering the fact that the apple crop in the United States is only 61 per cent of a normal. Dealers are offering only 45 and 50 cents a bushel and are then very particular about the size and color. The corn crop is being husked and is greatly below the average. There is a great deal of soft corn, while a great many stalks have no ears.

Mifflintown.—Joseph Garman of Delaware township, purchased a horse near Newport, and while riding along the Pennsylvania railroad near Mifflintown, the horse stumbled and fell down an embankment about twenty feet, landing on the railroad track and breaking his leg. The horse was shot. Mr. Garman jumped off as the horse started to roll down the bank and escaped injury.

Philadelphia.—Receivers have been appointed for the Standard Roller Bearing Co., which operates a plant in West Philadelphia employing 1,000 men. The company is capitalized with \$4,000,000. H. De Forest Baldwin, F. B. Lord and W. D. Sloane of New York are among the directors.

Washington.—Despondent because her small daughter had been taken from her and turned over to her husband, and apparently believing she would be compelled to spend the rest of her days in a public institution, Mrs. Valentine Giron, aged 35, of Avella killed herself in the basement of the Washington County home by cutting her throat with a large butcher knife.

Onedra.—Owners of a number of mercantile establishments, burned out by a fire which caused damage estimated at \$200,000, are figuring on the probable cost of rebuilding and planning to resume business in temporary quarters.

New Bloomfield.—Brooks McClure, son of County Treasurer Robert A. McClure, died here of typhoid fever. He had come several weeks ago from Steelton, Pa., where it is supposed he contracted the disease.

Marysville.—Trailing arbutus in full bloom was found by a class in botany in the high school, while out on a chestnut hunt.

Hallfax.—The Bell Telephone company, which is endeavoring to purchase the Enterline-Hallfax Telephone and Telegraph company, an independent line operating between those two towns, will hold a meeting of stockholders of the smaller company on November 21, at the company's offices in Enterline. At this meeting there will be submitted to the stockholders of the Enterline-Hallfax company an agreement in writing, for approval or disapproval, for the sale of the independent line. The Bell company will take over all outstanding and issued stock, franchises, corporate property, rights, credits, debts, liabilities, duties and obligations of the independent line. The Bell company has promised to pay \$25 a share for all outstanding capital stock.

Unintown.—That Mrs. Martha Hedinger of New Orleans was the mother of Mrs. Berthana Rosanna Smith, was the contention of Mary Jane Kepple and others in the case which opened before Judge J. C. Work in common pleas court here to recover the estate of Mrs. Smith, valued at \$200,000.

Unintown.—Apparently it took James Hackney, aged 40, of Luzerne township, one year to raise \$3 to pay a fine. Last October Hackney was arrested on a charge of drunkenness. It is said, and when brought before a justice of the peace he was fined \$3. Not having that amount with him, Hackney was allowed to go to get the money. Nothing was heard from him until a few days ago, when he returned and paid the fine.

Washington.—President James D. Moffat of Washington and Jefferson college is representing that college at the dedication of the new graduate school building erected to the memory of former President Grover Cleveland at Princeton university. Dr. Moffat will go to New York city to confer with the members of the general educational board in regard to raising another \$500,000 endowment fund for Washington and Jefferson.

Ebensburg.—R. C. Thompson, aged 32, and G. R. Wiley, aged 25, both of Brownsville, were instantly killed here when they came in contact with a high tension wire of the Ebensburg Light Heat and Power company. They were working on a telephone wire which in some way touched the tension wire. Alvin Adams, aged 30, was badly burned and was saved from death by the quick action of his brother.

Centerville.—The Rev. S. G. Kauffman, pastor of the United Brethren church of this place for many years, has resigned and accepted the call of his former charge at Neffsville, which he held 23 years ago.

Harrisburg.—The Washington party state committee met here for organization under the act of 1913 and elected a chairman and other officers and adopted a series of resolutions setting forth the principles of the party in Pennsylvania. Brainerd Colby of New York was chief speaker.

Sharon.—After eluding the police in a dozen cities Arthur R. Bush, editor, evangelist and shoe merchant, was arrested in Hammond, Ind., and will be brought back to Sharon for trial on charges of embezzling \$400 from a shoe company and defrauding a boarding house keeper.

POULTRY

FOWLS SUITABLE FOR FARM

Old Farmer Says He Has Never Seen Anything Better Than Plymouth Rocks and Wyandottes.

Many farmers have hobbies and pet theories which sometimes bring them plenty of "experience," but as a rule they look at everything along utility lines, says Farm News. Some farmers have been looking for the best farmer's fowl, have bred almost all breeds in existence, and yet have to confess to failure along these lines. At times he thinks that he has the best bird cornered only to find that it is still, at large. A buzz-saw is all right for the purpose for which it was intended, but it can't be used for shaving a man's beard. All these things are very practical in their way, but making them answer for all purposes is very much like corralling a cyclone, something no man has succeeded in doing.

One person wants fowls for the production of eggs, and, therefore, will want the breed whose hens prove to be the best layers. Another wants the best table fowl, and an entirely different breed will be selected. The third man wants a fowl with a certain fancy feather and pays a fancy price for it. A farmer living several miles from town cares very little for fowls of any particular kind, yet he

Columbian Wyandotte Pullet.

will admit that they are an unfailing source of supply in case of emergency in supplying the table, buying the groceries and keeping him out of debt for long intervals.

The farmer's flock should be prolific without sacrificing other qualities. They should be good table fowls. To satisfy this requirement they must be of good size, plump and of good appearance when dressed. They must be hardy and good foragers, as there is much waste food on the farm that can be converted into cash returns by the fowls. The hens must be good sitters and mothers, as many farmers are not ready to buy incubators—although they should do so at once. These are questions that are being studied by the careful, and each individual will have to determine the matter for himself. An old farmer who is now off the active list, but still lives on the farm and raises poultry as a diversion says he visited many poultry shows just to inspect some of the best birds of the new varieties, and he says that he has never seen anything better than the Plymouth Rock and Wyandotte varieties for real business stock. He said: "You can tell inquirers that these two breeds are still at the top, and there are enough varieties of them to please any sensible person. As to individual taste, the old Indian said if men were all alike they would all want his squaw."

So many varieties of chickens have been evolved that it seems as if there should be nothing left to be sought or desired in the way of beauty or utility.

DOULTRY NOTES

Sell all the roosters not needed for breeding.

Don't buy breeding stock that lacks in strength and vigor.

Keep everlastingly and eternally after the lice and mites.

A box of crushed oyster shells should always be kept in reach.

Keep the coops for the small chicks at a distance from the hen house.

Low perches will induce young stock to roost in the poultry house early in life.

The color of the egg shells has nothing to do with the food value of the eggs.

A combination of the heat with lice pests is enough to cause fowls not to do well.

The flavor of eggs and their color depends very much upon the kind of food given.

After the moult a little linseed meal is a fine thing to round out the poultry ration with.

Commence to gather dry road dust and put away in barrels in a dry place for next winter's use.
