FOREIGN WARSHIPS LOOK ON

England Continues to Ignore Wilson's Efforts—Criticism Is Resented—No Explanation Asked, as British Envoy Has Been Upheld.

Washington, Oct. 23.—The disclosures of the sharp divergence between the Governments of the United States and Great Britain in regard to Mexico continue to grow in importance. The split between the two Governments is regarded as one of the most significant developments in the Mexican situation and likely to have far-reaching results.

That the recent discussions between Washington and London have been accompanied by some bitterness was learned here. Keenest disappointment was felt by the Washington Administration at the results of the inquiries addressed to the British Foreign Office. This disappointment is the greater because of the fact that the discussion opened with an expression of regret over the course of Sir Lionel Carden in Mexico City. The answer of Great Britain is regarded as not only an expression of lack of sympathy with the policy of the United States but even as a rebuff.

The statement attributed to Sir Lionel Carden in Mexico City has not served to help matters. In some quarters his statements, as reported here, were regarded as little short of insulting, and surprise was expressed that he ventured so far.

Sir Lionel's statements are regarded here as open to only one construction; that he intended to criticize the policy of President Wilson in Mexico. His statement that he did not feel it incumbent upon him to investigate what Huerta might have done overnight before presenting his credentials as British minister is but one way of saying that Great Britain does not believe in the policy of subjecting Huerta's administration to scrutiny. Even more sharply critical of President Wilson is the remark credited to Carden to the effect that he did not consider it right for foreigners to constitute themselves a committee of investigation into the internal affairs of Mexico.

More frank and pointed than either of these statements, however, was his declaration that the United States does not fully realize the seriousness of the Mexican situation.

Norfolk, Va., Oct. 23.—Four ships of the Atlantic fleet—the New Jersey, Rhode Island, Nebraska and Virginia—were ordered to Mexico. Orders detaching these ships from the fleet caused considerable excitement in naval and diplomatic circles.

Naval officers stated that warships now at Vera Cruz would return home when the ships ordered out reach the Mexican port. Some others were of the opinion that the orders, coming at this time, in sending ships to Mexico were more significant.

Vera Cruz, Mexico, Oct. 23.—The steamship Corcovado, with General Felix Diaz on board, and the German protected cruiser Hertha arrived here almost at the same moment.

The Hertha anchored under the walls of the fortress of San Juan de Urua, not 200 yards from the Corcovado. After the Corcovado had been inspected by the port authorities a boat put out from the Hertha and sent two German officers on board the steamship on which General Diaz had made the voyage here.

General Diaz landed without hindrance and was cheered as he came ashore.

Albany, N. Y., Oct. 23.—Unless a special bill is passed by the Legislature for the payment of the fees of William Sulzer's counsel they probably will not receive a cent for their work. Nor will they take the initiative in having such a bill introduced, D-Cady Herrick said.

"We shall not ask the State to pay us," he said. "Nor do we expect any pay from Mr. Sulzer. He has not paid us anything, and we shall not ask him for a cent. If the State feels that it does not want us to be in its debt, and any legislator voluntarily introduces a bill granting us a fee, we shall not oppose it."

Mr. Herrick said he spoke for all of the ex-Governor's counselors.

Expect Nothing Unless Legislature Passes Special Bill, Says Herrick.

WILSON SENDS FIRST VETO

Disapproves Reinstatement at West Point of Cadet Who Failed in Examination.

Washington, Oct. 24.—President Wilson sent his first veto to Congress. He disapproved a joint resolution to reinstate Adolph Unger, of Mansfield, Ohio, as a cadet at West Point. Unger, appointed by Representative Sharp, failed in examinations after a strenuous effort to succeed and his friends sought another chance for him.

WASHINGTON LETTER.

Special to The Commercial.

The most spectacular, if not the most important, political doings these days are going on in New York, where Sulzer and his graft investigator Hennessy have got Murphy, McCall and the rest of Tammany backed up against the wall and are daily and nightly shooting them full of holes as efficiently as any Huerta agent ever shot a Madero—and much more legitimately. It is an amazing tale that Hennessy the graft prober tells, but he supplies convincing detail for most of it.

It seems that, as Jimmy Dolan used to say, the Tammany grafters have found "no detail too small to ignore." They even made a systematic levy upon the wages of the \$40 a month men who worked on the canal and they had their collectors in the paymaster's office so that the graft was deducted before the pay envelopes were delivered to the employees. According to Hennessy's figures, this line of graft alone amounted to about \$8,000 a week.

The graft Hennessy has disclosed renders all the more clear and emphatic the important duty of Martin Glynn, the governor whom Tammany has installed in place of Sulzer at Albany. Whatever of folly or wrong the impeached governor may have committed, it is undeniable that he did one thing that was good and strong and straight for the state. He did start in the trail of the grafters, and it is undeniable that it was because he was on the trail of the grafters, and because Murphy and Tammany knew that that trail if pursued would put some of their friends in the penitentiary that Sulzer was impeached. Obviously, Murphy and Tammany were more ready to trust their case to the friendly hands of Martin Glynn. Just as obviously, there devolves upon Mr. Glynn the paramount duty before everything else, to pursue the trail that Sulzer's investigations uncovered.

Will he do it?

On the day that he became governor, when he was holding his first talk with the newspaper correspondents in Albany, one of the reporters recalling the Sulzer declaration of last January that he was the "leader of the Democratic party," asked Glynn if he intended to proclaim himself the leader of the party in the state. Mark the reply.

"I have no ambitions to be leader," said Mr. Glynn.

There we have Glynn's certificate of Murphy's leadership.

In the New York "Times" of the day after this interview, in the report of events at Albany, there appears this significant paragraph:

"The legislative leaders who were here today were profuse in declaring that Mr. Glynn would have the hearty support of the Democratic majority in the legislature, and that they did not look for any differences like those which marked the administration of Sulzer."

There we have Tammany's certificate of Glynn's acceptability to it.

What is the prospect that the new governor will attempt to perform the paramount duty which now faces him.

gentle, But Effective.

Representative "Bill" Murray of Massachusetts every now and again comes through with a good tale, as witness whereof the following polite way of calling a man a liar:

"No, I would not call Mr. Blank a plain and unvarnished liar. I would not call him a prevaricator, nor would I intimate that he was a perverter of the truth, or even inclined to exaggerate upon circumstances, but if I should see him walking down the street with Annanias upon one arm and Sapphira upon the other, I should be inclined to believe that he was in the bosom of his family"—Washington Star.

To Give Children Birthright. The advisability of legislation in New York for the benefit of children of divorces entered into in reliance on divorces which the New York courts will not recognize is indicated in the decision of the court of appeals in Baylis vs. Baylis. The decision shows that legislation is necessary in order that children of a marriage entered into in good faith may be relieved of a slur on their names and a grave disqualification as to the rights of property. The court held that the statute providing that where it appears that a marriage was contracted by at least one of the parties in good faith and in the full belief that the former wife or husband was dead, or without any knowledge by the innocent party of said former marriage, the children of the subsequent marriage are deemed to be legitimate children of the parent competent to contract the marriage, does not include a case in which the innocent party acted on the erroneous belief that the other had been legally divorced.
