Lace Underskirts.

There are so many dresses for young girls with straight or slightly draped tunics opening over underskirts composed of three or four ruffles of soft lace. These ruffles are sometimes made of fine net edged with a thread in some bright color which is repeated in the sash, or used as a narrow velvet piping for the neck and sleeves. This edging of a couple of strands of colored silk or thread forms a very pretty finish for net ruffling.

TELL OF NEEDLE DRUGGING

Armand Megaro, Alleged White Slaver Held in \$20,000 Bail in Newark.

Newark, N. J., Dec. 6.—Armand Megaro, arrested charged with jabbing a poisoned needle into the hand of Mrs. Marjorie Graff, the bride of a week.

Wesley Montieff Graff, a civil engineer, as she was watching moving pictures in a box at the Lyric Theatre, was held in \$20,000 bail for the Grand Jury by Judge Hahn.

Miss Mary Lee, who is a stenographer for the Beckwith-Chandler Varnish Company in Newark, was jabbed with the needle five weeks ago in the Shubert Theatre. So effective was the drug in the case of Miss Lee that two men got hold of her and were taking her from the theatre when she was rescued by her sister.

The detectives believe, now that the exposure has been made that Mrs. Graff, Miss Clark and Miss Lee have related their experiences, that many other Newark girls will admit that they also were victims of what is confidently believed to be a daring gang of white slavers.

SAY IT'S A LAND FRAUD

Moving Picture Shows Used in Novel Way to Market Costly "Free Lots."

Kansas City, Dec. 5.—An alleged land fraud which, according to post-office inspectors, was conducted in several States through the medium of moving picture shows and the United States mails, led to the arrest here of W. B. Emrich and N. H. Spitzer, of Louisville, Ky., on a charge of misuse of the mails.

Tickets are said to have been distributed among spectators at picture shows, with the announcement made that holders of the "lucky" numbers would be given deed to a lot in Guernsey, Sonoma County, California. The "lucky ones" were then required to pay more for the "filing of papers" than the lots were worth.

50 LOST IN FLOOD

BRAZOS RIVER IN TEXAS FROM THREE TO FIVE MILES WIDE.

PROPERTY LOSS IS \$5,000,000

Hundreds of Head of Live Stock Have Been Drowned, and Scores of Homes Carried Away Since Rivers and Creeks Overflowed.

Bryan, Tex., Dec. 6.—A death roll of more than fifty persons, with scores of flood refugees in imminent peril, and possibly a thousand others marooned and suffering from hunger and cold, was the situation indicated by reports from the flooded Brazos River bottoms in this section of South Central Texas.

For more than fifty miles the Brazos was three to five miles wide and running at high speed. About two-thirds of the dead are said to have been negroes.

The couriers' reports indicated that the property loss will total \$4,000,000 or \$5,000,000 when losses along the Brazos are added to the already heavy damage in other parts of the State.

Henry Martin, Vice-President and General Manager of the International and Great Northern Railroad, was drowned at Valley Junction, near here, while attempting to rescue marooned flood victims. He went there to personally direct the road's relief forces and was attempting to navigate a boat alone when the frail craft was upset.

Six members of the life saving crew stationed at Galveston and a trainload of motor boats from Houston, which started for Bryan, were stopped by high water at Navasota. The boats were launched at that point and started up-stream over the flooded bottoms to rescue persons reported clinging to trees and house-tops.

Anxiety was felt for scores of negroes whom the boatmen reported as having clung to trees twenty-four hours.

Eight miles from Bryan, Lee Cortmella, an Italian, was heard calling for help from his half submerged cabin. Next morning the cabin had disappeared. Cortmella, with his wife and several children, was drowned.

Planters in the bottoms have refused offers of rescue, sending out their wives and children to Bryan, but themselves remaining behind in the water, tearing down parts of their building to improvise platforms for their stock. Anxiety is felt for some of them. Seth Mooring was last seen on top of his house near the river. He refused to leave.

Thousands of convicts on the State farms south of Houston were moved to high land.

WOULD BAR USE OF "U. S."

House Bill Prohibits Financial Institutions from Adopting Term in Titles.

Washington, Dec. 6.—A bill prohibiting any financial institution from using in its title or otherwise the term "United States" of the initials "U. S." was introduced into the House by Representative Steenerson, of Minnesota, a Republican. Mr. Steenerson explained that he was impelled to offer the bill by the circumstances that marked the recent absorption of the United States Trust Company of Washington by the Munsey Trust Company, of which Frank A. Munsey, the newspaper publisher is president.

"It is time to stop the indiscriminate use of the phrase 'United States' or its diminutive 'U. S.," said Mr. Steenerson. "Its use by business concerns often deceives and frequently opens the way to fraud."

There was but one bid, the gentlemen offering \$5,000,000. The property was promptly struck off to them.

MORE UNMARRIED EMPLOYEES

State of Washington Compensation Law Has Queer Effect on Hazardous Work.

Olympia, Wash., Dec. 5.—It is stated that one effect of the Washington workmen's compensation law is an increase of 15 per cent. in the number of unmarried men and men without dependents employed in hazardous occupations in the State. The reason for this, it is said, is that the law provides for merely nominal expenses in case the employe is killed in the course of his work while the employer is bound where there are dependents to compensate the dependents for the loss of the bread winner.
