Mrs. Pankhurst started a hunger strike in Exeter Jail.

The liner Thesus, with 800 pilgrims aboard, lost her propeller and went aground near the Island of Jibel Ter in the Red Sea. None of the passengers were drowned.

Public Drinking Cup Prohibited.

The public has an unquestionable right to demand cleanliness from the proprietors of public eating houses and that proper precautions be used in cleansing the dishes and utensils used in the preparation of foods and in the service.

The wiser and more far sighted restaurateurs for several years past have carried out every reasonable sanitary precaution and the growing number of spotless white tiled eating houses where the food is prepared in a cleanly fashion under the eyes of the patrons, is a sufficient evidence of the fact that this care and attention is appreciated by the public. There is no reason why the demand for decency in the serving and preparation of food should in any way increase its cost."

The full text of the rules and regulations above mentioned is as follows:

First: "Those responsible for establishing or conducting any public drinking place in the Commonwealth of Pennsylvania are hereby forbidden to furnish or permit others to furnish or keep any common drinking vessel for common use at any such drinking place provided this rule and regulation shall not preclude the use of vessels which are cleansed by washing in boiling water or are disinfected or destroyed after individual use. Public places within the meaning of this regulation shall include common carriers, private, public, parochial or Sunday schools, industries, factories, theatres, shops, offices, hotels, etc.

Second: "No person, persons or corporation within the Commonwealth of Pennsylvania shall furnish for public use any towel unless such towel be laundered or discarded after each individual use."

Third: "Barbers are hereby forbidden to use a common brush for brushing the eyes of their patrons unless such brush be disinfected after each individual use."

Fourth: "Proprietors of persons in charge of public eating places are hereby forbidden to use drinking vessels, dishes, spoons knives, forks finger bowls, and other eating utensils which have not been thoroughly cleansed after each individual use."

Fifth: "All physicians practicing within the limits of the State shall make an immediate report of each and every case of scabies and impetigo-contagiosa."

(The penalty which the Act of April 27th, 1905, provides for the failure to observe them is as follows:)

Section 16. Every person who violates any order or regulation of the Department of Health, or who resists or interferes with any officer or agent therefore in the performance of his duties in accordance with the regulations and orders of the Department of Health, shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be punished by a fine of not more than one hundred dollars, or by imprisonment not exceeding one month, or both, at the discretion of the court.

Look Here for it.

Many a Meyersdale Reader will be interested.

When people read about the cures made by a medicine endorsed from far away, is it surprising that they wonder if the statements are true? But when they read of cases right here at home, positive proof is within their reach, for close investigation is an easy matter. Read the Meyersdale endorsement of Doan's Kidney Pills.

Mrs. C. Merrill, 336 Keystone St., Meyersdale, Pa., says: "I had nearly all the symptoms of kidney trouble. Backache, chills, dizzy spells and headaches annoyed me and I got worse as time passed. My ankles swelled and I knew that something must be done. Doan's Kidney Pills were so highly recommended that I commenced using them. The pains were soon relieved and my health improved greatly. Last fall I used Doan's Kidney Pills again and they helped me promptly. This remedy is the best one I have ever taken for kidney disorders and I have no objection whatever to the continued publication of the endorsement I have given before."

For sale by all dealers. Price 50 cents. Don't simply ask for a kidney remedy—get Doan's Kidney Pills the same that Mrs. Merrill had. Foster-Milburn Co., Props., Buffalo, New York.

CHRISTMAS FIXING.

Smart Belongings Sure to be Acceptable.

The above designs are by The McCall Company, New York, Designers and Makers of McCall Patterns.

New York, Dec., 6.

To judge from the fashionably attired crowds now thronging all the smart stores and small Specialty Shops, one might suppose that every other woman's sight was affected, by nearly everyone wears lognettes or a monocle suspended from a jeweled chain or modish "Sautour".

This latter is usually of black moire ribbon and its mountings simple or elaborate as taste and purse permit.

The girlish contingent prefer the monocle to the lognettes, though when the latter are closed the effect of both are similar. The circular form is the popular choice, the glasses quite unprotected, and rimmed with shell, silver, aluminum, gold, or platinum. Prices vary from \$1.95 for an aluminum monocle to figures in the hundreds where lognettes and Sautour mountings are set with diamonds and other small but brilliant stones. Tango slipper sets are new and very smart, transforming any plain slipper with their brilliant rhinestone settings and cross-strapped fastenings. These also come in a wide range of prices.

AN ENGLISH FASHION.

English ladies when off on the long walks that they enjoy, carry a small cane, and this idea is taken up to some extent by American girls and women. Very sporty and attractive are some little canes of snakewood, with carved dog's heads, having flexible jaws, daintily silver mounted which are selling for \$1.50 on Fifth Avenue.

Bracelet watches are increasingly worn and come in many new and attractive mountings. They are mounted on heavy straps of black moire ribbon rather than on leather for general use, though the leather strap still keeps its place. There is no limit to the elegance and extravagance of the mountings of these most convenient time pieces. Flexible bracelets of woven gold or platinum set with precious stones, and the watch similarly ornamented, carry these up to any limit desired in elaboration and price.

HAND BAGS AND PURSES.

The hand bag of moire silk that finishes at the bottom with a long silk tassel is evidently a favorite. One of these comes with a watch inserted, face out, and nearly all of them have mirrors, change purses and card cases included in their fittings. Saddle bag purses and bags with convenient double compartments made up in soft suede, silk and velvets, and for elaborate wear there is no end to the bead and tinsel embroideries employed to render them attractive. With the vogue for colored bead embroideries, all the old time bead purses and bags are once more to the fore in fashionable usage.

DRESSING TABLE FIXINGS.

The modishness of all sorts of dressing table fixings, draped in fancy silks and laces and made even more ornate with tiny flowers of silk and metal ribbon, shows clever copy-cats away to utilize the odds and ends in the piece bag to considerable advantage. An ordinary salts bottle draped in tinsel net over rose color and garlanded with tiny silk flowers, is marked at a prohibitive figure for the ordinary purse, but is not a bit difficult to copy, at very small expense. Little cushions that are also sachets made of satin and surrounded by ruches of lace are similarly ornamented and priced.
