Clears the Complexion.

Discovery that Removes Pimples, Eczema and all Skin Troubles.

If you are troubled with pimples, blackheads, acne, barber's itch, blotches, freckles or other skin disease or blemish, now is the time to get rid of it with HOKARA.

This pure and simple skin healer is being introduced in Meyersdale by S. E. Thorley at the low price of 25c for a liberal sized jar, and they've sold hundreds of treatments.

It contains no grease or acid, is clean to use and it is a true nourishment for the skin, cleaning and clearing it in every pore, making it soft, white and beautiful.

If HOKARA does not do even more than is claimed for it, give perfect satisfaction, return the empty jar to S. E. Thorley's Drug Store and they will refund your money. If you have any skin trouble, you cannot spend 25c to better advantage than for a jar of this skin food.

Sold on a guarantee by S. E. Thorley, Druggist.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. The result was lasting."—Hcn. John B. Garrett, Mayor, Girard, Ala.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department, the Moody Bible Institute, Chicago.)

LESSON FOR JANUARY 25

SERVING JESUS.

LESSON TEXT—Luke 8:1-3; 9:57-62; GOLDEN TEXT—"Inasmuch as ye did it unto one of these my brethren, even the least, ye did it unto me."—Matt. 25:40.

The first section of our lesson text has no connection with the other two. It is taken from a time several months previous to the time of the Perean ministry and was undoubtedly chosen as an indication of the company who traveled with Jesus and his disciples, and who provided for his needs. We must remember that Jesus was not supported by a board, a church, nor by some philanthropically inclined fellow citizen. It is to the second two sections therefore that we devote our chief attention.

Different Classes.

I. Those who would follow Jesus, 9:57-62. Read carefully Matt. 8:19-23. Three different classes are here represented: (1) The impulsive follower (v. 57, 58). This is the man who is moved by a sudden desire to accompany this marvelous Teacher, but like the man in the parable, does not sit down and count the cost ere he starts to build his house. This thought is emphasized when we read (Matt. 8:19) that this man was a scribe, one who would not be expected to make such a resolve. He must have been deeply stirred by what he had seen and heard in the life of Jesus. Such a resolve promised well, but it is soon revealed to him that he did not realize what was involved in his promise (v. 58).

Jesus showed the man that to go "whithersoever" with him means to share his experiences, his fare, his quarters, and to receive the same treatment he received, 2 Tim. 3:12. It is a mistake to tell folk that the road of righteousness is a primrose path. The road of disobedience is a rough one, as the man who went to Jericho found, still the road of righteousness is a narrow one, Matt. 7:13, 14. Every follower of Jesus must be willing to take what he took, and to receive what he received, John 15:20; 1 Pet. 2:21.

This sentence (v. 58) has done more to give us a comprehension of the earthly surroundings of our Lord than any other in the gospels, 2 Cor. 8:9. (2) The procrastinating follower (v. 59). Jesus did not forbid the first man, he simply showed him what was involved. This man, however, Jesus invited to a place as disciple—learner. That he was willing to accept is evident, only he was not quite ready, "I will, but—" It is not at all probable that this man's father was awaiting burial; had his father but just died, and awaiting burial, Jesus would not have prevented. Rather he was indicating a father about to die, and that he would follow after his father's death. Hence the sharp words of the Master, "Let the dead bury the dead." A proper duty, a sacred duty, but not so proper nor so sacred as to have precedence over the claims of Jesus, Matt. 6:33; 10:37.

Ever Ready to Serve.

II. Those who did follow Jesus, 10:38-42. We now turn to consider this little company who were ever ready to serve our Master. From v. 58 we know that not every home was open to receive Jesus as was this one in Bethany, John 11:1. Though this was Martha's home (10:38); and therefore she felt the burden of hospitality, yet she did not hear the word as did her sister Mary, Mark 4:19. Martha was occupied with "duty" and Mary, with "things." Mary was occupied with the "one thing needful." The result was that Martha was "distracted" (R. V.), while Mary was at rest. Jesus wants his disciples, his followers, to sit at his feet and to learn of him. He knows all about duty's dull demand, but the one thing needful is, first of all, to learn of him. Martha's love prompted the service, but there was doubtless much pride that accompanied it. Jesus, as we have seen, was not cumbered with much comfort, and it is doubtful that he was desirous of a big dinner. Jesus does, however, commend communion with himself as being, "that good part." Afterwards, when death invaded that circle, it was Martha that had the most intimate dealing with our Lord, see John, chapter 11, hence we conclude that she learned on this day the lesson Jesus sought to teach, viz., that in the life of quiet communion (Isa. 30:15) we shall receive that strength that is absolutely essential, if we are to serve him acceptably. We must not allow the daily, legitimate demands of duty to interfere with a life of full, free, fellowship with the Master.

Summary—It has never been recorded that Jesus ever complained of the hardships of life, yet he had his intimates who were glad to minister to his needs. The call to companionship with Christ, the call, "follow me," is the most stupendous program yet presented to man. The perfect disciple, as well as the ideal woman, is the one who is a blend of the divergent characters of Martha and Mary. It is at the feet of Jesus we are to receive that strength which is necessary for effective service. "Making excuses takes the strength that had better be put into service."

Varieties of Apples for a Home Orchard.

A correspondent from the eastern part of Pennsylvania wrote to State Zoologist H. A. Surface asking for information concerning the varieties of apples to plant for a "family orchard of fifty to sixty trees, that would give as near as possible apples for the whole year around. How far apart should they be planted, and what is best to use as fillers? Would you advise digging holes with dynamite?"

To this Professor Surface replied as follows:

"If I were planting an apple orchard of about fifty to sixty trees in this State for family use, for the purpose of obtaining apples the whole year round, I would plant one-year-old trees, forty feet apart, and would use for fillers some peach, some sour cherry, some sweet cherry, some plum and some dwarf pear trees.

I would not dig the holes with dynamite, as I consider it very expensive and generally useless as far as practical results are concerned, if the soil is properly adapted to the tree growth. The varieties I recommend are as follows:

Yellow Transparent, 2; Red Astrachan, 2; Maiden Blush, 2; Summer Rambo, 2; Sweet Bough, 2; Smokehouse, 3; Grimes Golden, 2; Jonathan, 3; Rome Beauty, 2; Stayman Winesap, 4; Winter Sweet Paradise, 2; Lady Sweeting, 2; Tolman Sweet, 2; Hyslop's Crab, 2; Transcendent Crab, 2; Baldwin, 2; King, 2; Gravenstein, 2; Delicious, 2; Stark, 2; Hubbardston, 2; Ben Davis, 2.

MAY PROVE FATAL

When will Meyersdale People Learn the Importance of It?

Backache is only a simple thing at first:

But if you find 'tis from the kidneys:

That serious kidney troubles may follow:

That dropsy or Bright's disease may be the fatal end.

You will be glad to know the following experience.

"This is the honest statement of a resident of this locality.

Mrs. Rosie Donner, Main St., Berlin Pa., says: "It would be hard for me to fully describe how severely I suffered from kidney complaint. At times I was so lame and sore that I could hardly do my housework and my back ached constantly. When I saw Doan's Kidney Pills advertised I got a box and began using them. I improved from the first and before long, I was restored to good health. I recommend Doan's Kidney Pills just as highly today as I did when I gave my former statement. I have used them occasionally since, and they have always brought relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills the same that Mr. Donner had. Foster-Milburn Co. Prop., Buffalo, N. Y.

Fumigating Empty Combs.

A correspondent from New York writes as follows: "Some of my neighboring beekeepers have been given giving the combs they use in the extracting super a gas treatment (formaldehyde), putting them in a gas-tight room and subjecting them to several hours of gas. This has proven advantageous, as combs so treated have shown no recurrence of disease. Would a similar treatment by the use of hydrocyanic acid be better in any way? I have a comb room that can be made gas-tight or nearly so, and I have thought to give all my combs a treatment. Kindly give me some information on this subject."

Prof. Surface replied as follows:

"Replying to your letter asking if the treatment of empty combs with hydrocyanic acid gas would be better than formaldehyde gas to kill the germs of bee diseases, I can say that I am of opinion that formaldehyde fumes are better for the reason that the fumes would be a germicide and not an insecticide, while the hydrocyanic acid gas is an insecticide and not recommended as a germicide. It is germs that you wish to kill. The formaldehyde is also cheaper and more easily applied.

"Put the formalin in a vessel and heat it, or drop into it something that is hot and make it steam and commence the fumigating process immediately.

"There is also a kind of formaline candle that can be burned to make gas. I take it for granted that you are fumigating for the purpose of being sure to get rid of the germs of bee diseases. If it is to kill the bee moth larva or so-called Wax worms, then I would recommend the hydrocyanic acid gas treatment, which should be applied with great care on the part of the operator lest he breathe the gas. The formaline gas is nowhere near so dangerous to inhale as is the hydrocyanic acid gas, which is the deadly prussic acid so famous for its instant and serious action."
