FRUIT SOUFFLES.

FRUIT souffles make delicious desserts and are available at all seasons of the year, as any fruits may be used in making them. Successful souffles are light in appearance, nourishing and easily digested.

A Rich Souffle.

Orange Souffle.—Peel and slice six oranges and put in a glass dish alternate layers of oranges and sugar and let stand two hours. Make a custard of yolks of two eggs, a pint of milk and sugar to taste, with a grating of orange peel for flavor, and pour over the oranges when cool enough. Beat the whites of the eggs to a stiff froth, sweeten and flavor to taste and pour over the top. Serve cold.

Peach Souffle.—Peel and then rub through a sieve eight canned peaches. Stir in with them one cupful of powdered sugar and the beaten yolks of three eggs. Whisk steadily for eight minutes, then fold in the whites of six eggs that have been whipped to a stiff froth. Turn into a souffle dish, sprinkle with sugar and bake in a steady, rather cool oven for ten minutes.

Made With Pastry.

Banana Souffle.—Take one cupful of flour, one teaspoonful of baking powder, one-quarter of a teaspoonful of salt, one teaspoonful of butter, one-half cupful of milk, one egg, two tablespoonfuls of sugar and three bananas. Sift the flour, salt, baking powder and sugar together, add the milk and well beaten egg and mix well. Brush the pan with the melted butter and pour in the mixture. Skin and scrape the bananas, cut into four pieces and press into the dough. Sprinkle with the sugar and bake twenty minutes in a moderate oven. Serve warm with whipped cream.

In a Cake Border.

Apple Souffle.—Take one pint of apple puree, one lemon, three eggs, one ounce of butter, one round of sponge-cake, sugar, apricot jam, a few pistachio nuts and one glass of sherry. Cut the apples in quarters and, without peeling or coring them, stew them till soft with the pared lemon rind and enough water to keep them from burning. When soft rub all through a fine wire sieve. Stir in the raw yolks of two eggs only and put the whites aside. Add the butter and sugar to taste. Cook this mixture for a minute or two over the fire, but do not let it boil. Take the cake and carefully hollow out the center, so as to leave a case. Sprinkle it over inside with the wine and after slightly warming the jam spread it thinly over the outside and sprinkle with chopped pistachio nuts. Beat the three whites to a stiff froth and add them lightly to the apple mixture. Put this into the cake border and place in a quick oven till well puffed up. Dust with sugar and serve immediately.

Reason is These Sheep Give Better Returns for Money Invested Than Other Breeds.

What has made the Shropshire so popular? More Shropshires are fed and marketed in England than any other two breeds. The reason the breed is popular, is because these sheep give better returns for money invested than any of the mutton breeds, writes H. K. Gibson of Dutchess County, N. Y., in the Orange Judd and Farmer. The English farmers are not slow to find out what sort of live stock is the most profitable for them to keep, and American farmers are not slow, either. The Shropshire registry association has nearly as many members as all other sheep registry associations of the mutton breeds combined. This is ample proof of the popularity of the breed.

Now, back of this breed are the business capabilities of the Shropshire to make lots of money. These sheep show a profit to their feeders
