WILLS.
 The will of Jere G. Henry, late of Upper Turkeyfoot twp., was probated. He left a life interest in his

estate to his widow, Annie E. Henry, at whose death the same is to be equally divided among their children. Charles K. Henry, a son of the testator is named as executor. The will was dated July 9th 1913, and witnessed by Mrs. Harry Ansell and J. W. Henry.

Heavy impure blood makes a muddy, pimply complexion, headache, nausea, indigestion. This blood makes you weak, pale and sickly. For pure blood, sound digestion, use Burdock Blood Bitters. \$1.00 at all stores. ad

Fashions and Fads.

Metal brooches are no longer on the top of fashion's wave.
 Gaiters of heavy coarse mesh lace are the latest novelty.
 The old-fashioned "goffing" and rose quilting have returned.
 The newest coats hang very loose and fall from the shoulders.
 Challis is to be one of the fashionable materials for spring.
 Popular in combination are antique blue and tobacco brown.
 In the new serges the smartest colors are dust colors and navy blue.
 Some new sashes are made of broadened velvet, ribbon, moire, or silk.
 For evening, smart women are wearing the hair dressed high on the head.
 There is a craze for the weird, spike-like feathered trimming fantasies.
 Very pretty for the small girl is the dress with a tunic of blue serge and a skirt of black plaid taffeta.
 Brilliant sashes and girdles of mouseline de soie are worn on evening gowns of satin or charmeuse.
 Odd embroideries, of course workmanship and crude colorings, are used to trim many of the new costumes.
 In the new silhouette the waist is smaller and the hips are made larger by means of draperies. The skirts are slightly wider.
 The fashionable blouse of the moment is white mouseline de soie, with a touch of brilliant color introduced somewhere.
 The woman of limited income would be wise to adopt one color for her wardrobe, with variations of tone and treatment.

COVERED MILK PAIL IS BEST

Open Vessels Contain Many More Bacteria Than Where Open Top Receptacles Are Used.

At the Connecticut experiment station it was found that milk from an open pail contained 6 1/2 times as many bacteria as when a covered pail was used. In another stable, not quite so clean, the open pail contained 30 times

as many bacteria. In another very dirty farm, 97 per cent. of the bacteria were kept out by the covered pail. At the Wisconsin station extended tests showed 20 times more bacteria in milk from an open pail than where a small top pail was used.

RATIONS FOR DAIRY CATTLE

More Palatable the Food the Greater Quantity a Cow Will Consume—Water is Also Important.

The following general facts should be observed in making up the ration for a dairy cow. A cow should be fed all that she will eat and digest well, giving due consideration to the cost, digestibility and composition of the food fed. The more palatable the food the greater quantity a cow will consume. Variety often increases palatability.

A part of the ration should be succulent in nature, as such food stimulates action in the intestinal tract, which stimulates vigor, thrift and health in the animal. Another important part of the food supply is water. Too often this is not given proper consideration.

Cleaning Utensils.
 If any utensil has become sour or tainted, special scalding will be necessary to restore it to usefulness. Steam is still more powerful than water as a destroyer of bacteria, being more penetrating as well as giving more intense heat.

Children Cry FOR FLETCHER'S CASTORIA

KALTS U.S. PROBE OF BENTON CASE

Gen. Carranza Bars Investigators Out of Chihuahua

BRITISH MUST TREAT WITH HIM

The Order Came As a Surprise to the Commissioners—Villa at Chihuahua Has Repeatedly Expressed His Desire to Hasten the Inquiry.

Juarez, Mexico.—The Benton investigating committee was prevented from proceeding to Chihuahua to examine the slain Briton's body by rebel orders. Col. Fidel Avila, military commander here, declined to permit them to board the regular passenger train which was waiting.
 Whether the incident means delay or the permanent prohibition of the mission could not be learned. The mystery thrown around the occurrence led to many rumors of an apparently exaggerated nature.
 No official in Juarez has authority to take such action as was taken in this case. Only two persons in Northern Mexico have the power—Venustiano Carranza and Gen. Francisco Villa.
 The order came as a surprise to the commissioners. Villa at Chihuahua has repeatedly expressed his desire to hasten the inquiry and his offer of a special train to take the commission from this city to Chihuahua, where Benton's body is said to be buried, was formally accepted by Marion Letcher, the American consul there.

Washington, D. C.—No examination of the body of William S. Benton, the British subject executed by Gen. Villa at Juarez, will be made by the commission composed of American and British government representatives, pending the outcome of an exchange of notes between Gen. Carranza, chief of the Mexican Constitutionalists and the United States government.
 Gen. Carranza's declaration that Great Britain instead of the United States should deal with him concerning the death of a British subject, coupled with the broad intimation that all communications on international affairs should first be addressed to him, instead of to Gen. Villa or any other of his subordinates, injected a new complication into the situation and the expedition to Chihuahua, ranged to start from El Paso, was postponed.
 In some quarters Carranza's suggestion that he should be first addressed was regarded as a bid for formal recognition. The American government, however, it was stated in the highest authority, holds that recognition could be extended only through formal announcement and expressed intention rather than through any casual relationship.

New Orleans, La.—Great Britain never will recognize the Constitutionalist party of Mexico even to the extent of requesting that Gen. Carranza investigate the death of William Benton, according to Sir Lionel Carlen, British minister to Mexico, who was here on his way to Washington and England.

"Great Britain has recognized the Huerta government as the only constituted authority in Mexico, then why should my government request Carranza for a report on the killing of Benton?" Sir Lionel asked.

Try to Wreck Flyer.
 Albuquerque, N. M.—An attempt was made to wreck Santa Fe Overland Limited train No. 1 at Gallup. A switch leading to a work-train siding a mile east of the town had been broken and spiked down. The passenger train was half an hour late, and a switchman who was sent out to handle an incoming freight discovered the open switch.

Beachey Drops 1,600 Feet.
 Santa Barbara, Cal.—While "looping the loop" here Lincoln Beachey, the aviator, lost control of his biplane and fell 1,600 feet, but managed to right himself 400 feet from the ground, and escaped with slight injuries. His machine crashed into a tree, but was not much injured.

FUSILLADE GREETED FIREMEN

State Army Bombardment Following Blaze Scatters Crowd.
 Binghamton, N. Y.—Fire which broke out in the Babcock, Hinds & Underwood's 4-story hardware store, destroyed that structure and spread rapidly to several other buildings. The state army, where thousands of rounds of shotgun and rifle ammunition were stored, was the next building attacked by the flames. The fusillade that followed was terrific and the crowds scattered in fear, but no one was injured.

Organize to Raise Skunks.
 Berkeley Springs, W. Va.—A company has been formed here to raise skunks and other fur-bearing animals on a farm of 2,600 acres. The new company will raise skunks, raccoons, foxes and muskrats.

Earth Shock Recorded.
 Washington, D. C.—Seismographs at Georgetown University recorded pronounced earthquake shocks for nearly 45 minutes. The estimated distance from here was 2,700 miles.

TRIO OF FIRES CAUSE BIG LOSS

First Two Do Heavy Damage While Third Ranks Second in Havoc.

Pittsburgh, Pa.—Three fires, two breaking out almost simultaneously and the third less than two hours later, wrought a loss Sunday of \$175,000. The terrific wind and the biting cold made the efforts of the firemen extremely hazardous and uncomfortable. The establishments damaged were the Columbia Phonograph Company, Federal street and Duquesne way; George Wehn Son & Company, 327 Penn avenue; Pearl Nickelodeon, Rubinstein Wall Paper Company and the British Raincoat Manufacturing Company, 1108 Fifth avenue; Friedberg & Melbron and B. Josephson, both at 1106 Fifth avenue.

Biggest Postal Bill Passes.

Washington, D. C.—The Senate passed the largest appropriation bill ever to meet the approval of either House of Congress, when it sent to conference the Postoffice measure, carrying \$311,492,067, an increase of nearly \$840,000 over the bill as it was reported by the Postoffice Committee. All efforts to limit the power of the Postmaster General to regulate parcel post rates, zones or weights were defeated.

RAFFLES AMONG OFFICERS

Mysterious Thefts Occur Aboard Battleship—Court of Inquiry Ordered.
 Boston, Mass.—A genuine scandal in naval circles has developed since the arrival here of the United States battleship New Jersey, and one of the most popular enigmas on that vessel is under suspicion of having committed a series of thefts covering months.

The New Jersey came here from Vera Cruz. Prior to the voyage many articles had been lost in the junior officers' quarters. The missing articles included \$600, the property of an ensign, and numerous rings, stick pins and trinkets of value. The thefts became so frequent and so mysterious that an official investigation was made and a report rendered. Developments were awaited and they came in the form of a notice to Captain Kellogg from the Navy Department to the effect that the court of inquiry had been ordered.

Turkish Birdmen Killed.

Constantinople, Turkey.—Fethy Bey and Sadik Bey, the young officers of the Turkish military aviation corps were killed while attempting to fly from Constantinople to Alexandria, Egypt. After leaving Damascus on the way to Jerusalem the aeroplane broke down in mid air and the two aviators fell with it from a high altitude.

Will Build \$1,500,000 Plant.

Massillon, Ohio.—Three open hearth steel mills will be erected and placed in operation before December 1, 1914, by the Massillon Rolling Mill Company, adjoining its present plant on Columbia Heights. The plant will cost \$1,500,000 and employ 500 men.

Swallows \$3,250 in Radium.

London, England.—A woman in a Vienna hospital swallowed a tube containing \$3,250 worth of radium, with which she was being treated for a cancer of the throat. The radium was recovered by a surgical operation.

Dr. Paul A. Hartman Dead.

Harrisburg, Pa.—Dr. Paul A. Hartman, a widely-known physician, died here, aged 62.

Schooner Goes on Rocks.

Warfield, R. I.—The four-masted schooner Jacob S. Winslow, lumber-laden from Fernandez, for Providence, crashed on rocks on the southeast side of Block Island. Captain Wilson and his crew of eight were brought to shore by the Block Island life savers who made a hazardous trip in a surfboat against a southeast gale blowing a mile a minute, and through menacing seas.

Torpedo Boat on Rocks.

Glasgow, Scotland.—The Laverock, one of the newest and finest torpedo boat destroyers of the British navy, went on the rocks in Skelmorlo Bay on the Firth of Clyde and stuck fast. The crew was taken off safely.

Said Pasha Is Dead.

Constantinople, Turkey.—Said Pasha, former Grand Vizier, died here. Said Pasha began his career as a clerk in a government office and advanced gradually until in 1879 he received his first appointment as Grand Vizier.

PROF. HUNTER DIES

Leading Scientist and Inventor Had Notable Career.
 Philadelphia, Pa.—Edwin L. Houston, scientist, inventor, teacher, author, patent expert and worker in boys' organizations, died here from heart disease, aged 70 years. He was prominent as a consulting engineer and author of boys' books. He was also well known as an expert in electricity and was twice president of the American Institute of Electrical Engineers, and was chief electrician at the World's Fair in Chicago.

Altoona Roofs Lifted.

Altoona, Pa.—During a high wind-storm coming from the East some damage was done to roofs, a large portion of the sheet iron cornice of the Rother building being blown to the pavement.

Stole \$50,000 State Funds.

Montgomery, Ala.—Theodore Lacy, formerly chief clerk of the Alabama State convict department, was convicted by a jury of embezzling \$50,000 of State funds.
