INTERESTING MINOR EVENTS

By Telegraph and Cable Roll in the Important and the Inconsequential, but to Each Is Given Its Proper Space.

War Bulletin

Prince Albert, second son of King George, who has been with the North Sea fleet, was recently taken ill with appendicitis.

Louvain was sacked and burned by the Germans. All the noble buildings, including the Town Hall (the Hotel de Ville), the library and the university were destroyed.

The German Crown Prince is advancing toward the Meuse, and the Crown Prince of Bavaria repulsed an attack from Nancy and the south.

A London report said the British North Sea fleet had sunk two German cruisers and two torpedo boat destroyers off Heligoland. A third cruiser is said to have been set afire and left sinking. The British loss of life in the battle was not heavy.

A great battle is raging on the River Sereth, near Lemberg, the capital of Galicia, according to reports received from St. Petersburg.

Women, children and clergymen, including one American minister, were killed when Louvain was burned, according to the correspondent of the Morning Post, telegraphing from Termezien. The city, he says, was looted.

The French War Office makes no announcement of the reported abandonment of Lille, but a correspondent in the field says the Germans were in the town on Wednesday.

The French report success in contact with the Germans near St. Die.

The British cruiser High Flyer sunk the converted liner Kaiser Wilhelm der Grosse off the coast of West Africa.

The German cruiser Magdeburg is sunk in the Gulf of Finland, with seven killed and eighty-five missing.

Two neutral steamers have been sunk in the North Sea by mines.

Japan has declared a blockade at Kiao-Chau.

Austria recalled her Ambassador to Tokio.

Washington

Senator Reed offered three amendments of sweeping character to the Underwood anti-trust bill. One excludes from interstate-commerce all corporations except common carriers which have a capital stock in excess of \$100,000, and another provides that corporations found guilty of the anti-trust laws shall be put into the hands of a receiver and their assets sold.

President Wilson sent his first veto message to Congress. He disapproved a bill to allow Captain George P. Hazard, Medical Corps, to take an examination for promotion to the grade of major.

Committee General Denby notified the State Department of his arrival in England.

President Wilson left for Cornish, N. H., on a brief vacation.

The battle efficiency pennant for the submarine class of United States naval vessels has been awarded to the B-3, commanded by Ensign C. Q. Wright.

President Wilson issued a proclamation declaring the United States neutral in the war between Germany and Japan.

General

The Seamen's Relief bill bearing the approval of the House, went before the Senate. This bill is intended to improve the condition of employment of sailors.

The United States cruiser North Carolina, which is at Falmouth, England, was ordered to Turkish waters to guard against a possible uprising of the Christians.

The first all-water voyage from San Francisco to New York by the Panama Canal was completed by the American steamer Pleiades, of the Luckenbach Steamship Co.

The Department of Agriculture estimates the prospective beet-sugar crop in this country for next year at 4,826,000 tons for next year. This will be the smallest crop since 1910.

Henry and S. G. Lindman of New York, Spencer Wishart, the millionaire sportsman who was killed in the automobile road race at Elgin, Ill., led in a hospital from his injuries.

Frank Tiedgan, a parachute jumper, of Gloucester, N. J., was killed by falling 100 feet at Fairmont, W. Va. The parachute failed to open.

Four persons were killed and three injured when a derailed oil car of the New Orleans, Texas, and Mexico Railroad exploded near Eunice, La.

Thaddeus F. Stone, of Dumont, N. J., convicted of embezzling \$18,000 from Moore & Perry, brokers, was sentenced to two and one-half years' imprisonment.

The Panama Canal tolls totalled \$15,000 during the first week, in consequence of the war.

business of legislation by October 1. Whether or not it will adjourn then will depend upon conditions arising from the European war.

Red Cross fund now totals \$42,615 in New York and \$22,262 in Newport.

Senator Overman of North Carolina introduced a bill amending the banking and currency laws so that the tax on emergency currency for the first three months of its issue shall be reduced from three per cent. to one per cent.

Walter Jackson has been nominated for president of the Boston Stock Exchange.

Henry C. Frick, the Pittsburgh steel man, is dying at his summer home in Beverly, Mass.

Business houses at Fargo, N. D., are shutting up shop to release help for the harvest.

A large part of the town of Shelton, Wash., was destroyed by fire at a loss of \$2,000,000.

Albert Miller, president of the International Fur Workers' Union, stated that 4,000 members have gone on strike.

Mrs. John R. Randall, widow of the poet, famous as the author of "Maryland, My Maryland," died in Baltimore.

Dr. A. L. Skoog, professor of neurology in the University of Kansas, has been made head of the La Petre Hospital, Paris.

Delegates to the American section of the Theosophical Society gathered in Washington for their twenty-eighth annual convention.

Isaac Brandon, one of the merchants indicted for defrauding the Government in the purchase of supplies at the Panama Canal, was held in \$10,000 bail.

Stomer Dean, cashier of the First National Bank at Sutton, Va., disappeared after a shortage of \$50,000 was discovered. The bank was closed immediately.

Exhaustive tests were made of the huge guns at the Pacific end of the Panama Canal in order to ascertain their fitness. The tests were entirely satisfactory. There was an all-day firing of the guns with both normal and over charges.

C. C. Hills, 70 years old, secretary of the Cleveland Provision Co., was shot and killed by an unidentified man who then killed himself.

Thomas Murphy, a letter carrier of New York, who was dropped because of physical disability after 20 years of service, committed suicide.

While driving an automobile at Batavia, N. Y., Mrs. Frank Bullock of Brooklyn, ran down and killed Patrick Welch, a wealthy Civil War veteran.

Forest fires are raging in the Tahoe national forest reserve near the Nevada State line. Two hundred men have left Grass Valley, Cal., to fight the fires.

The Pacific Alaskan Navigation steamship Admiral Sampson was sunk near Seattle by the Canadian Pacific liner Princess Victoria. Seventeen persons were reported lost.

No more playing monkey from Congress. The House adopted the Underwood resolution calling all absent members of Congress back to work and to out salaries of those absent without a legitimate excuse.

Ice-boxes have been installed in several large postoffices to take care of the large parcel post business in poultry, eggs and other foodstuffs.

The United Fruit Co., The Standard Oil Co., and the United States Steel Corporation notified the Government of their intention of placing their fleets under the United States flag under the new law extending home registry to foreign-built craft.

Sporting

Mrs. Harry D. Hammond of Indianapolis won the Women's Western Gold championship by defeating Mrs. A. S. Colburn, of Glenview, Ill.

After two trial races the motor yacht Sprig, owned by J. L. Saltonstall, of Boston, was named as the second member of the American team which is being selected to meet the German boats at Kiel next year.

September 4 was designated as Red Cross Day by the National Baseball League.

Steve Yerkes, former Boston American second baseman, joined the Pittsburgh Federals in Baltimore. Yerkes was released unconditionally by the Red Sox.

Foreign

It is reported that 250,000 non-combatants are starving in the state of Morelos, Mexico.

A delegation of business and professional men of Chile has made plans to visit the United States early next year. The object is to establish closer relations between the republics.

Peace in Santo Domingo appears to be certain, as the president, Bordas, has promised to resign, and leaders of the rebels will disarm their men, and release political prisoners.

A Paris despatch to the Standard says that the authorities at the Louvre have removed Venus de Milo to vaults.

Former President Huerta will leave Spain shortly for Austria.

William Thomas Lewis, first Baron Merthyr, died in London. He was 77 years old.

Prince Luitpold, eldest son of the Crown Prince Rupprecht of Bavaria, died of inflammation of the throat.

The Chilean Government announced its decision not to take part in the Panama-Pacific Exposition in 1915.

Militant suffragettes broke their promise not to continue their campaign for the vote during the war by besieging the Home Office, demanding to see Home Secretary McKenna.

POULTRY FACTS

HEN SHOULD BE KEPT BUSY

Shock or Fright Will Cause Fowl to Hold Up Her Eggs—Overfeeding as Bad as Underfeeding.

Hens hold up their eggs just as cows hold up their milk. A shock or fright of any kind, such as being chased by a dog, the presence of strange dogs, etc., will cause a hen to hold up her eggs, and frequently cause dead eggs. Changing the house will also cause a hen to hold up her eggs for a few days. Hens and pullets should not be housed together; a pullet has not finished her growth when she begins laying therefore she will lay her best eggs a ration which would throw an old hen off her feet, because she is making feathers, bone, flesh and eggs. This is on the same principle that a growing boy of sixteen will outeat his father.

The hen should be kept busy, she should have plenty to eat of a variety of food; a one grain ration will mean

A General Purpose Hen.

sudden death. She should have plenty to drink, and her owner should know when she sheds her duty of laying eggs. Overfeeding is almost as bad as underfeeding, and is sometimes responsible for eggs without shells. A well-balanced ration provides shell material. If the fowls are too fat do not give mashes, substitute hard grains for which they should scratch and add a little epsom salts in the drinking water.

FEED FOR THE BABY CHICKS

Best Plan is to Confine Mother in Coop Until the Youngsters Are Strong and Sturdy.

(By W. E. WAPLON, Colorado Agricultural College.)

If you will notice the Query columns of the poultry press, you will find that to feeds and feeding of baby chicks is attributed most of the blame for the ills they have, especially havel troubles; my experience has been that the feed has less to do with the mortality of chicks than any one of the several other factors. Farmers generally feel that turkeys are hard to raise, but babying and too probably get most of those that die. I know two women who are very successful with poultry, one feeding only cracked wheat, and the other cracked corn; in both cases the mother hens are confined and the pullets have alfalfa range. It is a good plan to keep the hens in coops until the chicks and pullets are beyond the danger point and are strong and sturdy. Wheat and corn, cracked, where chickens are on free range is all the grain needed. Milk in any form is not only a good food but a tonic and beats any you can buy in packages. The old fashioned Johnnycake made up of ground grains and wet with milk cannot be improved upon.

When dad is using the plow or cultivator, make him turn over a few furrows where the chicks are kept. Feed scattered in this loose dirt will give them something to do and also provide a bath. It's easier to feed twice a day than every couple of hours, and just as well if plenty of fine grain is scattered broadcast where the chicks can find it.

Incentive for Scratching.

As an incentive for scratching a combination of grains may be scattered and the fowls required to work for it. A good combination is as follows: Wheat 6 pounds, cracked corn 6 pounds, oats 4 pounds, kafir or milo 1 pound, barley 2 pounds, buckwheat 1 pound, coarse beef scrap 1 pound.

Rear Ducks Artificially.

All duck raisers who produce any considerable number of ducks each season hatch and rear them artificially. Some of the large duck farms hatch, rear and market as many as a hundred thousand ducklings in one season.

Hatching Geese Eggs.

While geese eggs can be successfully hatched in incubators, it is usually best to set them under a hen or a goose because one seldom has enough at one time to make the use of an incubator necessary or advisable.

Jet Embroideries and Trimmings, Tucks and Ruffles Galore, Skeleton Waists and Cape Suits.

McCall Design

New York, August, 25.

All the places where advanced style is ready made garments are sold, are busy just now, the bulk of the sales being in Junior get-ups for early fall, the demand for children's clothes being an especially insistent and early one.

JET EMBROIDERIES.

Jet embroideries done on the fabrics are to be a notable feature of Fall trimmings. Not only the black beads, but colored ones to match the tone of the satin which is back again bidding for the smart lead, and liable to secure it, unless velvet quite puts it in the shade later which seems not improbable. Beaded nets and laces with the pattern brought out by judicious beading are favored materials, which can be cleverly imitated at home, at little cost.

RUFFLES AND TUCKS.

Paris has capitulated to ruffled skirts, almost abandoning the long tunic that are leaders here. The under petticoat is narrow and close fitting, and the ruffles of lace are put on, straight around, without curve or dip. When made of lace-flooding these ruffles need no adornment. When tulle or net art used they are finished with hems, of satin or silk. The "Jersey" silk waist worn matches the hems, and the long sleeves are usually of net like the skirts.

The dress introduced by Beer, with cross tuckings on both waist and skirt was not enthusiastically received either in Paris or here as first, but it is now gaining favor and we will see considerable cross tuckering the coming season.

SKELETON WAISTS AND WRAPS.

The liking for "Skeleton" waists and wraps shown during the Spring and Summer, is another style wrinkle that will persist, and a boon to the woman who wants to keep her wardrobe fresh and up-to-date. This type of overwaist is easy to construct and brings a liking for sleeves of odd materials, but matching the waist in tone, is another continued fact that is pretty, comfortable and that conserves economy, since sleeves are usually the first part of a waist to show wear, and those can now be easily replaced with net or chiffon. If lace is used a complete contrast in color is permissible, transparent sleeves having proved popular with exclusive dressers. The woman who has learned how to spend to best advantage watches all such style points and plans for Fall this month while resting in her hammock peraps.

MODELS FOR SCHOOL.

Now that wash frocks are recognized as the proper caper for school wear the year round the problem of keeping the children well dressed is greatly simplified. One can use one or two models for the entire outfit, ranging colors and trimming touches so that there is no monotony of effect. Long warm coats that completely cover and protect the pretty frocks make them just right indoors or out. Rather plain styles designed on smart, up-to-date lines should be selected, and for material nothing quite so nice looking and satisfactory for wear as Renfrew Devonshire cloth. This is warranted sun proof and tub proof, and the colors are especially clear and handsome, woven in, not printed on, the fabric as in Galatea which it outclasses both in wear and appearance.

VELVET HATS AND CAPES.

The velvet hat and velvet cape that have been so smartly worn lately are bound to last well into the Autumn, hence both are an excellent investment for people who must count

900 DROPS
CASTORIA
ALCOHOL 3 PER CENT.

cost, and that means nearly everywhere these days.

Very simple small shapes have been the rule so far but we are promised a return of the "Merry Widow" type of wide brimmed velvet hat, since Georgette has already made that a favorite in Paris. Lucy Carter.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY, & Co., Toledo, O.

Sold by all Druggists, 75 cents per bottle. Take Hall's Family Pills for Constipation.

Some Facts For Thoughtful Farmers.

Where there is a silo there is prosperity.

There is not enough of the community spirit among our rural districts.

The waste of effort through impractical methods of farming is the greatest tragedy of the age.

Something is wrong in our marketing system when a small crop brings more money than a bountiful one.

Co-operation between practical farmers and prudent business men will eliminate ignorance and prejudice.

The nation's men must be made up from the fields, pastures, orchards and gardens and to farm intelligently the farmer must know what is needed.

Under the present system of marketing farm products, it is possible and often occurs, that people in one part of the United States literally starve for the want of a product, while the same product in another part of the nation is wasting for want of a market.

A Lame Back-Kidney Trouble Causes it.

And it will give you worse if not checked. Mrs. H. T. Straygne, Gainesville, Ga., was fairly down on her back with kidney trouble and inflamed bladder. She says: "I took Foley Kidney Pills and now my back is stronger than in years and both kidney and bladder troubles are entirely gone. Sold by all Dealers Everywhere, ad
