

PASSENGER SHIP  
SUNK BY MINES

liner Runo, Carrying 600, Is  
Destroyed in North Sea

RESCUED BY FISHING BOATS

About Thirty Russian Refugees Were  
Drowned—Nine Neutral Merchant  
Ships Have Been Destroyed  
By German Mines.

London, England.—The Wilson passenger liner Runo, with 600 passengers on board, struck a mine in the North Sea and was sunk. All of the crew and passengers, with the exception of about 30 Russian refugees, were saved.

The Runo sailed from Hull for Archangel and fouled the mine when about 80 miles off Shields.

The rescues were made by fishing trawlers, a member of the crew of one of which said that he heard a report and saw the Runo rise in the water and then settle by the head until the stern of the ship was awash. She remained in this position long enough to enable her small boats and the trawlers to pick up the survivors, 200 of whom were later landed at Hull.

The fishing trawler Prince Victor picked up 22 persons in the water who were clinging to a capsized boat. The trawler's crew saw three others drowned.

The mate of the Prince Victor was lowered over the side of the fisherman by lines and thus helped in the work of rescue.

Washington, D. C.—Nine neutral merchant ships have been destroyed by German mines, according to British foreign office advices to the British embassy here, made public. The message says:

"The following neutral merchant vessels are known by the admiralty to have been destroyed by German mines, in most cases with loss of life among the crews: Five Danish, two Dutch, one Norwegian, one Swedish."

ARTICLES FOR SPECIAL TAX

Congressmen Busy on Plans for Bill to Meet Big Revenue Deficit.

Washington, D. C.—Spurred by President Wilson's appeal for emergency legislation, House ways and means committee members are working on plans for a special internal revenue bill to raise \$100,000,000 caused by war. Lists of articles suggested for the special tax levy were considered by the committee, and as soon as they complete their program, it will be submitted to the Treasury Department. The amount of money to be produced on each article and the taxation rate will be fixed, then the bill will be introduced in the House for immediate action.

The committee suggested as special revenue producers included beer, domestic wines, whisky, tobacco, chewing gum, proprietary articles, soft drinks, playing cards, railroad and amusement tickets.

Two Men Shot by Bandits

Detroit, Mich.—Two passengers on Grank Trunk passenger train, inbound from Toronto, were shot by two masked robbers who boarded the train soon after it entered the city. After securing money and valuables from the rest of the passengers in the coach, the bandits disappeared.

Explosion Kills 1 and Injures 6

Fairmont, W. Va.—John Chanshock, a Hungarian miner, was killed and six other foreigners were injured, one perhaps fatally, when dynamite exploded at camp of Lassiter and Ragland, road contractors, at Flat Run. The men had placed the explosive and thinking it had all exploded went back to work when a second explosion occurred.

WILL SOON FLY THE FLAG

President Wilson Signs Order Affecting Registry of Ships.

Washington, D. C.—The final step in opening American registry to foreign-built merchant craft was taken at the White House when President Wilson signed an executive order suspending from operation sections of the navigation laws, as authorized by the new registry bill. These require American watch officers on American ships and that inspection and measurement for registry shall be made by United States officials.

Niles Bond Issue Carried

Niles, O.—The bond issue for a \$100,000 McKinley memorial was carried 5 to 1 here. Niles people are enthusiastic and work will be commenced before the first of the year on a \$10,000 structure.

Prince of Wied at Venice

Paris, France.—A dispatch from Venice says that Prince William of Wied, who has withdrawn from his kingdom of Albania, has arrived at Venice on the Italian ship Miserable.

Allies Bombard Cattaro

Antivari, Montenegro.—A bombardment of the fortifications in the Bay of Cattaro, Austria-Hungary, from the sea, was begun by a large fleet which passed northward.

COMMANDER BURSTYN

Commander Maximilian Burstyn, naval attaché of the Austrian embassy at Washington, is in charge of rallying the 200,000 Austrians in the United States and getting them back to their country to take part in the war.

FIGHT SEA BATTLE

Several German Warships Sunk, Seven Damaged, Is London Report.

London, Eng.—The official information bureau has issued a statement saying: "According to information derived from a trustworthy source several German destroyers and torpedo boats have arrived at Kiel in a damaged condition, and it is understood that others have been sunk in the vicinity of the Kiel Canal."

The sinking of the Austrian steamer Bathori by a British cruiser in the Bay of Biscay, was reported.

Peace Seems Far Away

Washington, D. C.—Officials and diplomats here regarded the agreement signed by Great Britain, France and Russia not to make peace except by mutual consent as an indication that the war would be fought to a decisive end. On all sides the announcement was accepted here as meaning the inevitable prolongation of the war.

TERMÓNDE BURNED

Germans Reported to Have Abandoned Raids into Wess Country

London, England.—A dispatch from Antwerp says it is officially announced that the German troops have evacuated Termónde (Dendermonde) after burning a number of houses and blowing up a bridge over the Scheldt river. The Germans have abandoned for the time all raids into the Wess country.

Anastro-Kaiser Agents Must Leave

Washington, D. C.—German and Austrian consular officers have been ordered by British authorities to leave Egypt once.

United States Takes Tuckerton Station

Washington, D. C.—President Wilson issued an executive order directing the Navy Department to take over the wireless station at Tuckerton, N. J., and operate it on equal terms for the embassies and legations of all belligerents and neutrals. Code messages will be handled under strict censorship.

Kitchener Voices Thanks

London, Eng.—Field Marshal Kitchener, through the press bureau, expresses his thanks for the numerous offers of assistance received by the war office in the national crisis. He invites similar offers so as to be enabled to provide adequately for the wives and children of the expeditionary forces.

AMOUNTS NOT DETERMINED.

Figures Will Be Fixed by Governor of Captured Belgian Territory.

Berlin, Germany.—The German government took cognizance of the reports that an unlawful tribute had been levied on Brussels, Liege and other Belgian cities. It was stated the reports that \$40,000,000 had been demanded of Brussels, \$10,000,000 from Liege province, \$2,000,000 from Liege city and similar amounts in proportion from other Belgian cities and provinces were not true.

"The various cities will have to pay a war tax, naturally," said the statement, "but the amounts reported from sources close to the enemy are untrue. The exact figures are still to be fixed and will be fixed by the German government of the captured territory."

Berlin Well Guarded

London, Eng.—A dispatch to the Central News from Amsterdam declares that telegrams received there from Berlin set forth that the German capital is being guarded by several army corps.

Japs Land 15,000 Men at Lung-Kow

Peking, China.—Japan has landed 15,000 troops from 18 transports at Lung-Kow, a newly opened port about 100 miles north of Tsing-Tau. This is declared here to have been done in violation of China's neutrality.

BIG CONTRACTS FOR  
STATE ROADS ARE LET

AWARDS JUST MADE ARE FOR  
STRETCHES THAT ARE  
IMPORTANT  
LINKS.

Upon Completion of Improvements  
Paved Roads Will Form Long  
Chains in Many Sections  
of Commonwealth.

Western Newspaper Union News Service. Harrisburg.—Contracts for big highway improvements in Washington county on the state aid plan have been let by Highway commissioner E. M. Bigelow, Clearfield and Greene counties sharing in the awards. There are two Washington county contracts, one for three-fourths of a mile of brick block in New Eagle borough awarded to the Parson Construction company of Brownsville at \$21,966.43, and the other for 7,770 feet of brick block and 10,050 feet of asphaltic concrete to the Bell Bockel company of Altoona, at \$103,384.96. Rimonti Gahardi of Connelisville was awarded two miles of brick block in Franklin township at \$60,167.81, the commissioner making the award conditional on ability of the contractor to show he can handle the job. Fifty-two hundred feet of brick block in Bigler township, Clearfield county, went to E. H. Brua, Hollidaysburg, at \$25,180.39. Other awards are for Potter, Columbia, Luzerne and Dauphin, all important links in roads.

Held up by a highwayman, robbed, shot four times with his own revolver and then rolled down a steep embankment, was the experience of Giuseppe Dipplitto, aged 36, here, who is employed as a track watchman on the Pennsylvania railroad. The track watchman was on duty when he was stopped by a highwayman. The holdup man knocked Dipplitto down with a stone, took his revolver from him and shot him twice in the left arm and twice in the left leg. The assailant of the watchman then took the latter's watch and \$5. Picking up the wounded watchman, the holdup man carried him to a steep embankment nearby and rolled him into a ravine. Dipplitto was found by John Hicks and Paul Jacks and was brought to the Altoona hospital. In addition to being shot the watchman was badly bruised from being rolled down the embankment. His condition is serious.

Harrisburg.—Charges that whisky was taken into the juryroom and consumed by the 12 of the county's good men and true who deliberated upon the question of the guilt of Martin Fleming, convicted of murdering his mother-in-law, will be one of the chief reasons urged by the defense in appealing to the board of pardons for a commutation of the death sentence. Fleming was convicted after a trial lasting several days and has been sentenced to be hanged Sept. 24. Application for a new trial has been refused and in asking for another chance before a jury the defense did not mention the fact that liquor sufficient to intoxicate the jurors had been taken into the room. This was reserved for the pardon board.

Lancaster.—Alderman Doebler imposed a fine of \$50 on Dr. E. E. Evans of Litzitz for failing to report to the health authorities a case of diphtheria in Litzitz.

Greensburg.—Dr. Martin Griffith of Monessen, Pa., who was convicted on a charge of voluntary manslaughter in connection with the death of William L. Robinson, was sentenced to six months in the Allegheny county workhouse. Sentence was imposed by Judge L. W. Doty in criminal court, who presided at the physician's trial some months ago. Attorney Adam Wyatt, who represented Dr. Griffith, presented a petition to the court asking that the physician be paroled, but Judge Doty refused to grant the petition, which contained the names of several hundred prominent persons, including several ministers. Dr. Griffith returned home from Europe only a few days ago, and while there had a degree conferred upon him for distinction in surgery by the Royal College of Physicians and Surgeons, which met in London. He was to have gone to St. Petersburg, Russia, to receive another degree, but was unable to reach there on account of the war. In refusing the petition for parole, Judge Doty said that Dr. Griffith was "guilty of a heinous crime," and as he had received a fair and impartial trial, he should not go unpunished. Dr. Griffith was convicted here last May on a charge of voluntary manslaughter, in connection with the death of Prof. Robinson. The attack took place at Dr. Griffith's home in Monessen, and at the time of the trial it was alleged that the dead music teacher attempted to attack the wife of Dr. Griffith when Griffith went to her assistance. Robinson died as a result of the injuries inflicted by Griffith, it is said.

Reading.—Carmine Minton, 45 years old, employed by the Reading Railway company, fell from a freight car, landing on his head and fractured his skull. Shamokin.—James Thrash, wife and four children were in a wagon that collided with a Shamokin and Edgewood street car, the conveyance being crushed and the occupants hurled out. All were injured, Mrs. Thrash more seriously. York.—Mrs. Margaret Deimold, 63 years old, was accidentally asphyxiated by a hen in her room at the home of H. J. Garrett, a son-in-law.

AUTUMN FASHION  
IN NEW YORK.

Moyen Age Dresses,—Redingotes and Basques Lead.

McCall Designs

New York, September 3. Though it is only about three months since the basque made its appearance in Paris, it is firmly established in fashionable favor here and is offered in number of variations of the original type. All show a decidedly straight line front and back, with seams gathered at either side of the panels, usually placed at these points. Set in sleeves are used with this type of waist, but more often than not are attached to the lining, or give that effect. The liking manifested during the summer for sleeves of thin materials differing from the texture of the bodice, persists in fall models, though light weight satin replace the chiffon and net sleeve worn with such excellent effect during our hot weather.

SUIT BLOUSES.

Basques of satin to match the color of the suit are the most novel valets offered this season. These are often finished with a girle or sash of the satin which encircles the hips in the Moyen Age styles, so well endorsed in its new revival.

Buttons in ball form covered with satin are very much used both for the closing of these extra waists and as trimmings on the skirt and coat. Blouses of colored net or chiffon made over white net are shown in many attractive styles and some of the best of these have trimmings of satin and with satin girdles, that bring them in line with the popular basque effects, and suit them to the present fad for wearing the extra waist or blouse over the skirt, not under the belt, as formerly.

DRESSING SACQUE TYPES.

Some of the most extreme styles in extra tops, have a decided suggestion of the "Dressing Sacque" garments, with their loose overhanging fronts, but always there is a touch introduced that differentiates them from the negligee.

Faille taffeta silks make some of the smartest tops. One of white faille built on basque lines, with the typical gathered seams, ended in a softly draped overhang at the waist in front. This was embroidered with delicate sprays done in black silk and steel beads. The neck finished with a half collar of organdie lined into upstanding trimness.

MOYEN AGE DRESSES.

With the revival of fitted waists, and the introduction of the Moyen Age styles was inevitable. But like all others these came back modified to suit present requirements. The narrow foot line now so universal, make all the difference between clumsiness and grace. While this type of dress looks best on the slender young woman, it is successfully adapted to suit nearly all but the very broad figure.

IMPORTANCE OF FIGURE-BUILDING.

Smart planners select exactly the right corset model before having fall suits and gowns fitted, realizing that this is the only way to be sure of securing stylish, up-to-date lines.

Fall styles in corsets are most sensible—medium bust, medium skirts, with straight lines at front and back and the faint suspicion of a curve at the waist. The new Warner rust proof models embodying just these points are launched and can be seen at all departments, where they are guaranteed not to rust, break or tear. This probably accounts for their ever increasing popularity with discriminating buyers, who demand not only style but durability when they shop.

THE CENTAUR COMPANY, NEW YORK CITY.

SATIN AND SERGE.

Costumes of serge with combinations of satin are leading favorites for Fall wear, with the type of weave known as Gaberdine well to the fore. This is so fine in texture that it is successfully pleated in long tunics, or the pleated skirt hung from a hip yoke which appears trim and narrow, yet allows perfect freedom for even the longest stride.

An inverted pleat at the foot of nearly all the new skirts, placed at the centre back, is similarly conducive of comfort in walking while preserving the narrow line.

REDINGOTE SUITS AND COATS.

The Redingote suit prevails largely both for top coats and for suits and so many variations are rung on this long full skirted coat, that almost anyone can find a becoming style in this mode. One advantage of a suit built with a long coat of this sort, is that the coat can be stylishly worn with other than its matching skirt, for contrasting effects continue to be in excellent vogue.

NEW HATS.

Velvet hats, especially in black are first favorites and are quite as attractive with Fall costumes as they were in the late summer, with lighter dresses. Small shapes, with soft crowns rather lead, but the younger contingent are adopting the rolled sailors which, poised properly, are most becoming to a girlish wearer.

Uncurled ostrich gourah, and various fancy feathers with delicate flues, are among the most fashionable garnitures. Piebald colorings reckoned especially smart.

Rosalind May.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one cure for deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.
