An interesting stunt was the making of a sort of zoological garden on pieces of white cloth wrought with colored thread. While the teacher leads his class on Sunday in matters theological, he had to confess to being second with the needle.

It is a pleasure to announce the coming of a really worthy theatrical entertainment. We are led to believe, judging from advance reports received, that the musical play, "Seven Hours in New York" will prove to be worthy of patronage. The play is said to be well written with a light, consistent plot. Much stress is laid on the merit of the songs which abound during the action of the play. There is a fine company, a large and well drilled chorus and a complete scenic production. We are of the opinion that "Seven Hours in New York" will prove enjoyable to all who attend. The date here is Friday evening, October 23rd.
