“THE Republican Party says to you, ‘Don’t abandon the party of Abraham Lincoln.’ I say to you, ‘Don’t abandon the principles of Abraham Lincoln.’”
—Theodore Roosevelt.

COL. THEODORE ROOSEVELT

THE DUTY OF EVERY CITIZEN

“It is of vital consequence to the future well being of our people to drive from public life all men whose political activities in state and nation alike, have been such as those of Senator Penrose. This is not only a political but a moral issue. Mr. Penrose stands in Pennsylvania as Mr. Barnes stands in New York and Mr. Lorimer in Illinois. When we fight these men and their activities we are fighting the battle of all decent men and in particular we are fighting the battle of the honest Republican rank and file, whom these MEN HAVE MISREPRESENTED AND BETRAYED.”—Col. Theodore Roosevelt.

DEAN LEWIS TELLS HOW TIDE IS RUNNING

“What has impressed me in the last week has been the wonderful increase in the strength of the sentiment for Gifford Pinchot,” said Dean Lewis a few days ago on arriving at Philadelphia, after a trip through several counties. “This has been especially noticeable since my retirement as a candidate for governor and the action of the Washington party state committee at Harrisburg in naming Vance C. McCormick to fill the vacancy on the ticket. In the anti-saloon conference at Harrisburg on Thursday, speaker after speaker stated that although he was a Democrat, and had sincere admiration for Congressman A. Mitchell Palmer, he was compelled, by the facts in his county, to the conclusion that Pinchot, being the strongest candidate, the forces opposed to Penrose should be centered on him. Another thing which surprised me has been the practically universal approval of my action in withdrawing. I was confident that the great majority of Washington party men would approve the act, but I did not dare to hope for the enthusiastic endorsement which my action and the action of the state committee in nominating Mr. McCormick has received from all sections of the state. On my arrival in the city this morning from Port Allegany, McKean county, where I spoke last night with Mr. Pinchot, I received a letter from Colonel Roosevelt, asking me to state that he heartily approves what I have done and that he will come into Pennsylvania and fight with all his soul and strength for Pinchot and for the allied forces against Penrose.”

CAMPAIGN STRAWS

This is a bad year for political bosses. Foraker, the senator who received \$15,000 from Standard Oil, defeated for re-election in Ohio. Kuehnle, the boss of Southern New Jersey who served a term in jail for manipulating contracts and tried to come back, repudiated. Guggenheim, the smelter trust senator from Colorado, sees the handwriting on the wall, and won't run again. In spite of the reactionary and liquor forces, Virginia goes “dry” by 35,000. Penrose, Pennsylvania's senator and Oil, gets chilly receptions in all parts of the state. National Republicans, who are leading their party, repudiate Penrose and ask the voters of Pennsylvania to vote for Gifford Pinchot, the Washington party candidate, who stands for a protective tariff and modern industrial legislation.

FIERCER BATTLE AT NACO

Forces of Villa and Carranza Clash Near Border. Naco, Ariz.—Fighting occurred at Naco, Sonora, between Carranzistas and Villalistas. The Villa troops, sent by Governor Maytorena of Sonora to capture the forces led by General Benjamin Hill, were repulsed in two attacks with heavy losses and were compelled to retire. They re-formed again, however and began another advance under cover of machine gun fire. The third attack seemed to be more successful than the first two and the Carranzista outposts were driven back into the town from the south and east. Two American civilians who had approached too close to the firing line were struck by bullets that were fired into United States territory. An American trooper also was injured. None of the injuries was serious, however.

COTTEN MEN DON'T WANT MUCH

Loan of \$450,000,000 From Government Suggested. Washington, D. C.—Several Southern Congressmen appealed to President Wilson not to consent to an adjournment of Congress until the cotton situation in the south was relieved. They asked that \$450,000,000 be loaned to cotton growers by the Government. The world's consumption of cotton was 21,223,000 bales during the cotton year, which ended August 31, the Census Bureau announced. Production of commercial cotton, exclusive of linters, grown in 1913, was approximately 22,255,000 bales of 500 pounds net. The number of consuming cotton spindles active during the year was 143,397,000. Of this number approximately 30,300,000 were operated in the United States.

Earthquake Reported in Asia Minor.

Athens.—An earthquake has occurred at Smyrna in Asia Minor, according to a dispatch received here. Though the shock was felt slightly at Smyrna, its most destructive effect was at Isbarta and Burdur, in Konia province, center of the carpet industry. The loss of life was very heavy estimates ranging from 150 to 3,000, but official figures may not be available for several weeks.

Mine Sinks Dutch Ship.

London.—A Reuter dispatch from Amsterdam says that the Dutch steamer Nieuwland, while on a voyage from Goole, England, to Rotterdam, struck a mine in the North Sea and sank. Her crew of 17 men were saved by a trawler.

VILLA REJECTS PEACE PARLEYS

Refuses to Accept Carranza's Resignation

GEN. CARRANZA WILL FIGHT

Chief Charges That Rebellion in Northern Mexico Was Instigated “By the So-called Cientificos and Our Conquered Enemies.”

Juarez, Mex.—All negotiations for a peaceful settlement of the Villa-Carranza quarrel have been declared off by Gen. Villa and the adjustment of Mexico's differences will be with shot and shell. Following the announcement from Mexico that Gen. Carranza's generals will not consent for him to resign as first chief of the Constitutionalists, Gen. Villa resumed active preparations for a campaign against Mexico City.

This is admitted by Villa men. It is doubtful now if Villa will permit any of his generals to attend the Villa-Carranza meeting. From Chihuahua came advices that Villa has given up all hope of averting war with Carranza and that he has feared all along that Carranza would insist upon his generals refusing his resignation.

As quickly as the men and ammunition can be loaded on trains at Torreon they will be sent south by Villa. It is said in Chihuahua that an attack on Monterey will be made by Villa with a detachment of his army, but that the main army will move rapidly to the south.

Gen. Maclovio Herrera, who recently took his forces from the Villa army to Carranza, has seized a Villa supply train at Jimenez. The train was seized Friday and sent to Saltillo by Herrera. Villa, who spent Saturday in Jimenez, endeavored to get it returned, but failed. Villa also failed in his effort to win Herrera back to his cause and now counts his former cavalry leader as one of his enemies.

Mexico City, Mex.—Charging that the rebellion in Northern Mexico was instigated “by the so-called Cientificos and our conquered enemies,” Gen. Venustiano Carranza, in his statement to the convention of con-

stitutionalist leaders here, offered to resign as first chief if a majority of the military chiefs desired it, but declared he would not submit “to a group of chiefs who had forgotten the fulfillment of their duty and to a group of civilians to whom the nation owes nothing.”

“If I have not tried to conquer this rebel force by force of arms, it has been on account of prudence which the circumstances demanded. But the nation must know that if we reach a stage where it is impossible to otherwise suppress their rebellion, we have 100,000 men well armed, artillery and machine guns, and also we have right and justice, which are invincible, on our side.”

Change Harvester Dissolution Decree.

St. Paul, Minn.—The United States district court modified the International Harvester Company's dissolution decree so that it will not apply to the foreign trade and commerce of the company. The court also granted in part the change in the plan for dissolution asked by the company in a motion filed.

No Advance in Coal Freight.

Washington, D. C.—An advance of 20 cents a ton in the freight rate on bituminous coal from mines in the Illinois field to destinations in the Middle West, of which Omaha, Neb., is typical, was suspended by the Inter-State Commerce Commission until February 2, 1915, pending a general investigation.

A. Rustem Bey Departs.

Washington, D. C.—A. Rustem Bey, the Turkish Ambassador, has left Washington and is on his way to Turkey. In a statement before leaving the Ambassador said that he was quitting the United States on leave of absence at his own initiative because President Wilson objected to his statements comparing lynchings in the United States and the “water cure” in the Philippines to massacres in Turkey.

Pope Urges Shortening War.

Rome.—Pope Benedict has addressed an autograph letter to Emperor Francis Joseph of Austria, again urging the Emperor to use all his influence to shorten the war as much as possible.

Fort De France Shaken.

Fort de France, Island of Martinique.—A strong earthquake shock was experienced here. The direction was from north to south and the tremors lasted for 30 seconds.

A Practical Railroad School in co-operation with the Erie Railroad is located at Elmira, N. Y. Fortunate People.

It has been rightly said that “the fortunate people—the truly fortunate—are not so much those who succeed in life as those who succeed in living.” Right living is a beautiful art, made up of courage and kindness and hard work and true religion; and it is open to everybody.—Selected.

Safer Way to Turn.

You've noticed that every time a party of joyriders comes to grief it is because the motor car “turned turtle.” Now, if some of these speeding cars would turn tortoise and slow down, so-called valuable lives might be saved.—Chicago Tribune.

TORTURED WITH PIMPLES

726 Moss St., Reading, Pa.—“About four years and a half ago I noticed little red pimples on my legs. They began to itch me and finally they began to spread over my body. I was getting worse every day at work and I had no rest. I would have to scratch under my arms, then my legs, walk a few steps having a little relief, then it began again on my body, then legs again, then my back until I was nearly crazy, for it was an awful torture. I would go to bed early and all I would do was roll around scratching my body all the time. In winter my body and legs were covered with eruptions from scratching and rubbing so that I could hardly stand it. I could not get any relief. When I would take my bath in the evening I would have to take off my underclothing carefully from my body and legs. I was tortured by that awful irritation. I took a bath with warm water and Cuticura Soap and put the Cuticura Ointment on my back from my neck to my feet. I did this every night until in a few weeks there was not a sign of eruption on my body. My skin was entirely healed.” (Signed) Frank Roy, Feb. 20, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card “Cuticura, Dept. L, Boston.”—Adv.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is “worth its weight in gold.” At druggists, 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.
