The Republican party of Pennsylvania, led by Boise Penrose, is the friend, of alliquor dealers, and I amplessed to say that they have been made concerning him.

Now the question is how much protection did labor get and how much went to the Carnegie Steel company? This advantage was secured to the Carnegie Steel Company by paying the leaders of the Republican party, the champions of protection to labor, product at a figure twice as great as was necessary to protect them

against competition from Europe.

In other words they gave them what

protection they wanted, not what they needed. They taxed the people

double what was necessary and handed it over to this concern. They were only one of a great number of manu-

facturers making up the ten per cent and it is almost beyond comprehen-
