Springs not only boasts of having one of the most up-to-date general stores to be found anywhere, an automobile and general repair shop second to none, but has very good prospects of getting an electric light plant in the near future.

It is futile to hope that there can be any harmony established in the Republican ranks, so long as the arch conspirators of the Penrose type, who caused the rupture of the party by brazenly cheating the people out of their choice at the Chicago convention, are in power.

Mr. and Mrs. Ed. Miller and family, J. H. Bender and three daughters, Mr. and Mrs. Mark Bender, Misses Lizzie, Lou and Annie L. Miller, and Noah Miller, were the guests of S. S. Miller and family on Sunday.

Honest men may differ as to the proper way of regulating the liquor traffic, but no fair minded person can deny that to let every community decide by vote whether they want to have booze sold in their midst would be a better way than to leave this question to be decided by the whims of the court. The people want this privilege but have failed to get it in the past through the machinations of Boss Penrose, that past master in commercialized politics. Will they elect him again?

THE BLIGHT OF PENNSYLVANIA

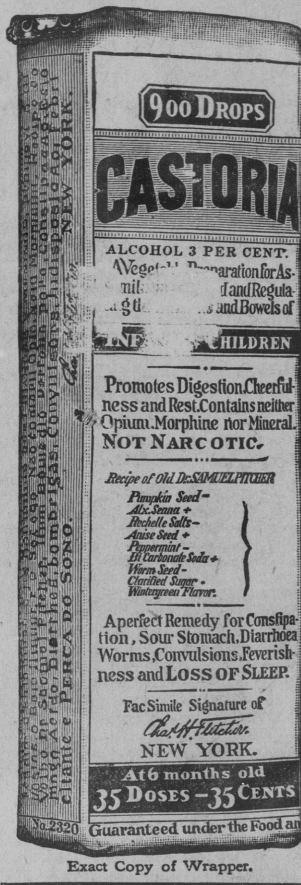

In 1911 a road law was passed that transferred 9,000 miles of roads from the various townships and municipalities of the state to a new department of the state Government called the highway department. Great things were expected or this department by the citizens of Pennsylvania. But after jockeying around for a long time Bigelow was appointed by Tener. This was a notorious appointment for the reason that Bigelow had served the Penrose machine in Allegheny county for many years. It had the Penrose stamp of approval as a matter of course. No important appointments were made during Tener's administration without consulting Penrose. This highway department instead of being a service to the people and building serviceable roads turned out to be a carnival for the gang contractors and a huge pay-roll for followers of the gang in all the counties of the state. \$3,000,000 have been spent by this department, and very few miles of improved road to show for it. Besides spending the money to pay for Penrose's heels all over the state that do not pretend to work B. elow has at Harrisburg hundreds of needless clerks that pretend to work a few hours a day. This department has become the dumping ground for the fellows that lose their jobs in counties that vote out the Penrose ring, invariably sooner or later the faithful all over the state are giving soft snaps in the highway department. It would be cheaper for the state to pension these loafers and hire men that will work, and in this way get at least some value for the money spent.

All the Superintendents and foremen are Bigelow Penrose men, and down to the water carriers none are hired unless they worship at the Bigelow Penrose shrine. In many places men are discharged after hired if they, in any way show any displeasure toward the existing gang, even so small a thing as refusing to wear a Penrose button has been used as a cause to discharge an honest faithful employe. This fact has been substantiated by affidavit, notable in Fulton county, where one of the laborers refused to place a Penrose button on the lapel of his coat. He was discharged the same day, and was told that the cause was his refusal to boost Penrose.

In Massachusetts improved roads are built for \$4,000.00 per mile; in Ohio for \$8,000.00 per mile; in New Jersey for \$7,000.00 per mile; in Pennsylvania improved roads cost from \$14,000.00 to \$15,000.00 per mile. This conclusively proves that Bigelow and his gang control help, use judgment in placing contracts, usually letting contracts any old way, but always sure that a Penrose individual or corporation secures the contracts.

This department has on its pay-roll 22 high powered automobiles that are used to haul around employes of this department, but a great part of the time these machines are used to go from place to place in the interests of the political fortunes of Bigelow and Penrose. One-half dozen automobiles would be sufficient to transport employes, but 22 is the number brought by the extravagant Bigelow.

The Washington party, if successful will place the highway department in the hands of competent officials that will serve the people and tax payers, and will cut loose from petty politics, in fact there will be a great army of jobless men, and instead of 30c on every dollar going for salaries and incidentals the tables will be turned and 80c of every dollar will be spent on the roads, and 20c pay for office expenses. \$40.00 per mile is what Bigelow pays loafing engineers to survey the roads of Pennsylvania. Competent judges say that \$15.00 per mile is the conservative price to survey roads. Give good honest roads a boost by voting for the Washington Party candidate.

On Friday night a well known resident of Meyersdale, whose name we withhold for the sake of his family, was returning home in a drunken condition and narrowly escaped being carried home a corpse. In some way he missed his path and stumbled into the creek at the lower end of North street sometime during the night. He lay there until morning when passersby saw him almost submerged, only his head being out of the water. How he escaped drowning seems almost a miracle.

An interesting social is being planned for St. Mark's Reformed church at Pochontas in the social room on Saturday evening, 24th inst. All are cordially invited to be present.
