NOT SUCH DEADLY ENEMIES

*Bloody Chasm" That Separated Na-tionalists and Ulsterites Might Have Been Bridged.

As all the world knows, interna-tional war has proved a great concil-lator in Ireland. As a contributor to the Bystander says, you cannot give much attention to the dismemberment of the empire when you are not cer-tain whether you will have an empire to dismember.

There is a geniality about the Nationalist volunteer that makes you know that he would rather fight some one else—Germany in this case—than know that he would rather fight some one else—Germany in this case—than Ulster. A few stories are current that help to show how very ripe Ireland was for conciliation. Not long ago a company of Nationalist volunteers, passing a company of Ulstermen, and being uncertain as to the customary etiquette between deadly enemies—saluted. In a northern district there was only one field suitable for drilling, and as the two opposition armies wanted it, the owner began bidding them against each other. Northern canniness asserted itself. The commanding officer of one battalion approached the enemy, and they agreed to rent the field in common, and use it on alternate days!

A third anecdote relates that while some Ulster volunteers were drilling a Nationalist was seen sitting on a fence watching them. When he was questioned by an Ulsterman he explained that his own company had

plained that his own company had mislaid their rifles and could not drill; "but," he added, "we were wait-ing to see if we could get the loan of yours when you've done with them."

61 KILLED IN ILLINOIS MINE

346 Men Just Starting to Work When Gas Lets Go

MANY ARE STILL ENTOMBED

Fire Followed a Terrific Gas Explo sion-Miners Were Caught By Blast But Many Were Able to Escape.

Royalton, Ill.—A total of 61 dead is shown on the casualty list issued by officials of the Franklin Coal and Coke Company at whose mine near here 300 men were entombed at the going to work hour Tuesday morning.

The decrease in the number of dead estimated earlier was accounted for by the registration of scores of miners who had escaped during the day, but who were too busy assisting in the rescue work to answer to the roll call of rescued.

Twenty minutes before the explosion 346 men went into the mine, only the last cageful of the day force remaining on the surface. It was conceded by officials of the mine that 37 still were entombed and would never be brought out alive.

The French war office says:
"The fighting continues to be particularly spirited between the mouth of the Yser and the region of Lens. In this part of the front the allied forces have at no point drawn back, and they have continued to make progress in the region between Ypres and Roulers. In the general region between Soissons and Berry-Au-Bac an artillery engagement resulted in our advantage and resulted in the destruction of several batteries of the enemy.
