## HUPMOBILE \$1200

### DON'T BUY YOUR CAR ON THE INSTALLMENT PLAN

Ask anyone, who bought a car last year in the \$1300 class how much money he has spent since then in adding to the completeness of his car. Find out if the top and the speedometer and the windshield and the lighting system that came with the car were satisfactory. Then apply his experience to your own selection of a motor car.

The Hupmobile Model K selling at \$1200, is not only completely equipped, in the broadest sense of the term, but its accessories are of a type, that will give as long and satisfactory service as the car proper.

Note the Westinghouse starting and lighting system, the long stroke motor, the roomy wide, comfortable seats, the long wheel-base, the long spring suspension, (52 inches long in the rear), the tire carrier in the rear, the artillery type wheels, (equipped with Goodyear Non Skid tires, the non-glare dimmer headlights, exclusive design tail light, illuminated speedometer with transmission drive, automatic spark advance, crown fenders, concealed hinges, flush door handles inside, 14 inch brakes, etc.

The 1915 Hupmobile Model K, with its long stroke vibrationless motor by far outclasses any other car on the market to-day selling under \$1300. Come in and look it over, ride in it, see it take the hills, and then judge for yourself.
