

# American Fashion Show

On Friday and Saturday, March 19th and 20th We Bring into Deserved Prominence the Finest Examples of American Fashion Creators' Art. On Saturday Between 2 and 4 P. M. These Garments will be Displayed on Living Models.

"What could American style designers accomplish if they were left practically upon their own resources?"—is a question which has been discussed by fashion journals, magazines and many American women ever since France became involved in war. This American Fashion Show is the answer. To demonstrate the independence of American Creative genius we have prepared in every department special displays of original creation that you will be proud to know are American through and through!

Paris which has always dictated our styles, has had but little to say this season on account of the European conflict. So we had to create our own.

And our designers have produced styles that are truly beautiful— not frilly but unquestionably handsome, distinctive and practical in their effective simplicity lies their charm.

Come, Attend This American Fashion Show -- See American Styles, Created by American Women. You Will Enjoy Your Visit.
