

## LE SERVICE, STORAGE and ACCESSORIES

FOR MONTHS THEY HAD PLANNED IT.

IT HAD BEEN THE SUBJECT OF DISCUSSION EVERY EVENING.

THEY HAD DECIDED TO GET AN AUTOMOBILE -ALL OF THEIR OWN!

SO TO TOWN THEY WENT—PREPARED TO BUY. CAR AFTER CAR WAS EXAMINED. THEY FA-

VORED THE OVERLAND, BUT KNEW OF OTHERS, AND FATHER WAS DETERMINED TO GET THE VERY BEST FOR THE VERY LEAST MONEY.

THEY SAW AND WERE DRIVEN IN THEM ALL—THEN—LIKE MOST SENSIBLE PEOPLE THEY ORDERED AN OVERLAND.

Next came the big initial thrill—THAT FIRST RIDE

It was wonderful. They all fairly beamed with joy!

Father drove-and he drove with the ease and skill of a veteran. The Overland is so simple to drive-Anyone can drive it.

It required so little attention. The switches on the Steering Column which started, stopped and lighted the Car were so simple and accessible.

The long underslung rear springs made it ride with such cushioned smoothness. There was so much solid comfort. Everything was so convenient and practical.

And in that first ride father knew that he had selected that which had given him the greatest motor car value for the least amount of money.

That "First Ride" has shown a better life to hundreds of thousands of American families.

Possibly you have your first ride still coming. If so see THE MEYERSDALE OVERLAND COMPANY at once and have it in a brand new Overland. That 1916 Overland Model 83 with a large 35 horse-power motor for \$750. The car that has created the biggest sensation in automobile history.
