CHILDREN'S VACATIONS.

Little Talks by the State Health Commissioners, Dr. Dixon.

One Ship drives east and another west with the self-same wind that blows; 'Tis the set of the sails and not the gales

That sends them the way they go. School is already over and for the rest will soon be over for a period of three months or longer.

After their winter's work in school they need change and diversion and healthful exercise. Perhaps during the school year, like any parents, you have shifted the burden of the children's supervision upon their teachers. Now for three months the full responsibility must rest upon the parental shoulders.

It's a serious problem how boys and girls shall spend their vacations. Of course, if you don't take a hand in it they will settle the question for themselves. There are always other boys and girls, perhaps many of them that you are in no way acquainted with and of course there are always both good and bad diversions at hand for healthy youngsters.

Through their parents' lack of interest many children form bad habits and cultivate evil associates during school vacations. Boys' and girls' minds need entertaining occupation and the bodies need plenty of healthful exercise. The parents should try to guide this natural craving and where circumstances make it possible to join and share in some of the vacation amusement of their children.

While the majority of us must continue our regular occupations, the summer usually offers some chance to get into the open and hark back to nature.

Every boy and girl naturally has something of the love of our primitive forefathers for the woods and streams. Cultivate this and share it. Since our schools have been teaching natural history you will find them especially keen. They will have things of interest to tell you. All this will serve to give you an agreeable change and it will encourage the girls and the boys to take an interest in the wonders of God's great out-of-doors. You can do nothing better for their health, enjoyment and future happiness than to stimulate their interest in these things.

BLAME WAR AND EARTHQUAKE FOR FAILURE.

An answer was filed in court Monday morning in the case of Lora Hirschman vs. Edward DHarke. The plaintiff asked the court to direct the specific performance of contract on the part of the defendant. The defendant gave the plaintiff an option on a lot of ground in Acosta and, it is alleged, he refused to deliver a deed. DHarke in his answer says that he cannot deliver the property free of debt. He also says that on account of the European war, the earthquake in Italy and Italy's entry into war have so effected his financial standing that he cannot comply with the option.
