

SALISBURY.
Last Wednesday morning George Fogle, a resident of Boynton who formerly lived in Salisbury, in company with Frank Lowry and Charles Thomas, drove to Negro mountain to pick huckleberries. They drove to the top of the mountain to what is known as the "Burned House" and then turned to the right on the road known as the Heimbaugh road. The horse was hitched and the pickers got busy. About eleven o'clock Mr. Fogle having filled his small picking pail started to go to the wagon to empty his berries and that was the last his companions saw of him for that day. It appears that Mr. Fogle missed the right course owing to the heavy fog which hung over the mountain and his efforts to get to the team only succeeded in getting farther into the dense shrubs and thickets and soon discovered that he was entirely lost on a vast expanse of mountain that he knew neither directions nor locations and finally about six o'clock in the evening he found an old saw mill shanty in which he decided to stop for the night. He was coatless and had no matches with which to build a fire. It is easy to imagine that the lost man did not spend a very pleasant night. His companions searched for him for several hours but had to return to Boynton without him and the news was soon spread that a man was lost on Negro mountain. A searching party of about forty men went on the hunt that night but did not find the man. The lonely man heard their whoops and calls but for some reason or other they did not hear him and late at night returned only to renew the search in the morning. On Thursday morning several hundred people in automobiles, vehicles, horseback or on foot joined in the search and the unfortunate man was not found until about four o'clock and then he had found his own way out of the dense brush into the public road near the farm of Daniel Gnagey, having been on a steady tramp from seven o'clock in the morning until the time above mentioned, and with nothing to eat except berries until he was given a sandwich by one of the searching party. Further than being nearly overcome with fatigue and excitement he suffered no harm from his unfortunate experience.

The old and more or less fallacious theory that a cat has nine lives was exploded one evening last week when Fritz Deihl, or the "walking cyclone" (as he is called by his chums) while playing ball at West Salisbury, accidentally, when making one of his wild dashes, planted one of his pedal extremities squarely upon a half grown kitten which had wandered into the path of the "flying dutchman." His Catship at once showed signs of indisposition and Fritz fearing for the life of the unfortunate feline rendered all first aid remedies known to him to restore any or all of the remaining eight lives but of no avail and he is now a sad man declaring that the old saying about a cat having nine lives is all fal-de-rol.

Sam Kimmel of Yennington, Neb., arrived last week for a visit with relatives and friends in Salisbury.

Mr. Kimmel has for several years been developing mining properties in Nevada, and his associates recently sold one of these properties to a syndicate for \$50,000. Before coming east Mr. Kimmel attended the Pan-American Exposition at San Francisco and now intends to spend some time in the east.
