

NEWS IN GENERAL.

There are nearly fifty cases of typhoid fever in Johnstown.

Italy is making preparations for a \$25,000,000 loan in the United States.

An official communication from Berlin states German submarines had recently sunk 23 vessel including four transports of the Allies in the Mediterranean.

Forty-one persons were killed and 101 wounded in last week's Zeppelin raid on London. Of the casualties 14 of the killed and 13 of the wounded were soldiers. The others were civilians. Including the latest attack there have been 167 killed and 436 wounded in Zeppelin raids on England thus far.

It is reported that the abandonment of the Dardanelles campaign by France and Great Britain has been decided upon. Russian circles interested in this matter have been informed that the Allies will not suspend operations on the Gallipoli peninsula all at once, but will gradually withdraw troops from there.

Further progress for the Germans, Austro-Hungarians and Bulgarians in Serbia, victories for the Germans and Austrians against the Russians and the evacuation of the west slope of Hartmanns-Wellerkopf after the destruction of the trenches recently captured from the French are told of in the German officials communication lately made public.

The new \$2,000,000 Masonic temple, headquarters of the Supreme Council of Scottish Rite Freemasonry for the Southern jurisdiction of the United States, which is also called the Mother Council of the World, was dedicated at Washington on Monday with elaborate ceremonies and in the presence of a large assemblage of distinguished Masons from many parts of the country.

Acres of yellow willow near Martinsburg, W. Va., heretofore valueless have become gold mines as a result of the contracts placed by the allies in the European war in this country for artificial limbs to the value of \$15,000,000. Heretofore not a dollar has been realized in that section for yellow willow but several car loads are now being loaded daily for shipment to plants west and north in the United States which have contracts for artificial limbs. The wood is cut in 28 inch lengths for shipment.

Maryland is to have the first automobile reserve corps as an adjunct to the State militia, if the plans of President Rowe and the members of the Baltimore Automobile Club are carried out. The plan is to organize the motorists into a corps that will hold itself in readiness to serve the government in case of war, or in mobilizing the militia in peace times. The motorists would be most useful in transporting troops and stores, it is said, and they are to be trained by my officers who will instruct them in drilling and pistol target practice. The reserve will be called once or twice a year during the mobilization of the militia for practice.

The chief of the German army staff in East and West Flanders announces that an arrangement for the provisioning of about 2,000,000 Belgian civilians has been concluded with Herbert C. Hoover, Oscar T. Crosby and Julius A. Van Hee, vice consuls at Ghent, representing the American relief commission. The German authorities have requisitioned at fixed prices the cereal and root crops over a stated allowance for the family and animals of each grower. The whole of these crops, excepting oats and rye, will be handed over to the commission for distribution. In the place of oats and rye the Germans will furnish the commission with wheat.

England needs 3,000,000 more men by spring, according to Brig-Gen. Sir Eric Swayne who estimates that Germany has still between nine and ten million men from the ages of 18 to 45 and that therefore it is useless to talk about wearing out Germany in the spring, said he, Germany will lose more men than the Allies, balancing the number of the Allies and the Central powers, but if Great Britain should raise 3,000,000 additional, Germany would probably recognize that it would be fruitless to continue. Great Britain does not want compulsion but unless 3,000,000 more men are recruited by spring, the military situation is good for nothing but!

But, just the same, we're glad he's here, for hunting time has come. The dogs keep up a howling. They know full well what's what. When, coming home from trawling, they smell what's in the pot.

There's coon tracks on the sand bars, in the mud along the streams. And here and there are other tracks, that waken golden dreams.

There's rabbit hair in hollow trees; there's rings around the sun—Which show us all that Summer's o'er, and hunting time has come!

FREE UNTIL 1916.

Have you subscribed yet for the Youth's Companion for 1916? Now is the time to do it, if you are not already a subscriber, for you will get all of the issues for the remaining weeks of 1915 free from the time your subscription with \$2.00 is received.

The fifty-two issues of 1916 will be crowded with good reading for young and old. Reading that is entertaining, but not "wishy-washy." Reading that leaves you, when you lay the paper down, better informed, with keener aspirations, with a broader outlook on life. The Companion is a good paper to tie to if you have a growing family—and for general reading, as Justice Brewer once said, no other is necessary.

If you wish to know more of the brilliant line of contributors, from our ex-Presidents down, who will write for the new volume in 1916, and if you wish to know something of the new stories for 1916, let us send you free the forecast for 1916.

Every new subscriber who sends \$2.00 for 1916 will receive, in addition to this year's free issues, The Companion Home Calendar for 1916.

Confluence's citizens are wrought up over the enforcement of a curfew ordinance. Upon advice of counsel, Burgess Phillippi refuses to enforce the ordinance because it requires the municipal authorities to ring a bell at a certain hour, for which no provision has been made. Instead of a bell, a whistle was blown, but in legal circles it is held that the provisions of an ordinance must be complied with by the authorities before the ordinance can be enforced. Sixty-three voters asked council to repeal the ordinance, but council has refused to do that.

Mrs. Edward Meyers, of Garrett, was taken Friday night to the Allegheny hospital at Cumberland and an operation was performed by Dr. Bruce Lichty of Meyersdale. She is getting along favorably.

CROUP AND WHOOPINGCOUGH.

Mrs. T. Neureuer, Eau Claire, Wis., says, "Foley's Honey and Tar Compound cured my boy of a very severe attack of croup after other remedies had failed. Our milkman cured his children of whoopingcough." Foley's has a forty years record of similar cases. Contains no opiates. Always insist on Foley's. Sold everywhere.

Hundreds of health articles appear in newspapers and magazines, and in practically every one of them the importance of keeping the bowels regular is emphasized. A constipated condition invites disease. A dependable physic that acts without inconvenience or griping is Foley Cathartic.
