

NEWS IN GENERAL.

An outline of the army's part in the national defense program to be submitted to Congress in December by the Administration was made public a few days ago by Sec. Garrison, disclosing officially for the first time details of plans to raise a great continental or citizen army to supplement the regular establishment. In it is proposed to increase the regular army from 108,000 to 141,843 officers and men, changing the term of enlistment from four years with colors and three years on furlough to two years with the colors and four years on furlough; to organize a federal citizen army of 400,000 to be enlisted at the rate of 133,000 a year for 3 years; to strengthen the State militia by increased appropriations and closer cooperation, and to spend \$20,000,000 a year for four years in the accumulation of reserve material for use by a force of 500,000 men.

A birth record that will surpass any other in the world was established by Mrs. Gaither Drewry, of Spencer county, Kentucky a few days ago. Mrs. Drewry who is about 30 years of age is the mother of nine children, seven of whom are living. Eighteen months ago, there were born to Mrs. Drewry five children, three boys and two girls. The girls died but the boys are doing nicely. Four boys were lately born to her, all of whom are doing well.

Official announcement by the London War Office of the sinking of the British transport Ramazan by a hostile submarine in the Aegean sea in the latter part of September, previously reported, shows that more than 300 men were lost when the transport went down.

L. P. Hornbeck, County Game protector and Louis Rhoades, constable of Winsted, Conn., were motoring beside the railroad when an express train struck a 200 pound deer and hurled it into their automobile. They were unhurt.

Another flood of angry protests against the British-French interference with American trade poured into the state department from every section of the United States last week. It is charged, that despite the wonderful showing of increased exports in the trade reports the real commerce of the United States is being "strangled." The National Association of Importers, the various organizations of exporters in the big cities of the Atlantic and Pacific seaboard and the big mid-western beef packers all allege that their normal trade is impossible and that the bulk of their regular customers everywhere, excepting in Anglo-French territory, are being lost to them through a systematic campaign backed by the British Board of Trade.

Twenty-six persons, the most of them girls perished on Saturday afternoon in a factory fire in Williamburg, Brooklyn, that approached in horror, if not in the toll of the dead, the Triangle shirtwaist disaster of a few years ago. The rescue work which was of the most daring character, saved the lives of many. Many of the victims that did not perish at once were taken to the hospitals where a number of them died.

The poison gas factory at Dornach, Alsace, which was attacked on Friday by French aviators, was virtually destroyed. The manager and 43 workmen are said to have been suffocated by fumes resulting from explosions, while other employees who were temporarily overcome have been sent to hospitals.

Personal liberty advocates on Sunday at Chicago mustered 69,480 marchers in the greatest parade ever held in that city as their answer to Mayor Thompson's famous Sunday Saloon closing order. For three hours Michigan avenue from curb to curb was crowded with an unbroken phalanx of men and women afoot, mounted upon horses and seated in every style of vehicle obtainable, who poured into the loop from every point of the compass. It was just six times as big as the parade conducted a few weeks preceding in regard to the closing of the saloons on Sunday.

The Ford Motor Company has announced a new discovery in metallurgy of great importance to the iron and steel industries of the United States. Hereafter the iron ore consumed at the Ford plant from 700 to 1000 tons a day will go to the blast furnaces in its crude state and be refined by one heat into pure gray iron and malleable iron. On Mr. Ford's return from California his associate said he would give his secret to the world free of all royalties. From the time the crude ore enters the furnace until it is turned out in the form of completely milled parts for motor cars it will be allowed to cool. One process instead of two or more accomplishes this result. For experiments which have been going on under the personal direction of Mr. Ford, a big steel plant in Detroit was commanded, with its working force so that

A Mint of Money.

The former director of the United States mint in Philadelphia, Mr. Landis, resigned after serving for twelve years. In commenting on the fabulous wealth that has passed through his hands Mr. Landis states that it consisted of \$11,000,000 in cents, \$19,000,000 in nickels, \$65,500,000 in silver dollars, halves, quarters and dimes, and \$372,000,000 in gold. The entire coinage totals \$462,500,000. To give one a better idea of the quantity of this bulk, Mr. Landis said it would tax the capacity of 683 cars of twelve tons each. It would be impossible to haul this vast sum with fewer than eleven locomotives, which would mean that each would have to pull about sixty-three cars. These cars in one train would extend about ten miles. There was exactly \$415,000,000 in coin and gold bullion in the mint when Mr. Landis turned it over to his successor. The largest amount at the mint at any one time in the last twelve years was \$452,000,000. This was in the Roosevelt administration.

GLADE CITY.

Mr. and Mrs. Chas Good and child of Pittsburg are visiting Mrs. Good's parents. Mr. and Mrs. Herbert Harding.

Mrs. Edith Kerschensteiner was a visitor last week with relatives in Greenville township.

Sunday School was well attended on Sunday as were the preaching services immediately afterwards by Rev. W. M. Howe.

R. H. Wittford about a week ago took charge of the brick works at Williams Station.

It is rumored that the Keystone Junction brick yards are to be rebuilt. It is said by some one, with what authority, the writer does not know, that the restored enterprise is to be conducted under a different firm.

the daily production schedule of the Ford plant might not be disturbed. The new discovery will save the company \$3,500,000 a year.

CONFLUENCE

Farmers in this section of Somerset county say the apple crop is good and that the orchards are proving profitable. Somerset county apples are becoming more popular every year and big shipments are being made from the local farms.

Mrs. Isabel Shipley, who suffered a stroke while visiting at the home of her granddaughter, Mrs. Edith Smith, several weeks ago, has improved sufficiently to be taken to her home at Johnson chapel.

Edward Clark was a recent visitor to Elwood City on business.

Wayne Conway received word a few days ago that his brother, Thurman of near Somersetfield had died very suddenly. He left for Somersetfield Monday.

Clyde Brown who had been working in Detroit, Mich for several weeks is visiting his parents, Mr. and Mrs. E. B. Brown at present.

Miss Christina Flanigan is visiting her sister Felicia at Indiana State Normal School.

Bruce Tressler who has been working in Windber is visiting his family at present.

Orville Fike was a business visitor to Somerset recently.

L. S. Lincoln of Uniontown was here on business several days.

Miss Alma Donacker and Miss Tressler of Meyersdale were among those who attended the Epworth League rally here Thursday.

Bert Levy of Ursina was among the business visitors here Friday.

C. C. Baker of Unamis was here on his way to Kane, Pa.

J. W. Clark, of McKeesport was here on his return from a visit with friends at Selbyport, Md.

HOTSETLER CHURCH

The services on last Sunday morning at Hotsetler church were well attended and excellent sermon was preached by Rev. Simon Berkley of Meyersdale.

Farmers are about through with corn and the apples. Those fortunate enough to own automobiles enjoying rides this pleasant fall weather.

Thos. Garletz was working with his team plowing ditches for the B. & O. railroad last week at Sand Patch.

The Andrew Horchner sale was very extraordinarily well attended on last Thursday. Everything that was for sale was sold and everything edible was eaten up.

Chas. and Frank Baer made a home run last week one night with their separator to make a new start with their corn shredder and husker. They being generally used to the night air, one o'clock atmosphere in the morning did not hurt them. Their shredder & husker is hard to beat.

J. W. Forrest who purchased and moved on the Meyers homestead in Greenville township has been making big improvements in a general way.

With the news that the Consolidation has contracted for 45 new houses in the great Jenner coal field comes the announcement that the new mining town is to be farther up the North Fork of Quenahoning creek, on the farm recently owned by Chas. Bell, where two drift mines and one shaft are to penetrate the rich coal deposits of the Consolidation company. The new mines and mining town will be in Lincoln township. The contract for building the first plan of houses has been awarded to the Somerset Lumber Company and work thereon will commence at once. The coal from the new mines will be taken east over the Western Maryland railroad. The new mining town will be located at the base of Laurel Hill mountain. The shaft and mine openings will be on the Bell farm. The town site will be on the adjoining Meyers farm.

CHOICE DINNER AND TOILET SETS AT HABEL & PHILLIPS

The Out of Doors Man

The fellow with the big, tough muscles who can chop trees all day and lift the butt end of a hard log, is a hearty liver in everything he tackles. He likes his tobacco rich, sweet, mellow and Long Cut—good for both smoking and chewing. He uses

FIVE BROTHERS

Pipe Smoking Tobacco

because it's got the right stuff in it.

Satisfaction—for a sturdy man—can come from real tobacco only. Insipid mixtures don't appeal to a man with real tobacco hunger.

FIVE BROTHERS is pure Southern Kentucky leaf, with the "body" for a real smoke or chew, rich and pleasing. It takes three to five years to age the tobacco in FIVE BROTHERS; the process can't be hurried. That's the reason FIVE BROTHERS is so ripe, mellow and healthful.

FIVE BROTHERS is sold everywhere—get a package today.
