**One Little Boy's** Thanksgiving

CERTAIN Little Boy who lives in a tamify where children and holidrys and dogs are all important factors in everyday life was talking about the next holi-day. The Little Boy has a trait com-mon to childhood of living largely in inficipation and very little in memory. On the morining of Dec. 8b he awakes material and alert, not to discuss systerday's thumphs nor the whole-sale unwise generosity of uncles and ator next christmas. This Little Boy had finished a glori-ous period of Halloween preparations. There was nothing he had not cut ind painted and planned that the mind of a five-year-old child could conceive of. He had had a glorions month of anticipation, and it had been crowned by a safeforiars Halloween prepared by

There is no reason why children should not be permitted to wear their wraps in school if the temperature's somewhat low. This is the rule in open air schools and it in no way in- terferes with the school work. When the children leave the school they are exercising and the vigorous action makes up for the difference in tem- perature between indoors and out doors. The teacher who understands the rudiments of hygiene can add im- measurably to the well being of the children and accomplish much towards giving them a proper idea of the value of healthful and cleanly living. Personal hygiene is no fad.
