ADDISON.

Miss Annie Kurtz fell on an icy step last week and bruised face considerably.

As the cold weather is upon us it brings a smile to the coal dealer's face and a sad look to the buyer.

The farmer's son who said he could eat twelve buckwheat cakes with sausage and honey, got stuck on the sixth one.

Mrs. Mary Keller, an aged lady of Addison, fell last week and injured herself internally. She is in a critical condition.

It was with pleasure we read in the columns of the Commercial, Mrs. Flora Black's answer to Dr. Kalbfus. Should Dr. Kalbfus come to Addison either before or after the hunting season, he would find something to open his eyes. A few weeks ago, a farmer saw several hunters on his farm with dogs hunting and as he had his farm posted with notices, he went towards them telling them kindly to get off his land. One of them deliberately raised his gun and pointing it at the farmer fired over his head. A few days later another farmer found a two-year old cow of his dead in the field killed by a reckless hunter. The people of Addison are astonished by

GLASS TALK--NO 5

In this little talk on THE EYE and its defects I wish to name some of the principal terms used in OPTICAL SCIENCE.

The most common defect in EYELOGY is HYPERMETROPIA, a long technical word but in simple English it is a condition where the EYE is TOO SHORT, causing LIGHT and OBJECTS to come to a FOCUS BEHIND THE RETINA of the EYE.

Now this statement of facts puts you to thinking about just what and how this is possible.

I will make a demonstration to you if you will come to see me about your EYES and will show you the cause and the cure of this condition.

hunters coming here from other counties and hunting our game. When the season is in for hunting our farmers report no game and just right here let me tell you that Addison is a Borough and from the time that blackberries are in bloom you may hear shooting right in this borough. Where are the City Dads? They must be away on a vacation. We glory in Mrs. Black's writing and feel like giving three cheers for one who so nobly tries to save our forest friends, the harmless animals and the useful birds.

UNION VALLEY.

Quite a number of our people attended the sale of James Thompson Thursday last.

Leroy Crissey paid a nice price for a pair of blooded I. O. C. pigs; he says that good stock is what the market is looking for.

Harrison Hersh was noticed wearing his hat on the side of his head, as it was a boy.

John Hittle has been shredding cornfodder in this section, during the past two weeks.

The Suder Lumber Company has purchased Henry Tidenberg's timber.

WHY TROYS CARRY MORE

than any other make of the same size

- 1—A TROY is bigger at the mouth than any other wagon. Look at the points marked "A". Then figure for yourself where the biggest strain comes. It's at the mouth of the skeins.
 - 2—A TROY 3 in. skein really measures 3 1/4 in. at the collar. See point marked "B". That makes the TROY a full size larger all the way through—axles, wheels, etc. Don't you want that added margin of safety?
 - 3—The skeins are oval, not round. See "A" again. Therefore they take in the full strength of the axles—just where the strength is needed most.
 - 4—TROY axles are strictly clear, first-quality hickory. No other timber has the same carrying strength or resiliency.
- This is just an axle and skein talk. Come in and let us show you why the TROY is the one best from every angle. You will like the price too—it's right.
