**—YOUR EYES!—**

Are little Cameras which picture objects on a little screen called The Retina of the Eye. A good picture must be clearly outlined in every detail.

Do your little Human Cameras focus objects clearly—if not—the little instruments or organs are defective.

The Eye may be imperfectly formed, causing what is commonly known as Astigmatism Hyperopia Myopia or muscular Troubles. See to it that your Eyes are as good as they should be by having a thorough examination. I use up-to-date Instruments and methods to determine these defects.

Come to see me about your case.
