A committee from Berlin Board of Trade held a conference with the County Commissioners at Somerset Monday morning regarding the construction of a road by the county to connect the Lincoln Highway with the old National Pike. Musser, and Frank L. Groff.

A committee from the Somerset Board of Trade has been endeavoring for sometime to have the County commissioners take action on this road. It is probably that a survey and estimate of the cost of the proposed improvements will be made. It is first desired to learn how much of the expense will be borne by the State.

While advertisements are appearing offering great inducements to laborers and miners, it would be well for such persons to consider the fact that they can make just as much, probably more money in Somerset county where conditions are as good or better than elsewhere before deciding to give up their present employment. It is well to note that laborers and miners should remember that during times of depression, such 1912-14 a majority of the miners of Somerset county worked on quite good time a condition not known elsewhere in the bituminous coal fields of America. The demand for Somerset's high grade fuel is increasing rapidly and no region holds out such strong guarantees of constant employment of men at good wages in future years as the coal fields of our own county.

The many friends of Rev. E. B. Boyer pastor of the Lutheran church at Confluence who is confined in the Dr. Frantz Hospital, with an attack of typhoid fever, will be glad to know his condition is much improved.
