term of school in all probability, the family will move to Pittsburg. Howard Phillips, of the Church Index Record Company, of this place is attending the Methodist Baltimore Conference at Washington, this week and next in the interest of his Church

the season, the local Rex Basketball stetler of Greenville.

## There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.
