Education of the proper sort will enable the possessor of it to become a more useful citizen and should be equally accessible to all. Such an education will do away with exploitation by bringing about a state of industrial, political, religious and economic freedom.

Now, is the time to buy Silver Polish; try a 25c jar for 15c at Bittner's Grocery.

Whether you're buying farm implements, stock, or land, you pay a few dollars more or a few hundred dollars more, if you feel you are getting a greater value.

When you're buying clothes, it's good business to pay enough to get them right; but it's not good business to pay more than enough or not quite enough.

That brings you to our proposition. Hart, Schaffner & Marx clothes are right; they cost enough to be right, and no more.

You'll get long wear, a perfect fit, and your money back if you're not satisfied.
