THE BEST DAY IN

THE WHOLE YEAR.
The Chinese are noted for their worship of ancestry while to us this seems extreme. The greatest love and tenderness should be taught in all our schools towards home and parents. Many children are so nurtured in the home and this tender feeling is so spontaneous that no outside training is needed. Moving pictures instead, of often teaching stories of unfaithful wives and husbands in little children as well as to older ones, could help wonderfully, and they often do, in showing forth love between parents and children. The homes of our land should be so attractive to children that many temptations would lose their power.
In a Kansas rural school a few days ago the teacher—a young man just out of normal school—asked his pupils, one by one, to tell what each believed to be the greatest day in the year. The answers piped up promptly, "Washington's Birthday," "Christmas," "the Fourth," "Thanksgiving" and so on.
"But I'm afraid you're all wrong," said the youthful instructor. "The greatest of all days in the year, is mother's birthday."

Next Sunday, Mother's Day, we are all particularly reminded of the tenderest tie in the whole realm of life's affections and this is recognized by even the most hardened of human beings.
Rev. A. S. Kresge has been notified that he has been appointed a member of the Executive Committee of the Anti-Saloon League for Somerset County.

Why Vote For Statler and Lohr

1. Both men have served one term faithfully, honestly and to the best of their ability.
2. It is customary here and elsewhere to return a member of the legislature for a second term.
3. Both men are endorsed by the loyal Republicans, by the Anti-Saloon organizations of the county, and by all candidates who withdrew in their favor.
4. They are pledged to Local Option, State and National Prohibition and to any good temperance law.
5. Each of these men have served one term and voted for all temperance legislation.
6. These men are opposed by the saloon keepers, the liquor bunch and their supporters.
7. Neither the legislature of Pennsylvania nor the representatives of Somerset County should be dictated to by a few liquor-profitting persons and corrupt politicians of the county and of the state.
8. Both Lohr and Statler have been life-long church members and persons of exemplary habits in their respective communities.
9. Both men have all their lives been public spirited and have had the welfare of the public at heart.
10. If returned to the Legislature, they will give honest and efficient service to the county and the state. They will not be dictated to by corrupt interests. They will give every bill that comes before the legislature careful and conscientious consideration.

If you want to have a real treat, attend the District Sunday School Convention at Mt. Lebanon on Sunday, May 14.

Miss Elsie Harvey, 18 years old, and her brother, William Harvey, 16 years old, are believers in preparedness. They have been practicing with a rifle and have become rather proficient with firearms. One day last week, however, Miss Harvey had a narrow escape while shooting at a target. A bullet glanced from some object it struck and passed so close to Miss Harvey that it pierced her waist near the heart. She and her brother were somewhat frightened over the occurrence, but they have not given up target practice.

JOHN P. STATLER FOR GENERAL ASSEMBLY.

John P. Statler of Somerset, who is a candidate for re-election to the legislature, was in town a couple of days this week. Mr. Statler is decidedly for local option and he voted in favor of that issue at the last session. He is an active church worker and his life and principles accord for pure, clean Progressive politics. He certainly deserves to be returned to Harrisburg. Vote for him on May 16.

WHY PEOPLE SQUINT

Have you ever seen a person draw his or her

Eyes together?

This is due to an imperfect Refraction of the Eyes.

This condition causes the Eye-muscles to tire and causes all sorts of troubles. This Squinting is a sure symptom of MYOPIA—ASTIGMATISM or MUSCULAR trouble.

DON'T SQUINT—Keep your Eyes wide open—If you have acquired the habit, check it by PROPERLY FITTED LENSES.

Driving It Home

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It's simply a matter of having proper facilities.
