HIGH ART

What's in a name? A much discussed question, but we are frank to admit that when we examined the HIGH ART CLOTHES which recently arrived for Spring, we decided that their name "High Art" was more than just a mere title.

It appears to us that their makers have shown consummate skill in the designing of these clothes—and—in the face of a market which is very high, these clothes maintain their usual big value, dollar for dollar.

The HIGH ART designer has particularly proven his skill this season in the production of models for every build, and Strouse & Brothers, their makers, show an indeed beautiful range of woolen and worsted fabrics.

You will like yourself in these clothes and we hope you will see yourself in them, for to try them on is to buy them.

ONCE in a generation or so a book finds its way into history. Once in a decade the populace of a world power is stirred.

THE BATTLE CRY OF PEACE

an inspired revelation written by J. Stuart Blackton, shows America's defenselessness. You see the most beautiful sky line in the world in flames. The metropolis of the western hemisphere devastated. The fall of New York. The enemy approaching. The defeat of the meager American forces. The landing of the invaders. Our forts destroyed. Our fleet beaten in battle.

But,
With it all is a heart interest drama so vivid, so real, so touching that it makes a lump rise in your throat and makes your heart pulsate faster.
