THROUGHOUT THE COUNTY

Items of Interest Culled From our Exchanges.

County Highway Supt. Guibert F. Endsley has appointed Edward Smith, foreman of the Lincoln Highway maintenance work from Stoyestown to Laurel Hill. He succeeds H. Snyder.

The Baltimore & Ohio railroad will begin within the next few weeks the erection of a new passenger station at Holsopple. The station will replace the one destroyed by fire some months ago and will be large enough to accommodate the town for some years to come.

The Quenahoning Coal company has under way the sinking of a forty-foot shaft on the H. Snyder farm in South Rockwood by which means the company intends to work a vein of coal that is not now being touched through their drift operations. It is expected that the shaft will be completed within the next ten days.

Alleging that her husband deserted her more than 25 years ago, Mrs. Elizabeth J. Alcott, of Ursina, has petitioned the Court for a decree authorizing her to transact business in her own name. In her petition the woman alleges that she and Edward Alcott were married January 1, 1873, and that her husband deserted her September 1, 1890, since when she has not heard anything from him.

In accordance with a movement on foot for some time, Windber has been made an independent school district. This means that Supervising principal, W. W. Lantz, becomes Superintendent, his term to continue to 1918. Also that Windber's 20 odd teachers will hereafter attend institute at Johnstown instead of at Somerset. Another result of the change is that examinations for provisional certificates and also for professional ones will be held in the Windber High School on June 7th. by the superintendent of the Windber Schools.

THE LABORATORY.

Little Talks on Health and Hygiene By Dr Samuel G. Dixon.

To many minds the mention of a laboratory brings some haunting suggestion of flickering furnace fires and calabastic signs. In the first dim morning of scientific endeavor knowledge protected itself from ignorance by a cloak of mystery. That has vanished Science now stands close beside us ever ready to aid.

To the practicing physician the laboratory has become a necessity. There are numerous diseases which can be determined with absolute accuracy by means of laboratory tests and with less delay than is possible without this aid.

The basis of any successful treatment must be an accurate knowledge of the disease. This is why it is necessary for the physician to have recourse to the laboratory. It makes certain what would otherwise be in doubt.

With the microscope we can see tissue changes which indicate disease and the chemist can determine the character of certain fluids of the body which are caused by diseases of the various organs.

Owing to the rapid advance in medical science laboratory has become a specialty in itself. It is impossible for the practitioner in the majority of instances, or even the small hospitals throughout the state to maintain well equipped laboratories with pathologists.

In Pennsylvania, the State Department of Health maintains a free laboratory to aid practitioners in rural districts and municipalities too small to maintain their own.

REFORMED CHURCH MISSION CONFERENCE.

Ridgeview Park is located on the main line of the Pennsylvania Railroad about 50 miles east of Pittsburgh situated along the mountain side at an elevation of about 1200 feet above sea level. It affords a pleasant place for recreation and has been selected again for the Reformed Church mission Conference.

Prompted by the successes of last year the conference will be held during the week of July 31-Aug. 7. The program promises even more than that of last year. A number of the speakers and teachers who pleased the people then will serve again—among them Drs. E. S. Bromer, Geo. W. Richards, Paul Dundore and other ministers of the Pittsburgh Synod. In addition to these a number of new names appear: Dr. Wm E. Lampe for a number of years missionary in Japan, Rev. Eugene Boroe or Rev. Arpad Bakai, Hungarian minister of the Reformed Church; Rev. Matthew Spinka of the Bohemian Reformed church of Cedar Rapids, Iowa; Rev. J. Sauckl, for 30 years missionary among the Winebago Indians, and other men of note from other churches.

SAND PATCH.

Mrs. Ella Bowman of Connessville is the guest of Mr. and Mrs. Irvin Bittner.

Mrs. George Benford spent Monday with her parents, Mr. and Mrs. A. O. Beal.

"Bill" Grine is all smiles since the arrival on Sunday.

Clarence G. Miller was a guest at the home of Howard Ravenscroft on Sunday.

Miss Eleanor Lepley, a Meyersdale teacher spent Sunday with the Misses Beal.

Mr. and Mrs. Chas. Kifer were Meyersdale visitors Friday.

John and Mary Ravenscroft are attending Meyersdale Normal School.

14 DIE IN POWDER PLANT

Thirty More Injured in Explosion at Gibbstown, N. J.

At least fourteen men were killed and about thirty injured in an explosion at the Repauno plant of the Dupont Powder company, near Gibbstown, N. J.

The explosion occurred in the building in which trinitrochloral is manufactured, and wrecked that structure and three others. Among the identified dead are W. F. Langley of Woodbury, N. J., assistant superintendent of the trinitrochloral plant, and George Marsh of Paulsboro, N. J., a foreman.

Some of the injured were taken to hospitals in Camden and other places, while about a score who received minor wounds were treated by physicians at the powder plant.

The cause of the explosion is not known and, according to officials of the company, may never be ascertained, as all those believed to have been in the building where the first explosion occurred are dead.

DISTRICT MINERS STRIKE

Men Object to Cost of Powder and Caps; Also Fines.

Following a meeting of about 150 miners, delegates of locals of the United Mine Workers of America, District No. 5, in the Panhandle section and the Youngs Bay and Monongahela valleys at Charleroi, the Taconet and Alice mines, operated by the Pittsburgh Coal company, closed down. About 100 miners are out on strike at the two mines, it is said.

At the meeting the miners discussed the increase of rent and increases in the cost of house coal, powder and percussion caps. They voted objection to the fines for leaving dirty caps placed on them by the company, it is said. The new work agreement of the district wage scale was discussed.

POTTERS' STRIKE MAY SPREAD

Union Men Ask For Conference on Wage Scale.

Indications of a general potteries strike came when 300 members of the drawers' union at East Liverpool, O., asked the United States Pottery Association to name a committee to confer with the workmen relative to an adjustment of the wage scale.

W. E. Walls of the Homer Laughlin China company said that the walk out last week by the warehousemen at Newell, W. Va., likely will result in a general tieup of the potteries in that town. This will involve about 2500 men.

Workmen at the Sebring (O.) potteries went on strike last week, this being the beginning of the movement.

WHISKY STOLEN FROM JAIL

Sixty Pints of Best Brands Taken From W. Va. Lockup.

The usual method of jail breaking was reversed at Tunnelton, W. Va. when, instead of prisoners escaping, burglars broke into jail, the attractive, being a large store of liquor which had been confiscated by police from persons arrested for violating the prohibition law.

The thieves carried away sixty pints of whisky after carefully sorting over the stock so as to get the best.

DEADLOCK AT YOUNGSTOWN

State Mediators Return to Columbus After Attempt to End Strike.

Mediators Croxton and Miles of the Ohio industrial commission left Youngstown after an ineffectual attempt to mediate the strike of machinists and sheet metal workers there.

Croxton says the strikers and manufacturers are hopelessly deadlocked over the eight-hour day.

Negro Spreads Smallpox.

A negro returning from smallpox occupying the post office and going from place to place bringing food has caused an epidemic in Oakland, Carbondale, and Smithers, W. Va. More than fifty are affected.

What's In a Name

It has required a great deal of planning and careful management and some additional expense to put into our clothes for spring the same high quality you have been accustomed to associate with the Oppenheimer label. Due, of course, to the scarcity of woolens and dyes caused by the war.

But we managed to do it, and we shall continue to do it, because we have a trade mark to protect, and we value your good opinion.

UNION MADE
OPPENHEIMER
Superior
CLOTHES

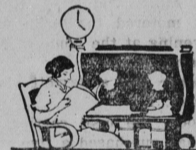

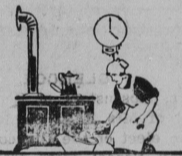

We believe the spring models now being shown by leading dealers, are the highest type of medium priced ready for service clothes made in America. See them. Look for the guarantee.

Suits \$10 to \$28, Trousers \$2 to \$6.

Insurance Clause—Every OPPENHEIMER garment is inspected rigidly and then offered for sale with ABSOLUTE INSURANCE against any defect of any kind whatsoever. Should the slightest irregularity be discovered the makers will correct it without argument, quibbling or delay.

M. Oppenheimer & Co.
Wholesale Exclusively

Pittsburgh, Pa.

LESS WORK— More Done— Greater Leisure

You get up three meals a day, bake a cake or something of the sort. That, with the rest of your housework, eats up your day, gives you no leisure and leaves you completely fagged.

Now, it isn't the actual cooking that takes up so much time or that's so exhausting. No, it's looking after the kitchen range. Starting the fire, watching that this doesn't burn or that doesn't cook too slowly. And all the time you're standing over a roaring fire—a veritable drudge.

But with a New Perfection Oil Cook Stove you do less work, get more done and you have greater leisure.

For a moment after you light a Perfection burner you are ready to cook; no tiresome waiting, no wasted heat, no ashes to sift, no coal to carry, no wood to split.

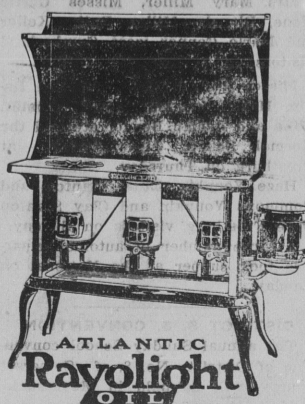

A Perfection is always ready to boil, fry, bake, roast—to do any kind of cooking without any preliminaries.

Have your dealer show you its fireless cooker, its separate oven and all its other refinements. And it burns kerosene, the cheapest of fuels—burns it slowly.

But don't be satisfied with just any kind of kerosene. For just as butter differs from oleo, Atlantic Rayolight Oil excels ordinary kerosene. So to get best results from a Perfection, use Atlantic Rayolight Oil, for it's the kerosene that gives the most heat to the gallon, that burns without sputter, smoke or smell. That is always the same. Buy it from the dealer who displays this sign.

Costs the same as the unknown, unreliable kerosene.

New PERFECTION Oil Stove

THE ATLANTIC REFINING CO.

Philadelphia
Pittsburgh

The Only Grand Prize (Highest Award) given to Dictionaries at the Panama-Pacific Exposition was granted to WEBSTER'S NEW INTERNATIONAL

Superiority of Educational Merit. This new creation answers with final authority all kinds of puzzling questions such as "How is *Præmuni* pronounced?" "Where is *Flanzer*?" "What is a *continuous voyage*?" "What is a *howitzer*?" "What is *white coal*?" "How is *skat* pronounced?" and thousands of others. More than 400,000 Vocabulary Terms. 39,000 Geographical Subjects. 12,000 Biographical Entries. Over 6000 Illustrations. 2700 Pages. The only dictionary with the divided page—a stroke of genius.

Regular and India-Paper Editions. Write for specimen pages, illustrations, etc. Free, a set of Pocket Maps if you name this paper.

C. & C. MERIAM CO., Springfield, Mass.

A Time Saver. Before laundering undergarments run with ribbon, catch one end of the ribbon to a piece of narrow tape, then pull out the ribbon and let the tape remain run through the beading until after the garment is washed and ironed.
