Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

Glessner, Brothersvalley, township to discuss the matter of starting a branch of this county women's club. DISADVANTAGE. "A pretty girl" observed the Plain Girl, bitterly, "has a great advantage in this business of making a name for herself!" "I don't know!" sighed the Pretty Girl. "She finds so many lovely ready-to-wear names at hand!"

QUICK CHANGES. "Can you tell me which country has the most powerful Dreadnaught?" "No." "Or who holds the aeroplane altitude record?" "No." "Or which liner has the trans-Atlantic speed record?" "No." "Or in what state the greatest graft-steal in the history of the country exists?" "No." "Then maybe you can tell me the name of the richest baby in the world?" "No. Confound it, man! I haven't seen the morning paper yet."

THE DIFFERENCE. Little Elmer—Papa, what is a sot? Professor Broadhead—A sot, my son, is a poor man who gets drunk; a rich man who drinks to excess is the possessor of a convivial disposition.

GOODS ROADS WORK TODAY

Considerable enthusiasm is being manifested today in the Good Roads movement in Meyersdale. Under the leadership of Committeeman for Meyersdale, Mr. E. C. Kyle, the forces were massed at the postoffice corner at 7 a. m. The dress was altogether plebeian and the coats and trousers of long by-gone days were again brought into service and there surely was no class distinction this morning. The young 12-year old son of Druggist Thomas mustered himself into the ranks with a pick well proportioned to his size. This year the work of the Meyersdale men is being confined to the town. The streets to be more generally helped by the town's road crusade are Salisbury, mainly, Keystone and the narrow street leading from Meyers avenue to Main street.

All of the stores of the town are closed except that of Habel & Phillips, they claiming that it was decided so suddenly. They offered three men and a team; this was refused. It ought to have been announced in last week's papers. People came from other towns today to do shopping and were not accommodated.

The Chautauqua program is in our hands and will be published in next week's publication.

CANDIDATES WHO ARE FOR REUNITED REPUBLICAN PARTY

Pledged to Support the Popular Choice at the Polls and to Carry Out the Policies of Governor Brumbaugh

ROOSEVELT MEN FOR THEM

Friends of Governor Brumbaugh and Theodore Roosevelt in the Twenty-third Congressional District, which comprises all of Greene, Fayette and Somerset Counties, have prepared a list of the candidates they will vote for in the interest of a Reunited Republican Party in Pennsylvania, at the Primary Election on May 16.

It is very important that the Republicans of these three Counties should know the harmony candidates for state and local offices, because each voter MUST mark X on his ballot opposite the name of each candidate he wishes to vote for.

The regular polling places will be open on Primary Day, May 16th, from 7 a. m. to 7 p. m. When the registered Republican elector goes to the booth, the Judge will hand him two ballots. One will be the Non-Partisan ballot for Justice of the Supreme Court. The other will be the Republican ballot.

The names of candidates will be arranged in alphabetical order under the different offices on each ballot.

The elector should scrutinize the names of candidates very closely, especially in the groups for delegates-at-large, alternate delegates-at-large, and congressmen-at-large.

There will be twenty-six candidates under the heading, "Delegates-at-Large to National Convention" and twenty-six candidates under the heading, "Alternate Delegates-at-Large to National Convention." BUT THE ELECTOR CAN VOTE FOR NO MORE THAN TWELVE CANDIDATES UNDER EACH HEADING.

There will be twelve candidates for "Representative in Congress-at-Large," but the elector can vote for no more than four.

It is to guide Republicans who are in accord with the movement to re-unite the party and promote the election of a Republican President in November that the list of harmony candidates has been prepared for publication.
