The party was planned in the early spring by her two grandchildren, Robert and Mary Toney, an unusual thing for two such tots to keep a secret so long. Don't forget the meeting on Friday night in the municipal building. It is to your own interests, Salisbury people, to attend.

**Earning Pin Money**

Many young women who have a little time free from their regular duties, are desirous of making pin money. The best way to go about this is to find some plan for doing the common thing in an uncommon fashion. It may be interesting to hear what others have accomplished in this line.

One girl has gathered a clientele of patrons for whom she classifies books and cares for libraries; this gives her occupation daily, from 10 until 3, bringing her around to the same house once a month. She nets about \$5 a day.

Another girl has regular customers for whom she washes prio-a-brac. Still another is a social secretary to three married sisters, visiting each two mornings a week attending to their social correspondence, writing invitations and doing all the regulation duties of a secretary.

One woman does all the mending of table linen for a small hotel which employs no regular housekeeper. Another woman reads aloud at \$1 an hour, and has more than she can do; she is satisfied with \$3 or \$4 a day and will not accept any more work than that. The various exchanges for women's work open the field for the needlewoman and the cake baker; they do very well, if they are experts in their line and have plenty of ideas.

There is a woman not far from the city, who has a large fruit supply from her trees and bushes, and a big herb garden. She works hard in summer but has a fine income all winter from her jellies, jams and preserves, dried herbs and fancy salad vinegars. In the winter she takes orders for cakes and salads for private functions, also making special dainties. During the first five years, she earned enough extra money to build a fair sized modern hothouse, a part of which she devotes to raising ferns and carnations for which there is a ready sale at good prices; the rest of the room she devotes to early lettuce and tomato plants. Recently she has added mushrooms, raising them under the benches; a local greengrocer takes her entire output.

A woman living near two large private schools, makes old-fashioned cakes and good sandwiches, and has boiled eggs, sweet milk and fresh fruit on hand at modest prices. Her one hour of storekeeping, five days a week, furnishes her a substantial amount at the end of the season.

There are women shoppers, chaperones, professional marketers, jewelers, caterers, visiting governesses, lace menders, women who get up parties of all kinds (for grown people as well as children), visiting housekeepers, visiting milliners; in fact, there is hardly a field that has been left untried. The professional trunk packer is always busy, and girls speaking various languages are in demand as companions for shopping and sight seeing by women from other countries.

Most women who are earning pin money cannot devote all their time to it, so they have to choose something that pays when fitted into their spare time. In these days of opportunity, no woman need hesitate. She first must decide on the right thing to do; then, if she works at it diligently there is little doubt as to the result.

**The Cheerful Kitchen**

When the spring cleaning and painting are in process, let us not forget to give the kitchen a generous share of attention. In these days of discussion about workroom improvement, it may not be amiss to consider the number of hours spent in our kitchens—kitchens in town houses are often in the basement, and which are not always planned with proper consideration for light and air.

The old idea of painting the walls of the kitchen with a dark color, so that much cleaning should not be necessary is no longer considered creditable household economy. The very modern kitchen is a light, pleasant room, encouraging cleanliness and cheer.

Why not make the old kitchen conform to this idea? It may be done with comparatively little expense and will insure an increase of good will and efficiency in the home.

The tiled kitchen is both attractive and practical but it is also expensive. The same effect may be gained by covering walls and floors with linoleum. Linoleum of various designs and colors may be had and, when set in cement, it makes a floor almost as enduring as stone. All the woodwork in the kitchen should be painted with white enamel, so that it may easily be wiped over.

A very inexpensive treatment for the kitchen wall is a dado of oilcloth of some pretty, light color, fastened to the wall at the top with a narrow molding of wood, painted with white enamel like the wall above. The effect is as attractive as possible and, if the oilcloth is of good quality it will wear very well and need not be renewed for several years. Old kitchen chairs and tables may also be painted white and the tables covered with oilcloth to match the walls of the room.

**Potato Puffs**

Take about four potatoes or enough to make three tablespoonfuls when mashed; salt them, then add two eggs beaten separately, one teaspoon of dry mustard, one teaspoon of baking powder, one half cup of sweet milk, flour to thicken stiffly. Drop from a teaspoon in hot cottolene and cook to a golden brown.

**ALL SHE WANTED.**

He—A maid must not expect such lovers as she finds in books. Few men are paragons.

She—Oh! I should not expect a paragon. I should be satisfied with a lover, young, handsome, brave, noble and unselfish.

**HIS OPINION.**

"And what," asked the reporter, "do you consider the success in life?"

"I should say," replied the wealthy philosopher from the Klondike, "that it consists in being at the right place at the right time."
