ROAD CHANGES—

NEW COAL ROUTE
In a few weeks the Baltimore and Ohio Railroad Company expects to start work on the Benscreek line to the new coal field in Somerset county. Right-of-way for most of the route has been secured. One or two parcels which are on the route may have condemnation proceeding instituted against them. The Kennerly Coal & Coke company owns several thousands of acres of fuel and surface along the route, but it is not known whether an agreement has been reached with them on a right-of-way.

When the new line is completed the B. & O. will have one of its best feeders in Somerset county, a district becoming famous in tidewater markets for its high-grade coal.

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of \$100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employes, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employes for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railroads be disposed of by one or the other of the following methods:

1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its position to consider and protect the rights and equities of all the interests affected, and to provide the additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or
2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employes are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence.
The rates the railroads may charge the public for transportation are now largely fixed by this Government board.
Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employes as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.
The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employes, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employes, now highly paid and constituting only one-fifth of all the employes, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.

Trio of World Famous Artists to Be Here Seventh Day of the Chautauqua

Mme. DORA DE PHILIPPE, DONALD McBEATH AND ARTHUR FIEDLER.

THREE of the best known artists in the United States will be heard here on the seventh day of the Chautauqua. They are Mme. Dora de Phillippe, leading lady in the famous opera "Madame Butterfly" and prima donna of the Chicago Grand Opera Company; Donald McBeath, violinist, for three seasons chief assisting artist with John McCormack, noted tenor, and Arthur Fiedler, pianist, a member of the Boston Symphony Orchestra. This is the first appearance of Mme. Phillippe on the Chautauqua platform, and, as she is supported by two artists of such prominence as Messrs. McBeath and Fiedler, the event is truly noteworthy and speaks well for the musical excellence of the Chautauqua program.
