

FARM WATER SUPPLY.

"On the farm where a supply of good water can be had from a spring at an elevation above the buildings, the expense of putting in a water system is not very large," says Charles G. McLain, water supply and drainage engineer of the Pennsylvania Department of Agriculture. Mr. McLain in speaking on farm water supply says:

"The spring should be well cleaned, then boxed in with a stone wall or in a concrete box, then piped from there to the buildings and distributed in any way desired.

"If the supply is below the buildings, a hydraulic ram or any mechanical power may be used to elevate the water to a tank for distribution. This tank can be located in any suitable place. If a gas engine is used it can be attached to a line shaft and any other machines run from it, such as a washing machine, separator, chopping mill, a dynamo for charging storage batteries to be used for lighting the buildings or any other light machines used about the farm.

The advantages of a water system on a farm are never understood and appreciated until after it has been installed and used. The whole system is within reach of almost every farmer in one form or another, and on the farm, where a system has been installed, it is one of the last things that would be done away with."

NEARBY COUNTIES

What is thought to have been the result of the operation in nearby counties of agents for an organized gang of counterfeiters is the recent appearance of number of spurious half dollars. The counterfeit pieces are easily detected upon close examination. Those which have been found are dated 1911 and 1914.

In case of war with Mexico or any other country, Harrisburg will be able to turn out munitions in great quantities, believe military experts. That city with the Harrisburg Pipe and Pipe Bending Works, Pennsylvania Steel Company, Foundry and Machine Works and Elliott-Fisher Typewriter Company could be made the center of shrapnel and cartridge manufacture throughout Central Pennsylvania. The pipe works up until a short time ago, was turning out 5,000 41-2 inch shrapnel shells for the British government and within a very short time this plant could be making similar shells for Uncle Sam in equal quantities.

Nathan E. Goughnour, aged 64 years, died of pneumonia Thursday night at the home of his son, Elmer in Conemaugh making the third death in the family since May 30, when the deceased's wife passed away. Mrs. C. W. Miller, a daughter of Mr. and Mrs. Goughnour, expired at Hooversville on June 4.

GUARD INSURED ONLY WHILE IN PENNSYLVANIA

When danger is at a minimum, the members of the National Guard of Pennsylvania who have been called out for service on the Mexican border, will be under the protection of the workmen's compensation act of 1915, but as the dangers increase the protection probably will decrease.

According to the act, compensation is extended only within the borders of the State. If any of the men should be injured while on the way to Camp Brumbaugh or during the time they are stationed there, they will receive compensation, but as soon as they leave Pennsylvania on their way to the border, if they are called there, compensation will be halted.

It is understood that the men will be considered state employees, even though mustered into the federal service so long as they remain in Pennsylvania. The act is interpreted so as to grant compensation to guardsmen who may be injured while in actual service in Pennsylvania.

BILLIONS OF SAVINGS

Saving accounts in the U. S. are growing faster today than ever before in our history. In less than two months, from March to May 1, the increase of savings deposits in the country's national banks increased \$341,000,000, making the total deposits more than \$11,000,000,000.

That is at the rate of more than \$2,000,000,000 increase a year. It means that in twelve months, at the present rate, our people will save and put in the bank nearly twice the amount of our national debt, and will have enough in the bank then to pay that debt a dozen times over. This comparison is impressive, when we consider the relation that the savings of most foreign nations bear today to their immense and steadily mounting debts.

And these figures do not include the billions deposited with state banks trust companies and other financial institutions.

BERLIN.

On the evening of June 22 one of the largest and most elaborate weddings ever solemnized in Berlin took place in the Methodist church there, when Miss Eleanor G. Groff, daughter of Merchant and Mrs. Fred Groff of Berlin, became the bride of Richard J. Gould, of Bramwell, W. Va. The Rev. John Yount, of Uniontown, a personal friend of the bridegroom officiated. The bridal party consisted of the following: Matron of honor, Mrs. Edward Gerwig, of Parkersburg, W. Va.; maid of honor, Miss Margaret Groff of Berlin, a sister of the bride; flower girl, Miss Eleanor Musser, of Berlin; bridesmaids, Miss May Augusta Sprout, Miss Anna Philson, Miss Lorene Garman and Miss Mary McGrath; organist, Miss Margaret Eskin; best man, Douglass Harnish; ushers, Samuel Philson, Robert Philson, Wilfred Kurtz, H. R. Reed and Charles Krissinger. The bride was attired in white silk tulle trimmed with silk net and silver. She carried white roses, lilies of the valley and orange blossoms. The church had been decorated appropriately for the event with ferns, palms, rhododendrons and cut flowers. A reception was held at the bride's home after the ceremony, about 100 guests being present. The happy couple left for a trip to Chicago, and in about a week will be at home at Bramwell, W. Va.

FIGHTING FOR FRANCE

Americans in Army of Gauls Must Ask Paris Government for Release.

American aviators fighting for France are not able to reply to the inquiry from the Aero Club of America whether they will return to take service in the American army in the event of war with Mexico. They are prevented from replying by the fact that they have enlisted in the French army for the duration of the war and are subject to army discipline.

The only manner in which this subject could be taken up would be by negotiations between the governments of France and the United States.
