CASEMENT CONVICTED ON HIGH TREASON CHARGE

Says Irishmen Who Die For Flanders Can Die For Erin.

Sir Roger Casement must die as a traitor.

After only an hour's deliberation the jury in the British high court of justice, called upon to pass upon the guilt or innocence of the Irish knight tried for high treason, brought in a verdict of "guilty."

His counsel will take an appeal to the criminal court of appeals and then to the house of lords.

Following the verdict Sir Roger arose and made a statement which will be historic in the annals of the centuries old "Irish question." His speech was as touching as it was eloquent, as dramatic as it was bitter and defiant. He said:

"If we Irishmen are to be hanged as murderers, shot as rebels, and imprisoned as convicts just because we love Ireland, then I am proud indeed to stand here, in the traitor's dock, proud to be a rebel, glad to give my last drop of blood for the rebellion."

"Irishmen are told to die for Flanders, Gallipoli, or a patch of desert in Mesopotamia—with the promise that they may get home rule after their death. But if they are willing to lay down their lives for their own native land, they are called traitors."

"I have been asked if I had anything to say why sentence or death should not be passed upon me, but I am not called upon to say anything. I only that I hope to be acquitted of presumption when I say that I do not seek judgment in this court. I prefer to leave the judgment of myself to a far higher justice."

PA. TROOP'S MOVING

Tenth Leaves Sunday, Sixteenth on Monday and Eighteenth Tuesday.

All of the three western Pennsylvania regiments mobilized at Mt. Gretna are now on their way to the Mexican border. The Tenth, under command of Colonel Coulter, was the first to go, leaving on Sunday. The Sixteenth, under command of Colonel George C. Rickards, was the next to go, getting away Monday night. The Eighteenth regiment, Colonel Edward Kearns, departed Monday night. All the commands are said to be bound for El Paso, Tex.

General A. J. Logan, commander of the Second brigade, and the members of staff, Major E. Lowry Humes, adjutant of the brigade, and Majors Blaine Aiken and James F. Edwards, Lieutenants Ewing Rafferty and Lyle E. Van Vleck, aids, accompanied the Eighteenth. On the sides of the coaches were fastened streamers on which were inscribed, "Eighteenth Regiment of Pittsburgh." Both officers and men hope they will get into action.

Captain James B. Kemper, United States army, detailed as senior instructor of the national guard of Pennsylvania, was appointed by Governor Brumbaugh lieutenant colonel of the Eighth infantry, headquarters at Harrisburg, to succeed Maurice E. Finer, who recently became colonel.

TO SWING AROUND CIRCLE

Mr. Hughes Will Begin Campaign Second Week in August.

Unless plans are changed, Charles E. Hughes in all probability will inaugurate his campaign for the presidency in the second week in August, starting on a tour which will take him to the Pacific coast.

The present purely tentative arrangements provide for addresses in about ten leading cities, probably St. Paul, Portland, Ore., San Francisco, Los Angeles, Salt Lake City, Kansas City, St. Louis and Chicago, among others.

Mr. Hughes intends this swinging around the circle to be merely preliminary to one or more whirlwind tours. He hopes to avoid rear platform speaking on the first long trip. His plan is to speak only in cities where it will be convenient to spend the night and to hold only one meeting in a city and always in the largest and most accessible auditorium.

Driving It Home

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It's simply a matter of having proper facilities.

Mrs. Frank Yoder of Hooversville died Sunday noon at the Cresson sanatorium. Her remains were taken to Hooversville that evening. Mrs. Yoder became seriously ill a few months ago. Her husband put his four children in the care of his mother at Hooversville and went to Cresson with his wife. He secured work at Cresson to be near his wife and continued loyal and devoted to Mrs. Yoder to the end. He accompanied the remains to Hooversville.

If war is declared the organization of a complete company of volunteers from Somerset and vicinity is the intention of Attorney John C. Lowry, who has sent work to the War Department. Mr. Lowry expects to recruit 150 men and drill them for service in case the President issues a call for volunteers. It is understood that a similar move is being made in Berlin and that other towns will follow suit within a short time if there is a call to arms.

ENJOY your MEALS

Can't, if you're too done up to eat. And you're bound to tire, after a morning in the kitchen, over a coal range. For it's wearing, beyond a woman's strength, to carry wood and haul coal from bin to kitchen. And you can't control the heat of a coal range. Most times you've far more heat than you need—a waste of fuel—that turns the kitchen into a nerve-racking furnace.

your dealer to show you its fireless cooker, its separate oven, its combustion chimney, its long-lasting wick. Be sure, though, you use Atlantic Rayolight Oil in your Perfection. That's essential. For it is just as necessary to discriminate in buying kerosene as it is in selecting flour. It takes use to prove either. You don't have to buy a flour on trust; neither need you take a chance on kerosene.

Only Miracle Saved Life of Explorer Who Snapped These Antarctic Pictures

Copyright, 1915, by Sir Douglas Mawson.

CLIMBING IN SERAC ICE.

THIS view is only one of many showing the tremendous perils met and overcome by Sir Douglas Mawson and his brave band of Antarctic explorers who snapped the thrilling pictures of polar life which will be thrown on the canvas at the Chautauqua. Sir Douglas, himself, was lost amid the ice and snow for thirty days, his two companions being dead, and had it not been for his miraculous discovery of food left by a searching party he would undoubtedly have perished. The thrilling struggle of this brave explorer, the discoveries of the kinds of animal life existing in the frozen Antarctic regions and the horrors of the driving snow, the falling ice and the terrific blizzards will all be shown in motion pictures at the Chautauqua—pictures that are, without doubt, the most striking ever taken by any camera.
