Driving It Home

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and mores costly soap, and keep all the clothes in constant motion during the entire process.

It's simply a matter of having proper facilities.

WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged—the NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired."—Albert S. Cook, Ph.D., LL.D., Professor of the English Language and Literature, Yale Univ. April 28, 1911.

NEW LIEUTENANT COLONEL FOR TENTH REGIMENT

Lieutenant Walter Kreuger, Third Infantry, U. S. A., has been assigned Lt. Colonel of the Tenth Pennsylvania Infantry. Under the new regulations only one regular army officer may be assigned to a National Guard regiment. Lieut. Kreuger has been on intimate official and social terms with Colonel Richard Coulter and the officers at regimental headquarters for years, and it is believed here that the assignment was made at their request. Hon. Thos. S. Crago recently resigned as Lieut. Colonel of the Tenth because of his duties in Washington. When Colonel Crago suggested withdrawing his resignation before the Tenth started for the border he was urged not to do so, because his services are required in Washington more than they are on the border at this time.—Somerset Herald.

The examination for permanent state certificates will be held at Somerset August 3 and 4. Applicants should notify D. W. Seibert superintendent of Somerset county schools, at least ten days prior to the examination, giving names of books on pedagogy in which they wish to be examined. Teachers holding professional certificates for two or more years are eligible to this examination. The committee is composed of M. R. Schroob, D. W. Seibert and J. M. Custer.

The will of Stephen McClintock, late of Addison Township, was probated recently. He directs his executor to not sell his real estate for a period of 30 years at which time the same is to be disposed of at public sale and the proceeds equally divided among the legal heirs of the testator. The following cash bequests are contained in the will: Mrs. Harriet Sellers, \$900; Alvey Sellers, \$200; Matilda, wife of James L. Gower, \$200; Evaline, wife of J. S. Shaffer, \$300. The testator's son-in-law, James L. Gower, is appointed executor. The will is dated March 27, 1916, and witnessed by Chas. W. Walker and F. W. Biesecker.

The State Workmen's Compensation Board has just handed down an opinion reversing the decision of Referee Snyder of Altoona, in awarding compensation to Selma Swanson, of Windber, for the death of her husband, a bartender. John C. Sharkey, of Windber, Chairman Mackey, of the Compensation Board, holds that the death of Mr. Swanson occurred from heart disease, in no way superinduced by the fall and sets aside the award. Mr. Swanson had been injured in stepping backward through a cellar opening, an employee of the hotel having failed to close the trapdoor. He died some time later.

John Russell Day and Hannah Louise Hutzell, both of Meyersdale, John Wilkins of Addison and Myrtle Gertrude Silbaugh of Silbaugh, were granted licenses to wed in Cumberland recently.

WATCHING MILK AND ICE CREAM SUPPLY.

Protecting the milk and cream and ice cream supply during the summer months is one of the chief duties of the Dairy and Food Bureau of the State and the chemists and agents have been unusually active during the past few weeks. The result of the work is shown by over \$6,990 in fines being turned in to the Department during the past few days.

The efforts to violate the pure food laws are numerous but the Department of Agriculture watches especially cases where water is added to milk butter fat is removed, milk is skimmed or preservatives are used. The milk and cream must be kept up to a State standard and as it is in many cases, the only food that babies feed upon in the summer, extra effort are being made to see that the supply furnished the consumers of the State is kept pure and up to the standard. Ice cream and soft drinks are also carefully watched, at this time of the year for artificial coloring and flavoring and for sweetening with saccharin. Many prosecutions for the sale of soft drinks either dispensed at soda fountains or in bottles have been made when they were found to contain no fruit juice from which they were named.

The pure food bureau is also active in watching the sale of dirty candy and food products from open stands. In Philadelphia, some trouble has been experienced through the sale of goat meat as mutton and a number of prosecutions have been made.

THE DEMAND FOR COAL INCREASING

The demand for coal, according to a prominent local coal operator, has increased materially during the last few weeks, while the labor situation is growing better as well, it having become easier to secure men for the mines.

One factor that has caused an increased demand is the diminution of the immense stock piles, purchased by large concerns prior to April 1, in anticipation of a general strike of the miners. Many of these companies had enough coal to carry them over until August 1, but the majority of them have now used up their surplus and are again in the market.

Children Cry FOR FLETCHER'S CASTORIA

ENJOY your MEALS

Can't, if you're too done up to eat. And you're bound to tire, after a morning in the kitchen, over a coal range. For it's wearing, beyond a woman's strength, to carry wood and haul coal from bin to kitchen.

And you can't control the heat of a coal range. Most times you've far more heat than you need—a waste of fuel—that turns the kitchen into a nerve-racking furnace.

A New Perfection Oil Cook Stove offers you a way to end kitchen drudgery and at the same time to economize, for the Perfection burns kerosene, the cheapest fuel. Think—no coal, no wood, no shaking, no ashes, no fear of the fire going cold. Instead, heat when you want it and exactly as much as you want.

A New Perfection is inexpensive. Ask

your dealer to show you its fireless cooker, its separate oven, its combustion chimney, its long-lasting wick.

Be sure, though, you use Atlantic Rayolight Oil in your Perfection. That's essential. For it is just as necessary to discriminate in buying kerosene as it is in selecting flour. It takes use to prove either. You don't have to buy a flour on trust; neither need you take a chance on kerosene.

For you can ask for Rayolight with the positive assurance that every gallon will be like every other gallon. A kerosene that will burn without smoke or smell, but that will yield a great and a cheap heat.

With all its advantages, Rayolight costs no more than ordinary, unreliable kerosene. Buy it by name, where you see this sign:

SUN FINISHED HATCHING OUT CHICKS.

Five eggs of the bantam breed that had been cast on an ash heap on the supposition that they were spoiled, were hatched by the sun at the home of John Caney, a yard engineer, in Everett. The chicks were discovered by Mrs. Carey running about the yard who, at first thought they were a part of the brood which the mother had brought out, but later discovered the shells on the ash pile from which they had emerged. The old hen assumed charge of them.—Altoona Mirror.

WOMEN ON THE FARM.

Women's ability in farming is being recognized more and more. Mrs. Adda F. Howle, of Elm Grove, Wis., who was appointed head of the dairy section for the world's congress of farm women at the Panama Pacific Exposition, is said to have probably the finest herd of Jersey cattle in the country. The herd, which now numbers 84, was started by Mrs. Howe with only two cows and a heifer, bought with money which she had earned at State fairs and by writing on agricultural topics for periodicals.
