Driving It Home

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It's simply a matter of having proper facilities.

The high cost of living has induced the hotel proprietors of Somerset to increase their charges which will be done almost immediately.

Employees of the Victor Coal Mining Company at Holsopple struck Thursday morning when the company refused their demand for a checkweighman. To assist in maintaining order, Ferd Sann closed his hotel.

Rev. John W. Myers, 70 years of age, a retired Lutheran minister, died at the home of his daughter, Miss Anna Myers, in Pittsburg, July 16. His wife, who was Miss Adda Poorbaugh of Berlin, died about a year ago, and the body of Rev. Myers was brought to Berlin for interment by her side.

The Public Building bill, including an appropriation of \$68,000 for a new Federal building at Somerset has been reported in the House of Representatives. Somerset people feel elated that the appropriation has been reported out of committee, although there is no assurance that the bill will be passed. The bill also provides an appropriation of \$80,000 for a Federal building at Tyrone.

David A. Swank, aged 72 years, died at his home at Sipesville, at 9 o'clock Monday afternoon following a long illness. Funeral services were held Wednesday morning at 10 o'clock at the Casebeers Lutheran church and interment in the Casebeers cemetery. The deceased was born in Somerset county and spent his entire life in this vicinity. He is survived by his widow and two sons, Simon V. and Herbert F. Swank, both of Sipesville. He was a member of the Casebeers Lutheran church.

Workmen's Compensation Referee Jacob G. Snyder has awarded Charles Shaffer, of Pleasant Hill, total compensation to the amount of \$3,030 for the loss of his left eye. Shaffer was working for the Consolidation Coal company at Listic, where on May 15 he got a cinder in his eye. He had been suffering from granulated eyelids, which with the irritation caused by the foreign substance in the eye, developed a serious trouble and terminated with the loss of the sight of the eye. Shaffer is a son of Mr. and Mrs. Samuel Shaffer. He was married a little more than a year ago.

Mrs. Margaret Blough, residing near Davidsville, has filed a suit against Daniel B. Specht of Stoyestown asking \$10,000 damages for the loss of her little son. The boy was run down by an automobile driven by Specht on May 28, 1916. The child died shortly after the accident. Specht was so grieved over the fatality that he disposed of his car a short time later, while his wife, who was with him at the time of the accident, has suffered considerably from nervous shock. The child was playing in the road at the time and ran in front of the car. Eye witnesses of the accident, it is alleged, placed no blame on Mr. Specht.

THE ARMY WORM ON THE WAY.

The so-called army worm, which caused wide-spread destruction of vegetation two years ago, has made its appearance in this section and a resident of Johnstown declares that his lawn has been saved only by the liberal use of poisonous liquids.

The moths, the entomologists of the United States department of agriculture report, were laying their eggs the first week in July and as it takes from three to four weeks for the caterpillars to mature their presence should begin to be quite apparent about the last week in July to the first week of August. Farmers should be on the alert to discover this pest in its younger stages before it has reached a large size and has committed irreparable damage to growing crops, especially grasses and grains.

Various remedies are suggested by the Department of Agriculture. So soon as the worms are discovered the increase in numbers may be checked by spraying with arsenate of lead solution, two pounds of lead to 50 gallons of water; or a solution of Paris green, one pound of Paris green to two pounds of fresh-slacked lime and 50 gallons of water. Where spraying cannot be done, bait should be made of Paris green, one pound, or arsenate of lead, two pounds, low-grade molasses, three to four quarts, and 50 pounds of wheat bran, and this laid in their way. Where the worms are moving in masses, a furrow may be turned with the plow, and when the worms have gathered in this they can be killed by dragging a log through the ditch.

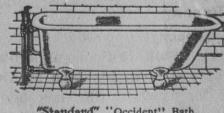

The average price obtained by the farmer's of the State for strawberries was ten cents a quart. Prices ranged from eight to twelve cents per quart.
