HICKORY DICKORY DOCK, SNAKE GETS INTO CLOCK

Query, Did Reptile Shed Skin There, or Should Blame be Laid on Rats Pittsburg, Pa.—The Perrysville public schoolhouse in Ross township, near the Highland Presbyterian church, night there after having escaped from the Alleghany County jail, has come to the front again with a sensation that is sending thrills up and down the spinal columns of the pupils of that district and causing even older folk of the neighborhood to give the place of learning a wide berth after nightfall.

The glass in front of the pendulum of the clock had been broken for some time, and it is supposed that rats may have made a nest in the works of the time piece. ********** MR. WILSON HAS HAD NO MEXICAN POLICY.

"We cannot let the American spirit fall to low that, lapped in the luxury occasioned by a foreign war, we shall see American lives sacrificed without a determination, to prevent it and to make the American name honored, and respected wherever our flag flies. The trouble with this administration is this: I don't think it ever has had a policy in Mexico-Sworthy of the name."

"First, it was explained that it was made in order to compel somebody to salute the flag somebody who had insulted us. But the flag was not sa-luted and has not been to this day. Then it was said that the salute was not what we sought, but to prevent the landing of a bontload of ammuni-tion intended for Huerta. The ammu-nition landed, however, and it has been shown that it reached Huerta in due season without interference on

our part.
"When that reason was shown to
be untenable a third one—and possibly
the real one—finally was advanced.
It was said that our seizure of Vera Cruz was a move to compel the retre-ment of Huerta. It seems possible that this is true, although we had promised the Mexicans that we would not interfere in their affairs and told them more than once that we wanted them to handle their own affairs.

"That is why the Mexicans could not understand us and that is why they show little faith in our promises."

Plans are being formulated for carrying on a campaign to capture the woman vote of the country, but who will make the speeches on this phase of the controversy has not been determined. It has been expected that Mr. Bryan would speak in the Maine campaign, but it is now believed be cannot do so, but will make some speeches later. And so it goes. Watc.ful waiting will prevail, while in the meantime Mr. httghes is carrying on a positive campaign and arousing the entire western country.
