Democratic debaters who discussed the eight-hour bill in Congress took great pains to absolve the labor leaders from the charge that they had compelled Congress to deal with the problem. It was the President, they averred, who brought the matter to Capitol Hill. In this they were right. The President took the problem out of the hands of the men and the managers when they were negotiating and before the federal board of mediation and conciliation had determined that they were powerless. When he found that he could not settle it, he dumped the thing into the lap of Congress. It was the President who put the shameful necessity upon Congress of yielding to dictation.

**THE CHILDREN**

Children, in general, not our own, are often spoken of with a tinge of disparagement for the reason that they are at times annoying or troublesome. On most occasions they make their presence known and the adults look upon their pranks and movements in a sort of patronizing way. What the children are is appreciated indeed very much by those who have been attending the Sunday schools for the past few weeks while the quarantine on children under 16 years has been in force for there were no children present and there was an aching void in the hearts of all and everyone now is glad that next Sunday the hum of happy voices and the sunshine on the faces of cheery-hearted are to take possession of the Sunday School which will transform it into a real Sunday School. America's great poet, Longfellow says:  
 Come to me, oh, ye children!  
 For I hear you at your play  
 And the thoughts that have perplexed me  
 Have vanished quite away  
 For ye, are more than all the poems,  
 That were ever sung or said.  
 For ye are the living poems while  
 all the rest are dead."

**N. B. C. GRAHAM CRACKERS**  
 You don't have to coax the children to eat plenty of N. B. C. Graham Crackers. These are not only rich in the nourishment that builds bone and muscle, but their tempting taste makes the little appetites hungry for more.  
 N. B. C. Graham Crackers added an individuality and nut-like flavor that other graham crackers lacked. This makes them an almost universally popular article of everyday diet.
