The Pittsburg Synod has been entertained by the Amity Reformed Church of Meyersdale, Pa. during its Forty Seventh Annual Sessions. This is the fourth time this congregation has conferred such a favor upon the Synod during the past twenty-eight years, the last three times under the present able and efficient pastor, The Rev. A. E. Truxal, D. D. Each time the arrangement seemed better and the hospitality more generous. The Synod has noted with great satisfaction and gratification the steady growth of the congregation in these twenty-seven years and the increasing value of its plant and equipment. Since our last meeting here the church has been entirely remodeled, a pipe organ has Sunday School House built. It is now one of the largest and best equipped churches in the Synod. It seems that churches in the Synod. It seems that "time cannot wither nor custom stale" the efficiency and usefulness of the pastor of this congregation.

Resolved I. That Pittsburg Synod hereby expresses its high appreciation and full measure of thankfulness for the courtesy shown and the hospitality so generously accorded to its members by Amity Congregation during the sessions of this annual meeting.

II. That the abundant labors, valuable services, heroisms of faith and duty, together with the achievements and successors of the veteran pastor, Dr. Rev. A. E. Truxal D. D., during so many years, not only in his various pastoral relations, but also in the Synod and in the work wider work of our denomination, be hereby accentuated and memorized by a rising vote.

III. That the treasurer be instructed to pay \$25.00 to the consistency of this congregation for use of the church.

IV. That these resolutions be ordered read from the pulpit of this church and also published in the papers of this city.

Prof W. H. Kretzman.

Dear Brother:-
 We wish to express our appreciation of the services rendered to the Synod by the choir of Amity Reformed Church. In our opinion the rendering of the anthems and hymns was most excellent. The choir added very much to the Communion service on the Lord's Day.

PULITZER'S OPINION OF HUGHES

The New York World, most rapid of Hughes haters, is much perturbed because Republican papers are quoting from the will of its former owner the late Joseph Pulitzer, naming Hughes as one of the executors of his estate. The World says that Pulitzer may have considered Hughes a good man for executor of his estate, but that does not indicate an opinion that he would make a good president. Now comes the disclosure that Pulitzer not only wanted Hughes to serve as an executor, without bonds, in managing an estate that included the World property, but also predicted that he would some day be President. And Pulitzer was a far wiser man than the present managers of the World.

CONTAMINATING HANDS Little Talks on Health and Hygiene

By Dr. Samuel G. Dixon.
 The majority of the milk consumed in urban communities is delivered in bottles. Most of these are of the familiar type with flanged top sealed with a paper disc. Sometime between midnight and the morning, tens of thousands of these bottles are delivered upon the door steps and porches.

To handle one of these bottles with ease one naturally picks it up by the top, holding on to the flange or rim. This is the way the delivery man picks them out of the crate and the way they are put into the ice box.

When the milk is served the paper cap is lifted with the fingers or pried out with some pointed utensil and the milk poured out. If you have ever performed this operation and most people have, you know that the milk flows over the rim that has been badly exposed to the often dirty hands of a various persons who handle the bottle before it is delivered to the consumer.

This may seem a small matter but in truth no easier method of contaminating the individual milk supply could be acquired.

Before the milk is poured the bottle tops should be sealed to insure cleanliness and safety from contamination. Owing to the fact that the present milk bottle is used in houses of the sick as well as in those of the healthy and often not thoroughly cleaned or disinfected, it will have to give way in the near future to the destructible bottle that will never be used the second time.

Miss Kathryn Schuyler returned to her home last Saturday afternoon with her sister, Mrs. W. H. Ryland.

THE STAMP of CHARACTER

Critical customers agree that the refinement with which "High Art Clothes" express the modern fashion trend is one of the outstanding characteristics of these splendid garments.

Style in some clothes fairly screams itself into recognition—but in
