Try us with an order of stationery. We will please you. Job work neatly executed at this office.

Our corps of correspondents are requested to get communications to the office as early in the week as may not be later than Wednesday morning if it can be so arranged. Delayed communications places a lot of work in the last few hours that should be employed in other lines in getting out on time. The same request is made of our advertisers, as they can get more care for their work if given in earlier than if it arrives late, when all hands are engaged with work toward getting the sheet in the postoffice.

The farmer's Institute, which was in session here December 31, and January 1-2, was well attended and interesting discussions of problems arising in the business was the order of the day. More interest was taken in the proceedings than were before and the discussion brought out interesting experiments with beneficial results to all.

Our job department has been kept busy the past two weeks and we are turning out some work that has won the commendation of the users. Send in your orders; We always give you good work at a fair price.

The instructors who were present were all experts and capable instructors and their work was appreciated by the Institute.

Driving It Home

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It's simply a matter of having proper facilities.
