ROYAL BAKING POWDER

Absolutely Pure
No Alum—No Phosphate

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

1 cup sugar	DIRECTIONS:—Boil sugar and water until it spins a thread and add to the stiffly beaten whites of eggs, beating until the mixture is cold. Sift together three times, the flour, salt and baking powder, and add alternately to the white mixture with the yolks of the eggs beaten stiff. Add 1/2 cup cold water and flavoring. Mix lightly and bake in moderate oven about one hour.
1/2 cup water	
3 eggs	
2 teaspoons Royal Baking Powder	
1 cup flour	
1 teaspoon salt	
1/2 cup cold water	
1 teaspoon flavoring	

The old method called for 6 eggs and no baking powder

ROYAL BAKING POWDER

made from Cream of Tartar, derived from grapes, and adds none but healthful qualities to the food.

At The SUMMER GARDEN

Week Commencing, March 12th.

PARAMOUNT PROGRAM
with Myrtle Stedman.
FRIDAY EVE., March 23rd.

A feature every day in the week is the policy of this popular picture resort, and the one for Friday, March 23rd with Myrtle Stedman in "The American Beauty" is a real beauty, a beautiful five part Hallas production, a Paramount feature.

DIGESTION AND HEALTH
Upon the health of every man, woman and child depends our national defense. Let us, therefore, stop to realize the necessity of laying the foundation for the temple of peace. This structure must be made up of individual units strong and resistant to invasion. This strength depends largely upon the assimilation of proper foodstuffs.

Last week's letter was a warning to our fellow citizens against the over-eating of potatoes, an indigenous tuber of America sometimes called the "Irish potato." Today attention is called to the fact that starchy foods are more quickly and thoroughly digested in the secretions of the glands of the mouth than in any other part of the digestive system. The digestion of starch always begins with the saliva. The proper mastication of starchy foods depends upon their being held in the mouth long enough to permeate them thoroughly with ptyalin. If the starch is swallowed without being saturated in the mouth it passes on through the stomach proper into what might be called the second stomach, where its digestion is again taken up, but there is no substance like the secretions of the mouth.

The expert chemists are constantly testing the commercial substances sold as digestive agents, yet I never heard of any of them that would compare in digestive strength with the saliva of the mouth.

The important lesson to maintain health in youth and old age is the proper digestion of the starchy foods by mixing them up with the saliva in the mouth and not swallowing them down until that takes place. This will produce the chemical condition necessary for it to be taken up and circulated through the body and give strength to it along with that given by meats, beans and fats.

The following represent some of the starches to be well masticated and mixed with the saliva before swallowing: Potatoes, corn, rye, white bread, toast, macaroni, bananas, crackers, all cereal breakfast foods, tapioca, arrow root, sago, buckwheat, barley and parsnips.

Sloan's Liniment For Rheumatism.
The torture of Rheumatism, the pains and aches that make life unbearable are relieved by Sloan's Liniment, a clean clear liquid that is easy to apply and more effective than many plasters or ointments because it penetrates quickly without rubbing. For the many pain and aches following exposure, strains, sprains and muscle soreness, Sloan's Liniment is promptly effective. Always have a bottle handy for gout, lumbago, toothache, backache, stiff neck and all external pains. At druggists, 25c.

AMUSEMENTS
