CARS GOING WHERE MOST NEEDED

In the Exercise of its power to operate all the railroads as a single unit, for the best interests of the country as a whole, the Railroad's War Board since May 1 has ordered 113,420 empty freight cars moved without delay from one railroad to another, regardless of ownership.

The latest orders sent 2,450 more cars to the grain-producing country, 4,537 to the lumber states of the South and others to territory where the need for cars is most urgent.

Because of the unified policy of railway operation adopted by the Railroads' War Board, despite the most terrific pressure ever inflicted upon the railroads of the country, millions of tons of government supplies, including lumber, munitions and materials for government construction, have been transported by the carriers without a hitch this year and without interfering to any extent with the regular commercial traffic of the country, which, too, has been increased to vast proportions by the war. Despite the abnormal traffic increase, the Railroads' War Board's policies have reduced the unfilled orders for cars from 148,627 on May 1 to 33,776 cars on August -st.

Falsehood.

No falsehood, did it rise heaven high and cover the world, but bankruptcy one day will sweep it down and make us free of it.—Carlyle.

COLONEL ROOSEVELT

Johnstown will play host to the greatest assemblage of laboring men which Western Pennsylvania has witnessed in years, when, on Sunday, September 30, a workingmen's Red Cross Rally will be held there at which Colonel Theodore Roosevelt will be the principal speaker. The Colonel will end a week's speaking tour with his appearance there, being scheduled to address meetings in Kansas City, Racine, Wis., and Minneapolis before his Johnstown stop. In each city he will speak on America's part in the war, and it is certain that he will bring a message that every workingman in this part of the State will wish to hear.

The Ex-President's acceptance of the invitation to speak at the local Red Cross-Workingmen's rally was received a few days ago. Several other National speakers have sent tentative acceptance and it is expected that within a few days the full list of speakers at what promises to be a record-breaking rally, so far as attendance is concerned, will have been arranged. Announcement of the names of other speakers has been withheld pending definite assurance that they will be present.

Labor organizations in Cambria, Blair, Clearfield, Indiana, Somerset, Westmoreland and Bedford counties joined in the local committee's invitation to the Colonel to be present at the big rally, and his letter of acceptance he declared that he was more than pleased to have the opportunity of speaking before the laboring men of Western Pennsylvania, upon whom depends so much with America at war.

The rally will be held in Luna Park the city's biggest playground and arrangements have been to care for a crowd of 50,000.

APIARY DISPLAY AT CUMBERLAND FAIR

Four Days of Races with Extra Feature of Aviation Stunts by De Lloyd Thompson.

One of the most interesting of the many attractions at the tenth annual fair and races of the Cumberland Fair and Agricultural Association, September 25, 26, 27 and 28, will be a display on beekeeping and insect control, by the Department of Entomology, of the Maryland State College of Agriculture. G. H. Cale, in charge of the beekeeping, at the college, will superintend the display. This novel demonstration is being shown at all the largest fairs of the Lake Erie Trotting Circuit, and other circuits.

The Lucky Soldiers

"What are you knitting, my pretty maid?"
She purled then dropped a stitch,
"A sock or a sweater, sir," she said,
"And darned if I know which!"

Cheer up some more! A thumping big chestnut crop seems assured. And what a comfort the roasted chestnut is on a cold day in winter.

It May Happen to Yours

—whirled on skidding tires into a disastrous crash

Stop endangering your life as well as the lives of others. When streets are wet, always "chain your car to safety." Take no chances. Equip all four tires with

Weed Anti-Skid Chains

The ONLY Positive Safeguard Against Skidding

Safety demands that all tires be equipped with Weed Chains. It doesn't require the gift of second sight to see why this is true. Rubber slips—never grips. It slides on wet pavements and roads like a cake of soap on the moistened hands.

Rubber lacks the bite-and-hang-on ability to prevent skidding, while Weed Chains hold on like a bull dog, prevent side-skid and drive slip. Equip both front and rear tires with Weed Chains. Do it today—before it's too late.
