**TO THE SPORTSMEN**

Gentlemen:  
 I am writing this public letter to again call your attention to a most important matter, and refer to the care of our wild game, especially the birds, at this time left in our forests and fields, and the killing of vermin. As I have previously stated, imported birds and animals, especially of a different species, do not begin to favorably compare with our native game birds and animals, and for this reason our native game should, by all means, be given every protection and assistance possible. The imported game must also be given an opportunity to demonstrate whether stocking with imported species should be continued, and EVERY SPORTSMAN SHOULD TAKE IT UPON HIMSELF TO ASSIST us in helping to better conditions to the benefit of not only himself but all sportsmen, in THE FEEDING OF GAME AND THE KILLING OF VERMIN WHEREVER POSSIBLE.

We have instructed our several Game Protectors to get in touch with the sportsmen in their district relative to especially feeding, and to do everything in their power to see to it that every covey or flock of quail, ring-neck pheasants, ruffed grouse and wild turkeys are fed throughout the winter. The grouse can survive without feeding under ordinary winter conditions, but a little food placed where they can secure same will also bring them through the winter in much better condition to hatch and rear their young.

Remember, however, that fifty-five regular salaried Game Protectors for the State of Pennsylvania cannot begin to look after this important work as it should be done without YOUR ACTIVE HELP AND SUPPORT. We will pay for grain used, but cannot pay for services rendered in placing same. Neither can we pay for grain to be placed on lands where only the owners and their friends can hunt to the exclusion of other legitimate sportsmen.

I hope you will understand that we are trying to help you AND THAT YOU WILL DO WHAT YOU CAN TO HELP US SECURE THE BEST POSSIBLE RESULTS. Get in touch with your Game Protector relative to this matter at once, and in case you do not know his address write us direct. NOW IS THE TIME TO PUT YOUR SHOULDER TO THE WHEEL.

Respectfully yours,  
 JOSEPH KALBFUS,  
 Secretary, Game Commission.

**Waste-paper Collection in Glasgow, Scotland**

In 1900 Glasgow established a cleaning department for collecting the city refuse and utilizing waste products. One of the principal branches of this department is devoted to the collection of waste paper. During the past ten years the city has profited to the extent of nearly \$44,000 from the sale of this source in 1907-8 having amounted to \$3,010; in 1908-9, to \$3,120; in 1909-10, to \$4,215; in 1910-11, to \$5,725; in 1911-12, to \$4,765; in 1912-13, to \$2,315; in 1913-14, to \$2,675; in 1914-15 to \$2,950; in 1915-16, to \$1,360, and in 1916-17, to 13,590.

The collection of waste paper from the city offices, warehouses, and better-class dwellings was originally introduced, apart altogether from the financial phase, with a view to curbing as far as possible the nuisance inseparable from the removal of paper from the public streets and in order to get hold of the material before it reached the dust bins and ash buckets. Bags for holding the paper, measuring 32 by 40 inches, are issued to business premises, etc., and are called for regularly by employees wearing a departmental armet. The contents of these bags are emptied into larger receptacles for removal to the paper mills. By means of this system the paper is not only kept off the streets, but, being collected separately from the refuse, it forms a marketable commodity and becomes a source of revenue, as set out above.

In view of the Government's prohibition of the import of wood pulp, and consequent scarcity and increased value of waste paper, steps have been taken by the local city officials to collect waste paper on a much more extensive scale, even to the extent of salvaging all material picked out of the refuse at the various city garbage plants. The department is receiving valuable assistance from an organization known as the Women's Volunteer Reserve, the members of which engage in a door-to-door collection in certain districts of the city. In return for the services thus rendered the organization receives 20 per cent of the revenue derived from the paper so collected. An effort is also being made to reach the dwellings of the working classes through the medium of the school boards and pupils.

The service in this city is absolutely free. No charge is made for the use of the bags or for carting the paper away. All waste paper is sold, at Government-controlled prices, to paper-stock merchants in the condition in which it is collected. The total quantity collected and sold during the fiscal year was 835 tons, the revenue realized therefrom amounting, as stated, to \$13,590. It is interesting to note that about ten times as much paper was collected during the past fiscal year as during the preceding one. For the first three months of the current financial year 342 tons were collected, with a total value of \$11,155. It is reliably estimated that the total value of the paper collected during the present financial year will reach \$50,000.

**Driving It Home!**

Let us drive home to you the fact that no washwoman can wash clothes in as sanitary a manner as that in which the work is done at our laundry.

We use much more water, change the water many more times, use purer and more costly soap, and keep all the clothes in constant motion during the entire process.

It is simply a matter of having proper facilities.
