JOHNSTOWN

Sells the Champion Cream Saver

THE NEW DE LAVAL

THE worth of a separator depends very largely upon its bowl. A separator bowl must be scientifically designed, properly constructed and perfectly balanced or it will not only lose some cream to begin with, but will soon get out of balance and lose a great deal more cream, besides wearing out the bearings and gears in a short time. That is why the average life of a cheap separator is only two or three years.

The bowl of the NEW De Laval is self-centering

The new De Laval bowl is so constructed and so balanced upon its detached spindle that it will run true and do perfect work even after the machine has been in use for a long time.

The De Laval bowl has always been noted for its close skimming under all conditions, but the new De Laval patented milk-distributing device, together with the larger discs, makes the new De Laval bowl an even closer skimmer than the old one and gives considerably greater capacity into the bargain.

The new De Laval bowl has been called by people who ought to know, "the greatest improvement in cream separator construction in the last thirty years."

Come in and see one of the new machines. We'll be glad to explain it to you in all its details, and we know you will be interested in examining the new bowl, the bell speed-indicator, and the many other improvements.

Cross-section of new bowl, showing new method of distributing milk between the discs.

**Have you
Indigestion?**

Your food will continue to disagree with you, and cause distress until you strengthen your digestive organs, and tone and sweeten the stomach. You can do this quickly and surely by promptly taking a few doses of

**Are good for
the Stomach**

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 10c., 25c.

TIMELY TIP No. 1

Peel your potatoes with a safety razor.

**CORN WILL WIN
DEMOCRACY'S WAR**

America's Greatest Cereal Crop Is Now Moving to Market.

MAINSTAY IN NATION'S CRISIS.

Surplus Wheat of the United States Has Been Sent to Famine Threatened Europe.

America's great corn crop, exceeding 3,000,000,000 bushels, will save the world's food situation, officials of the United States food administration believe.

Corn is the nation's best food cereal, housewives are beginning to realize. It contains all the elements needed to keep the body in a state of health and when used according to the scores of tried recipes, especially when combined with an added portion of oil or fat, will sustain life indefinitely. Indian warriors in colonial days lived on parched corn alone for many days at a time, and at Valley Forge parched corn was at times the sole ration of the Continental soldiers.

Owing to transportation difficulties caused by the war the corn crop moved more slowly to market this year than ever before. Now, however, the cereal is reaching the millers and consumers. In the meantime the nation's surplus wheat has been sent to Europe.

Today there are approximately 30 bushels of corn for every American. This quantity is greater by five bushels than in former years.

Corn has become the nation's mainstay in the crisis of war.

Just as this cereal saved the first American colonists from famine on many occasions, just as it served as a staple food during the War of the Revolution and during the Civil War, Krag Corn has again come to the front in the nation's battle with autocracy.

Corn meal is finding greatly increased use in the making of ordinary white bread. Hundreds of housewives and many of the larger bakers are mixing 20 per cent. corn meal with wheat flour to make leavened bread. This kind of a mixture is worked and baked in the same recipes and with the same methods that apply to straight wheat bread.

Corn bread—using corn meal entirely—is gaining a greater popularity than ever before. Housewives are coming to realize that every pound of wheat saved in America means a pound of wheat released for shipment to the nations with which America is associated in the war.

There are a score of corn products that today possess unusual importance for Americans. Corn syrup for sweetening corn cakes and buckwheat cakes and for use in the kitchen instead of granulated sugar is one of the leading products made from corn.

Corn oil, excellent for frying and for every other purpose filled by salad oils, is appearing on the market in large quantities. It comes from the germ of the corn.

**MADE-IN-GERMANY LIES
CIRCULATED IN CANADA**

Canada is also having trouble with Made-in-Germany lies calculated to hinder Canadian food conservation according to an official statement received from the Canadian food controller by the United States food administration.

The stories bothering Canada are of the same general character as those of the United States food administrator recently denounced in this country, such as the ridiculous salt and bluing famine fakes and the report that the government would seize housewives' stocks of home canned goods.

The Canadian food controller estimates that when the people listen to and pass on such stories, each one has the power of destruction that lies in a battalion of soldiers.

"Stories without even a vestige of foundation have been scattered broadcast," said the Canadian statement. "Nor have they come to life casually. They have started simultaneously in different parts of the country and in each instance have been calculated to arouse public indignation."

"They are insidious, subtle, persistent. Bit by bit they dissipate public trust, the great essential in the work of food control."

"It lies with every individual to forbear from criticism; to refrain from passing on the vagrant and harmful story, and thus the more effectively to co-operate in work which is going to mean more than the majority of people yet realize."

THE UNITED STATES FOOD ADMINISTRATION SAYS:

There is no royal road to food conservation. We can only accomplish this by the voluntary action of our whole people, each element in proportion to its means. It is a matter of equality of burden; a matter of minute saving and substitution at every point in the 20,000,000 kitchens, on the 20,000,000 dinner tables, and in the 2,000,000 manufacturing, wholesale and retail establishments of the country.

**THE COMMERCIAL'S UP-TO-DATE BUSINESS
GUIDE AND PROFESSIONAL DIRECTORY,**

These Business and Professional Men Contribute to the Support of The Commercial; Commercial Readers Contribute to the Support of These Business and Professional Men.

List under this heading your business name, location, telephone number and a brief general description of goods carried in stock, or of professional services available to the public. No single ad listed to contain more than seven printed lines. The cost is 50 cents per month.
