It is not a disgrace to have been in prison. The bird of freedom has always been a jail bird. In all great crises the place to look for the redeemer of the race is not in the palaces of religion or the palaces of justice, but in the prison cells or on the road thereto. Moses had to flee from the Egyptians. Socrates died in a cell. Christ was made a convict because he was a friend of the people, and was crucified as the first preacher of democracy. Washington and Jefferson had so much contempt of court that they would have been hanged if they could have been caught. In the history of progress tyranny has always been the turnkey, liberty always the convict.—Henry D. Lloyd.

FORWARD!

I am bold enough to believe that any honest investigator will agree with me that capitalism is a mere temporary makeshift, and that Socialism is to be its natural, necessary and inevitable successor.

If I am correct in this diagnosis of the state of your mind I have only one more very important word to say to you by way of conclusion.

Read the fundamental Socialist works and take an active part in the Socialist party organization.

It is of supreme importance that every Socialist should be thoroughly grounded in the fundamental principle of Socialism.

It is likewise of supreme importance that every Socialist should co-operate with every other Socialist by aggressive activity in the Socialist party organization.

The Socialist party started upon its career with a full knowledge of its high mission. The time has come in the history of the world for conscious evolution. We Socialists know full well that the economic laws compel the abolition of capitalism and the introduction of Socialism. And we deliberately organized the Socialist party in order to make the transition from capitalism to Socialism as smooth and easy and rapid as possible.

In order to do this successfully it is necessary for us to remove economic bewilderment from the minds of the people and put the clear, simple truth in its place. It is necessary for us to send speakers to every corner of the land. It is necessary for us to put Socialist literature in the hand of every adult in America. And it is necessary to keep on doing this until the object is accomplished.

To do this requires an aggressive and systematic organization, ramifying into every locality in the country.

The importance of systematic and effective organization can not be over estimated.

Organization is the key to success.

Remember that.

Turn it over and over in your mind.

Let it filter into your blood.

The capitalist class has no fear of a million unorganized Socialists.

It is the organized Socialist party, with its batteries that never sleep, that gives them the cold shivers. The calm confidence of the organized Socialist party is the most terrific fact that capitalists ever encountered.

The Socialist party is a rank and file party. Every act of every officer is subject to referendum vote of the membership. Every officer is also subject to recall by vote of the membership.

The Socialist party never slumbers, never sleeps. It carries on an incessant agitation between campaigns as well as during campaigns.

It intends that Socialism shall be speedily realized.

Anyone at all acquainted with the industrial situation, and with the temper of the magnificent army of Socialists will look upon this as a positive certainty.

In the Socialist the zeal of the crusader is combined with political common sense—a combination which must win.

The Socialist is not a quitter.

He is here to stay.

The future is his.

He is the man of destiny.

He is practical.

He is the only man who has interpreted the spirit of the age.

He is the only man who has read the signs of the times.

He is the only man who has discovered the shadows which coming events are casting before them.

He proclaims the truth.

He is, therefore, invulnerable.

He draws his shining lance and challenges every other school of economic thought in the world to meet him in the arena of debate.

And they slink away like whipped curs, conscious that they are in the wrong.

Socialism is the next step in the evolution of humanity.

The world is being urged toward it with winged speed by the action of irresistible economic laws.

The fingers of all past ages point forward to it.

In a world of trouble, sorrow, poverty, ignorance and anguish, Socialism is the only hope.

Without it, all is gloom, the times are out of joint, and the world has gone crazy.

With it, the world is sane, and the future is bright with better things.

JOHNSTOWN

Sells the Champion Cream Saver

THE NEW DE LAVAL

ALMOST any separator will do fairly good work when it is brand new, perfectly adjusted and skimming warm milk from freshened cows. But a separator can't always be new, cows can't always be fresh, nor can you always separate your milk while it is at 85 or 90 degrees. In other words, your separating is done under practical conditions, and the sensible thing to do is to get a practical separator.

The NEW De Laval is the most practical separator you can buy

because it is the only separator that you can depend upon to skim clean under any and all conditions of milk and temperature, and to deliver cream of uniform thickness.

If you want to own a separator that will do its work better than any other, and do it without constant tinkering and adjustment, then the NEW De Laval is the machine to buy.

While this statement has always been true of De Laval machines, it is true today to an even greater degree than ever before because of the many improvements in the NEW De Laval. The new self-centering bowl which gives the machine greater capacity and skimming efficiency, the De Laval bell speed-indicator, which alone would be worth many dollars a year to a cow owner, the improved automatic oiling system and the many other improvements found in no other make of machine, make the NEW De Laval by far the most satisfactory separator to operate and the most profitable to own.

You can buy a NEW De Laval from us on liberal terms. Come in and examine the machine and talk it over.
