Assuming that the liquor question has been settled so far as Somerset county is concerned, conscientious temperance people are now free to take up the study of such important questions as the abolishment of capitalism and adoption of a system in industry which will reward the hard working man with the full social value of his product. We shall have some interesting things to say on these subjects from time to time and readers of the Commercial should recommend to their temperance friends that they become subscribers and students of the next great question at issue.

Ringling Bros. Mammoth Show and Great Spectacle Will Soon Be Close at Hand.

"Ringling Day," the big holiday for which young and old impatiently wait at this season of the year, promises to eclipse all other events on the calendar at Johnstown, Tuesday, June 4. Exhibitions will be given both afternoon and night. It would seem as though everybody in this locality were planning to attend. Those who do will see many wonders. There will be the great street parade—more than three miles long this year—no end of strange and remarkable wild animals in the gigantic Five-Continent Menagerie, and whole hours of sensations in the mammoth main tent. This season the Ringling Brothers are opening their program with a wonderful spectacle entitled "In Days of Old." More than 1,200 actors take part in the great production, which tells the story of the days "when knighthood was in flower." There is a ballet of 300 dancing girls and no end of other striking features. Following the spectacle will come a thousand arenic sensations. There will be seventy riders, headed by May Wirth, who somersaults from the back of one galloping horse to another; Lily Leitzel, the world's greatest aerial gymnast; Australian woodchoppers felling giant trees; Hillary Long, who leaps the gap on his head, and a world of other startling features. Eighty clowns will furnish fun and more trained animals and trick horses and elephants will appear than ever before.

COAL RUN.

Mr. Alton Sheets has gone to Cresson for the benefit of his health.
 Mr. Albert Ries and family, of Meyersdale, were visitors at the home of Mr. and Mrs. George Ries.
 Mrs. Charles Leydig and little son Clarence, of Pittsburgh, are visiting her mother, Mrs. Hartland.

Mr. John Walker and family and Mr. John May and family, of Pleasant Hill, spent Sunday with Mr. and Mrs. George P. Walker.

Some of the young fellows of our village are seen going home at the hour of six or seven o'clock on Sunday morning. How is it, Walter, with you?

NOTICE IN DIVORCE. TO CHARLES OTT

You are hereby notified that the Court of Common Pleas of Somerset County, Pennsylvania, has appointed the undersigned as master to take testimony, find the facts, and report the same to said Court, with an opinion, in the action in divorce by Wilhelmina Wiland Hott against you, at No. 7, December Term, 1918, in said Court. In pursuance of said appointment, I shall take the testimony at my office in Somerset Borough said County, on Tuesday, June 25th, 1918, at one o'clock in the afternoon; at which hearing you may appear if you see fit.

ERNEST O. KOOSER,
 Master.

22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

Corn Meal Biscuits

- 3/4 cup scalded milk
- 1 cup corn meal
- 2 tablespoons shortening
- 1/2 teaspoon salt
- 1 cup white flour
- 4 teaspoons Royal Baking Powder

Save 1/4 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.

Our new Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free—address

 Sells the Champion Cream Saver

THE NEW DE LAVAL

THERE is no machine made in which proper lubrication is more vitally important than it is in a cream separator. A separator that is not properly oiled will turn hard and soon wear out. The old-fashioned method of oiling through a number of little holes with a squirt-can was unsatisfactory for the reason that some users would oil too much and too often, while others would not oil often enough.

The NEW De Laval is automatically oiled

You don't have to fuss around a NEW De Laval with a squirt-can. Simply keep the sight-feed lubricator on top filled with oil and the automatic oiling system will see that every gear and bearing in the machine has just the right amount of fresh, clean oil at all times.

The automatic oiling system saves time and saves trouble, makes the machine run easier and adds years to its life.

The De Laval oiling system has been greatly improved by the addition in the NEW De Laval of an automatically oiled neck bearing and the consequent elimination of the tube that formerly carried oil to this most important part.

There has never been a cream separator that embodied so many improvements as the NEW De Laval.

The new self-centering bowl with its improved milk-distributing device, and the bell speed-indicator which insures operation at the proper speed, are two of the greatest improvements that have ever been made in cream separator construction.

Come in and see the NEW De Laval.
